

# “Deep State” Panics: Filthy Lying Criminal Former FBI Director Comey Accompanied By US Marshall Testifies Before “Midyear” Grand Jury

By Sorcha Faal

A stunning new Foreign Intelligence Service ([SVR](#)) report circulating in the Kremlin today states that former Federal Bureau of Investigation ([FBI](#)) Director James Comey (who is [still listed as the FBI Director on their website](#)) has left the “[Deep State](#)” in shock after he testified yesterday (10 June) before a secret grand jury in New York City that is investigating crimes related to Hillary Clinton—and that with his being accompanied by US Marshall Service agents, strongly suggests that he is, also, under arrest. [Note: Some words and/or phrases appearing in quotes in this report are English language approximations of Russian words/phrases having no exact counterpart.]

According to this report, immediately after Comey testified before the US Senate Intelligence Committee this past Thursday (8 June), US Marshall Service agents [whisked him to his childhood home in New Jersey](#) that is still occupied by his father [J. Brien Comey](#)—an avowed hater of President Donald Trump who says that America’s leader “[should be impeached immediately](#)” and “[belongs in a mental institution](#)”.

Former FBI Director James Comey testifying before US Senate on 8 June with 3 US Marshall Service agents sitting behind him

Not being told to the American people by their mainstream propaganda media, this report continues, was that [a secret US federal jury code-named “Midyear” was impaneled in July, 2015, to investigate crimes related to Hillary Clinton—and though the Obama regime did everything in their power to subvert the justice of, nevertheless, just two weeks prior to the November 2016 presidential election, had to reactivate.](#)

As to why the Obama regime was forced to reactivate the “Midyear” secret grand jury investigating Hillary Clinton, this report explains, was due to the actions of National Security Agency (NSA) Director [Admiral Mike Rogers](#) who [had long been in secret communication with then candidate Trump](#)—and that when discovered, [both Defense Secretary Ash Carter and Director of National Intelligence James Clapper urged President Obama to fire.](#)

Knowing that President Obama was about to fire him, however, this report notes, NSA Director Admiral Rogers declassified the shocking criminal complaint affidavit used to impanel the secret “Midyear” grand jury investigating Hillary Clinton that was prepared by the [FBI’s top counter-intelligence agent E.W. Priestap](#)—and that the powerful independent legal organization Judicial Watch then used in their US federal court filing titled [“Judicial Watch, Inc. v. Rex Tillerson, in his official capacity as Secretary of State/ Civil Action No. 15-cv-1068”](#).

◆ On Thursday November 17th, 2016, NSA Director Mike Rogers traveled to New York and met with President-Elect Donald Trump.

◆ On Friday November 18th [The Washington Post](#) reported on a recommendation in “October” that Mike Rogers be removed from his NSA position:

*The heads of the Pentagon and the nation’s intelligence community have recommended to President Obama that the director of the National Security Agency, Adm. Michael S. Rogers, be removed.*

*The recommendation, delivered to the White House **last month**, was made by Defense Secretary Ashton B. Carter and Director of National Intelligence James R. Clapper Jr., according to several U.S. officials familiar with the matter.*

*[...] In a move apparently unprecedented for a military officer, **Rogers**, without notifying superiors, traveled to New York to meet with Trump on Thursday at Trump Tower. That caused consternation at senior levels of the administration, according to the officials, who spoke on the condition of anonymity to discuss internal personnel matters. ([link](#))*

Working with FBI counter-intelligence head E.W. Priestap in investigating Hillary Clinton’s crimes, this report further notes,

was FBI Special Agent William Sweeny Jr. who approached then US Attorney Preet Bharara to begin calling witnesses before the “*Midyear*” secret grand jury—but who [in refusing to do so was promptly fired by President Trump who replaced him with US Attorney Joon H. Kim—who was, in turn, immediately successful in convicting close Hillary Clinton confidante Anthony Weiner.](#)

Critical to note about Anthony Weiner’s conviction for US federal crimes, this report explains, is that his wife, Huma Abedin, was Hillary Clinton’s closest aide—but though she filed for divorce immediately upon her husband’s conviction, [quickly reconciled with him after “turning states evidence” and allowing her secret trove of documents to be captured by the FBI.](#)

