

# Obama's And Clinton's Treason, Crimes And Corruption Causing Unprecedented Alarm In USA. Obama And Clinton Torn To Shreds Politically!

By Sorcha Faal

A fascinating **Security Council** ([SC](#)) report circulating in the Kremlin today details a lengthy exchange held during today's meeting between Members **President Putin** and **Chairwoman of the Council of Federation** [Valentina Matviyenko](#) wherein "*alarms*" were expressed relating to recent communications held between **Chairwoman Matviyenko** and former **US Secretary of State Hillary Clinton** ([Matviyenko and Clinton are long time comrades](#)) regarding the 2010 "*deal*" made between Russia and the Obama regime for the release of [Masterspy "N"](#)—and who was previously identified as being **Foreign Intelligence Service** ([SVR](#)) "*deep cover operative*" [Lidiya Guryev](#)—whose now [legendary exploits allowed her to penetrate the most secure regions of the American government](#) to such an extent, a [widely popular US television series, titled "The Americans", was created in her honor](#). [Note: Some words and/or phrases appearing in quotes in this report are English language approximations of Russian words/phrases having no exact counterpart.]

SVR Masterspies "N" (right) and "A" (left) whose American deep cover names were Cynthia and Richard Murphy, and their 2 US citizen children

US television show "The Americans" fictionally depicts the life of Masterspy "N"

According to this report, as part of its “*normal tradecraft protocol*”, the **SVR**, [in the mid 1990’s](#), continued its infiltration into America of “*deep cover operatives*” meant to act as “*silent alarms*” should the US begin either covert or open hostilities against the Federation—and whom among them was the highly trained **Masterspy “N”**—who was [paired with Masterspy “A” and began their American lives as Cynthia and Richard Murphy](#)—and whose success of this “*deep cover operation*” saw **Masterspy “N”** [penetrate into the highest reaches of the Democratic Party by her close personal relationship with New York financier Alan Patricof](#)—and that led to her, then, [gaining direct access to Hillary Clinton](#).

Unknown to **Masterspy “N”**, though, this report continues, [in 2004](#), **Bush** regime **FBI** counterintelligence operatives had begun penetrations against a number of **SVR** “*deep cover operatives*” living in the US—with these FBI penetrations continuing under the **Obama** regime that took power in 2009—but when the full extent of **Masterspy “N”** having compromised **Hillary Clinton** began to be fully known, this **SVR** “*deep cover operatives*” network was arrested on 27 June 2010—with the **FBI** [reporting about it publically on 28 June 2010](#)—and who documented their breaking of this SVR spy ring in their “[Operation Ghost Stories](#)” and their “[Illegals Program](#)” indictment.

Using long established protocols created in the early 1960's for [the Francis Gary Powers and Rudolf Ivanovich Abel "spy swap"](#), and intended to keep "*unforeseen hostilities*" from breaking out between the US and Russia over captured military and/or intelligence assets, this report details, on 10 May 2010, then **Secretary of State Hillary Clinton** opened a "*communication dialog*" with **Valentina Matviyenko** regarding the impending **FBI** takedown of the **SVR's** "*deep cover operatives*" in America—and with **Clinton** and **Matviyenko** having had a long-term personal relationship since then [First Lady Clinton's 1998 visit to Moscow in the aftermath of her husbands being forced to admit to having sexually abused a young White House intern when they first met](#), this type of "*back channel*" contact conformed to past instances of such contacts regarding "*grave/serious*" matters.

Close personal comrades Hillary Clinton (left) and Valentina Matviyenko (right)

Upon being contacted by **Secretary of State Clinton**, this report continues, **Valentina Matviyenko**, working with the **Ministry of Foreign Affairs (MoFA)**, established the initial protocols for the "*spy swap*" between America and Russia—and that would see these 10 **SVR** "*deep cover operatives*" being exchanged in **Vienna** (Austria) for 4 **CIA** "*assets*" held by Russia—but that [was not fully implemented until early July \(2010\)](#).

As to the conditions imposed upon **Russia** by **Secretary Clinton** in order to fully effectuate this “*spy swap*”, however, this report details, she first stated that her husband, former **President Bill Clinton**, would arrive in **Moscow** a few days prior to the **FBI** taking down the **SVR’s** “*deep cover operatives*” in America—with **Clinton** then demanding that her husband be granted a private meeting with **President Putin**, to be followed by his being granted immediate access to top **ROSATOM** officials—and that in order to ensure the “*proper care*” of these Russian spies once they were in the custody of the **FBI**, former **President Clinton** should be “*gifted*” with a “*substantial award*” too.

Immediately after **Secretary Clinton** made these demands, and [as US government records now show](#), former **President Clinton** applied to wife’s **State Department** for permission to meet with, at least, [15 ROSATOM nuclear officials](#), this report continues, with him then arriving in **Moscow** on 27 June 2010—and the following day, 28 June, when the **FBI** announced their arrest of the **SVR’s** “*deep cover operatives*”, his being [granted a private meeting with President Putin](#), and his, also, [receiving a \\$500,000 “speaking fee gift”](#)—and that was [added to the over \\$48 million in other such “speaking fee gift” shakedowns he had gained during his wife Hillary’s tenure as Secretary of State, and who had personally approved 215 of them.](#)

As to why former **President Clinton** wanted a private meeting with President Putin and top Russian nuclear officials, this report explains, was due to **ROSATOM** having announced in the weeks

prior to the **FBI** taking down the **SVR's** “*deep cover operatives*” in America its [desire to take a majority stake](#) in [Uranium One](#)—a Canadian based company owning vast mineral reserves in **Kazakhstan**, and owner, too, of nearly 20% of the uranium reserves in America.

