

# Pentagon Reported In Total Fear After Russian “Super Weapon” Paralyzes Alaska Defenses

By Sorcha Faal

An intriguing Ministry of Defense (MoD) report circulating in the Kremlin today says that the United States Department of Defence (DoD/Pentagon) was reduced to a state of “*total fear*” this week after the Khibiny Electronic Warfare System “*super weapon*” successfully paralyzed the entire North American Aerospace Defense Command (NORAD) defenses over Alaska—an action personally authorized by President Putin who was enraged over an American magazine propaganda article that claimed “*Russians are hopeless primitives from a medieval country*”. [Note: Some words and/or phrases appearing in quotes in this report are English language approximations of Russian words/phrases having no exact counterpart.]

According to this report, with neither the American or European Union peoples being allowed to know that truth by their propaganda media organs about the “*Miracle of Russia*” that has made the Federation the world’s last bulwark against the anti-Christ demonic globalists, they are, instead, being mentally assaulted on a daily basis by the most blatant Russian hysteria not seen in the West since the Cold War.

Reaching a new low, even by Western standards, this report continues, the American leftist magazine Vanity Fair this past week went beyond just simple Russian hysteria into outright genocidal reporting with its stating that the peoples of the

**Federation were sub-human primitives living in a nation likened to the Middle Ages because they wouldn't accept being ruled over by these demonic globalists.**

And yet Kennan's advice remains virtually as relevant today as it was 75 years ago. Of course, had the Soviet collapse facilitated a truly democratic flowering, this would not be the case. But that didn't happen. It probably couldn't have happened, despite the noble intentions of **Boris Yeltsin, Bill Clinton, and Jeffrey Sachs**. It was probably too much to ask a basically medieval country to become modern in a decade. Instead, Russia reverted to its primal self, to **Vladimir Putin**, whose compact with the Russian people is a somewhat attenuated version of Josef Stalin's own. Kennan, it seemed, had figured out the whole game before we even started to play it.

**In retaliation against these Western elites seeking to instill in their citizen's minds a belief that Russians aren't human beings worthy of life, this report says, on Monday (17 April) President Putin (in his showing the West how "*primitive*" his people *really* are) ordered a Tu-95 Bear Strategic Bomber equipped with the Khibiny Electronic Warfare System "*super weapon*" to fly to the edge of NORAD's Air Defence Identification Zone in Alaska—and when approached by American fighter aircraft, deploy its "*electronic payload*" to "*devastating and paralyzing effect*"—and that it did so much so, in fact, when this bomber returned the following day (18 April), no US fighter aircraft were even able to take off from their Alaskan airfields.**

**Important to note, this report says, is that this is not the first time the Americans have been "*punished*" for their aggressive actions against the Federation by the Khibiny Electronic Warfare System "*super weapon*"—and that we had, also, previously noted in our 14 April 2016 report titled "Destroyed" US Warship Donald Cook In Baltic Sea Refuses Russian Offer Of Help"—wherein we detailed the 2014 Russian Khibiny Electronic Warfare System "*super weapon*" attack against the USS Donald Cook AEGIS Warship in the Black Sea that was so devastating, 27 US Navy officers filed for immediate resignation.**

Likewise, in our 23 March 2015 report titled “Terrified US Aircraft Carrier Flees From Russian Subs To UK Safety”, we detailed the Russian Khibiny Electronic Warfare System “*super weapon*” that uses “*Magrav technology*”—and that in a shock 2012 move, then President Barack Obama banned from being used by the American military, and as we had stated:

*“Magrav technology” was conceived by the Iranian-born nuclear engineer Mehran Keshe,, but whose works are banned from public use in the United States under an Executive Order signed by President Obama on 23 April 2012.*

*President Obama’s signing of his Executive Order against “magrav technology” was due to the Iranian’s using it to down, and then capture one of the United States most secretive and sophisticated drones in December, 2011, and then Iran sharing this new weapon with Syria.*

*Immediately upon President Obama banning “magrav technology” in 2012, Mehran Keshe replied to the American leader in an open letter by stating:*

*“Your Excellency President Obama,*

*We offer you a path towards real world peace through the development of this new technology for the whole human race*

*I invite you to a direct presentation of our technology to you and your cabinet, to be given on neutral ground where the president of Iran could also be present and where no one betrays anyone else, so that we can all understand the*

***fundamental change that is about to be brought to mankind. Then let us talk about genuine world peace.***

***As I said in my Sunday interview in Los Angeles, let us convert the military factories of the US to provide resources for a US space organization, so that the tools of war become the craft of universal peace.***

***The aircraft carriers of the US will become nothing but floating bathtubs if our Magravs technology is used effectively, the runways full of F16s and 18s and so on will be nothing but runway museums of iron birds, as these craft will not be able to fly if their electronic systems are once touched by Magravs space technology. These crafts and battleships would have to be rewired from A to Z before they could ever operate again.***

***President Obama, we invite you to understand this change and to let us show you the technology that is bringing it about. Then we invite you to the table of world peace.***

***Please sign a decree for genuine peace and not a gagging order for science and technology, which your people understand fully what we have developed as they try to protect the pride of your nation.***

***This is not a question of the pride of one group or country, but pride for all of us in the advancement of the human race to new levels of understanding of the universal order of creation, in which we each have our place.***

***Your Ambassador and Consul in Belgium have direct access to me from our previous talks and correspondence with them and would pass on any communication.***

***With kindest regards from a peace loving man who has developed this powerful technology for the good of mankind.”***

**End of Open Letter to President Obama**

# Magrav Technology;

The Hamein-Rauscher Solution.

Following the successful takedown of NORAD's air defenses over Alaska using the Khibiny Electronic Warfare System "*super weapon*", this new MoD report continues, President Putin further authorized the first in history reporting (on 19 April) to the outside world of these "magrav technology" weapons now being deployed and developed by the Federation---but that the propaganda Western media is failing to fully, or honestly, inform their peoples about; choosing, instead, to publish misleading articles such as London's The Sun whose headline reads: "Russia Claims It Can Wipe Out Entire US Navy With A Single 'Electronic Bomb' In Bizarre Propaganda Report".

Far from being a "*bizarre propaganda report*" as The Sun reports, however, this report concludes, President Putin's

motives in releasing the information about the full and devastating power of these new “*magrav technology*” weapons, and giving the Americans a lesson in Alaska of what will happen should war begin, is meant to dissuade the West from the insane course of global conflict it is currently on—but if not stopped, will see Federation aircraft from the top-secret Trefoil military base in the Arctic Circle descend upon the military might of the West and destroy it all in a matter of days, if not hours.

Russia's top-secret Trefoil military base in the Arctic Circle revealed for first time to West on 19 April 2017