Among the secret Hillary Clinton emails and documents turned over to the FBI by Huma Abedin, this report continues, were communications showing that [FBI Director Comey was deep in debt and near bankruptcy](#)—but in exchange for his lying about Hillary Clinton being under criminal investigation, [was “promised” that he would receive, at least, a \\$10 million “book deal”.](#)

Comey bought the estate on more than three acres not far from where Martha Stewart used to live in ritzy Westport, Connecticut, for \$3,050,000 in August 2010.

He's now had to reduce the price four times down to \$2.5 million and he still doesn't have a buyer for the palatial estate.

Comey, who has a net worth of \$11 million, lived like a king during the six years he spent at the Connecticut home.

**Before he became FBI director, James Comey lived the Gold Coast high-life in Westport, Connecticut as a hedge fund high-roller**

Also among the secret Hillary Clinton emails and documents the FBI captured due to Huma Abedin becoming a “*states witness*”, this report says, were communications proving that FBI Director Comey had for years been leaking top-secret information to the media—and that the SVR strongly believes he was arrested for on 6 June.

Leading the SVR to believe that Comey was arrested on 6 June, this report explains, was due to his being summoned to the US Department of Justice on 5 June where he was interrogated by deputy solicitor general [Michael Dreeben](#)—who has [argued more than 100 cases before the Supreme Court, is the department's go-to lawyer on criminal justice cases and is highly respected by Democrats and Republicans because of his encyclopedic knowledge of criminal law.](#)

Important to note about Dreeben, this report says, is that he was tapped by Special Counsel [Robert Mueller](#) to specifically interrogate Comey—and whom the SVR has a “*strong confidence*” belief was the actual writer of the “[Statement For The Record](#)” Comey submitted to the US Senate Intelligence Committee on 7 June prior to his 8 June testimony, and was not allowed to read into the public record.

Critical to note about this believed to be written by Dreeben “*Statement For The Record*”, this report explains, is that along with Comey’s testimony, it is the first instance in American history where an FBI Director testified under oath that he had actually committed crimes.

To the crimes Comey admitted under oath to committing, this report details, was his admitting that [he willfully violated his FBI Employment Agreement](#), that [he leaked to the media US government produced and owned documents](#), and his [perjuring himself by stating he had done so only after President Trump had sent a Tweet, but that the facts prove were leaks committed by Comey before any such thing occurred](#).

Interestingly, though, SVR American legal analysts state in this report that Comey's admitting under oath that he lied in saying [Hillary Clinton's criminal investigation was only a "matter"](#) was not a violation of US law as he had been ordered by his Obama regime superior, Attorney General [Loretta Lynch](#), to do so—but that [Comey didn't object to doing](#).

Not being told to the American people by their corrupt mainstream propaganda media, this report continues, is that President Trump, like all US presidents before him, [have the absolute power to stop any and all investigations being conducted by the FBI or US Department of Justice](#) against them—and that was most famously displayed, in 1992, when [President George H.W. Bush pardoned 6 of his top officials nearing trial to squash an investigation into his administrations illegal dealings with Iran](#).

Though President Trump could, most certainly, stop all investigations into him, or his associates, this report explains, he has, instead, chose a longtime Washington D.C. operative and former war decorated US military officer named Robert Mueller to lead his efforts against the ["Deep State"](#) trying to destroy him—and who aside from [being on Trump's "short list"](#)

to lead the FBI after Comey's firing, is long known to do exactly what his president orders him to do.

With the “*Deep State*” operative Comey now being referred to as the “six-foot, eight-inch Pajama Boy”, and President Trump, also, being described as “winning this war” against him, this report concludes, his adversaries were shocked yesterday when one of their favorite leftist hero's, Bernie Sanders, proclaimed to thousands of his supporters that “the current model and the current strategy of the Democratic party is an absolute failure”—thus leading the SVR to conclude that violence, not the ballot box, will now determine the fate of America.