In the “*deal/scheme*” presented by **President Clinton** to **President Putin**, though, this report continues, instead of **ROSATOM** just acquiring a 51% majority stake in **Uranium One**, this entire company (including its uranium assets in the US) could be bought by Russia—and that [Secretary Clinton would quickly approve](#), provided a “*proper*” compensation was made to the **Clinton Foundation**—and that [amounted to over \\$145 million](#).

With American companies [being long known for their vast bribery “deal/schemes”](#), and the [Clinton’s “pay-to-play” crimes being commonplace and virtually unreported on even when exposed](#), this report notes, the **Security Council** assented to **President Clinton’s** demands—a decision made due entirely to fears that if **Secretary Clinton** wasn’t pleased, **Masterspy “N”** and her **SVR** comrades under arrest in America would be gravely harmed, most of whom were parents of young children—and whose shocking “[Clinton Death List](#)” attests to these fears being well placed.

40 - Major General William Robertson	46 - Conway LeBieu
41 - Col. William Densberger	47 - Todd McKeenan

In a “*normal/expected*” time period of events following this 2010 “*deal/scheme*” made with **Hillary Clinton**, this report continues, both **Security Council** and **SVR** experts agreed its future impact would be minimal as [Clinton was sure to be coroneted as the president-successor to Obama](#), and whom no one would believe would expose her own crimes—but who, instead of being met with praise and accolades as she “*rode*” towards Washington D.C. and her eventual triumph, was met by a force more powerful than herself—**Donald Trump**.

And in **Clinton’s** fearing that **Trump** would win over her, and knowing that her vast criminal organization would be exposed for all to see if that happened, this report details, last July (2016) she requested that **ROSATOM Director-General [Alexey Likhachov](#)** meet with an associate of [Sir John Scarlett](#)—with **Scarlett** being the former Chief of the **British Secret Intelligence Service (MI6)**—and his associate **Clinton** wanted **Likhachov** to meet being **Scarlett’s** former Russia Desk protégé [Christopher Steele](#).

With both **ROSATOM** and **MI6** being “*participant parties*” to the highly successful “[Megatons to Megawatts Programme](#)”, this report explains, it was considered a normal function for a meeting to be held between **Director-General Likhachov** and **Christopher Steele** as **Hillary Clinton** requested—especially in light of her telling **Likhachov** that this meeting was in anticipation of making future such agreements between Russia and the US when she became president.

Not known, however, to **Director-General Likhachov**, as this report explains, was that **Christopher Steele** was not operating in his **MI6** official duty capacity, but as a “*covert agent*” who was a part of vast criminal conspiracy ran by **Hillary Clinton**, the **Obama** regime, and former **FBI Director James Comey** to destroy **Trump** by their creation of a fake intelligence document know known as the “[Russian Dossier](#)”

In the **Federal Security Service (FSB)** interrogation notes of **Director-General Likhachov** relating to his July 2016 meeting in **Moscow** with **Christopher Steele**, this report continues, he testified that he had no knowledge of the true and sinister purpose behind what was occurring—with his, also, stating that no one could have believed that the **FBI** was working as an extension of the **Hillary Clinton** presidential campaign to destroy another candidate as this has never before happened in America history.

To all **Director-General Likhachov** was able to “*contribute*” to the fake “**Russian Dossier**” as the **FSB** determined, this report explains, is being echoed in America too—with [one such report noting how such false documents are made](#):

*Some indisputable and confirmable information is inevitably used to provide credibility for a lot of speculation and false stories that were intended to sow doubt and confusion. Gossip and rumors are reported as fact, with the whole product being put together in such a fashion as to appear credible to satisfy a client interested in exploitable information rather than the truth.*

As to how successful **Hillary Clinton** is being in covering up her “*deal/scheme*” crimes abetting the release of **Masterspy “N”** and her **SVR** “*deep cover operative*” comrades, this report notes, shows her efforts are rapidly failing—and should have been expected as **President Trump**, who now controls all of the power levers in Washington, has begun his long expected counterattack against **Clinton’s** forces seeking his destruction by his [exposing that this “bribery plot” existed while Clinton and Obama were in power](#)—with **Trump’s** powerful **Justice Department**, also, now allowing the **FBI** “*deep cover informant*” who penetrated the **SVR’s** “*spy ring*”, through his relationship with **Masterspy [Anna Vasil’yevna Kushchyenko](#)** (aka **Anna Chapman**), to [testify before the US Congress](#).

**Masterspy Anna Vasil'yevna Kushchyenko caused takedown of SVR “spy ring” by meeting with FBI “deep cover informant” who is expected to soon testify before the US Congress**

This report concludes by noting **President Putin**, this past December (2016), ordered the **SVR** intelligence files on all of these **Hillary Clinton** matters to be provided to Israel’s **Institute for Intelligence and Special Operations (MOSSAD)** in order to mitigate future harm coming against the Federation—and that immediately after receiving them, caused **Director [Yossi Cohen](#)** to [rush to Trump’s side for a secret meeting about what was contained in them](#)—with **MOSSAD**, also, and just hours ago, issuing a not-so-subtle intelligence update through their **Arutz Sheva** news service about how grave this situation now is—and whose report they titled [“Obama's Felony: 'Sitting' On The ROSATOM Nuclear Crimes”](#)—and whose [dangers of are being warned about by former US Speaker of the House Newt Gingrich, too.](#)
