

Trump's Defeat Of ISIS And Trade War On China Ignored By US Media Who Air Leftist Violence Instead

By Sorcha Faal

An interesting Ministry of Defense ([MoD](#)) report circulating in the Kremlin today states that while Islamic State ([IS/ISIS/ISIL/Daesh](#)) terror forces in Syria are but [days away from total defeat](#), and a global trade war between Communist China and the United States to reclaim tens-of-millions of lost US jobs [is ready to erupt next week](#), the global leader behind these momentous events, and who has vowed to “*Make America Great Again*”, President Donald Trump, is, once again, being pummeled by his “[Deep State](#)” media enemies over [a “fake news” event perpetrated yesterday by leftist-Marxist violent extremists](#).

According to this report, due to President Trump's [decisive decision last month to end the “Deep States” support for terrorists in Syria that he had labeled “massive, dangerous, and wasteful”](#), Syrian and allied military forces under the protection of massive Russian air cover [were able just hours ago to free the ISIS besieged town of As-Sukhnah, in Homs Province](#)—thus leading [Defense Minister Sergei Shoigu](#) to declare that [the liberation of Syria's northwestern city of Deir ez-Zor would largely mean the successful end of the fight against the Islamic State](#).

Under the past Obama regime, this report explains, the Islamic State was able to grow to become [the wealthiest terror organization the world has ever known having a yearly income of \\$2 billion](#), and whose [main sources of income were the oil trade, kidnapping and ransom, collection of protection and taxes, bank robberies and looting](#)—as well as their [controlling](#)

over 100,000 square kilometers (bigger than South Korea) with more than 11 million people living under its repressive regime.

When President Trump took power just seven months ago, though, this report continues, his “*agreements/protocols*” with President Putin as to how the war against ISIS should be waged has astoundedly led to these terrorists losing over 64% of their territory, their becoming bankrupt having an income of barely \$8 million month, and, most importantly, less than 2 million left living under their brutal and despotic regime.

“I don’t want the enemy to know what I’m doing. Unfortunately, I’ll probably have to tell at some point, but there is a method of defeating them quickly and effectively and having total victory.”

—DONALD TRUMP

Most to benefit from President Trump’s decisive actions undertaken with President Putin to defeat ISIS, this report notes, are the 602,759 Syrian peoples who have been able to return to their country in the first seven months of this year since Trump took power, all of whom are now protected by Russian Military Police forces in de-escalation zones—but with Defense Minister Shoigu, also, now calling on the international community to help these peoples by his stating: “Today we say: Send the aid to the de-escalation zones, everything is open there. If you cannot transport, we shall transport for you. But we cannot be both the mother and the father. Thus, of course, here should be support from humanitarian organizations, from the United Nations Organization.”

As decisive as President Trump has been in defeating ISIS, this report continues, he is, likewise, preparing to wage economic warfare against Communist China whose trade practices (supported by the “*Deep State*” aligned Clinton-Bush-Obama regimes) have decimated American jobs and factories leaving tens-of-millions of US citizens jobless and homeless—but that Trump is now ready to avenge by his ordering an investigation into Chinese trade practices next week whose outcome will very well likely erupt in a massive trade war breaking out between these two nations.

Most astounding to note, however, about President Trump’s decisive actions leading to the defeat of ISIS and the (hopeful) reclaiming of tens-of-millions of American jobs stolen by Communist China, this report continues, is the US “*Deep State*” aligned propaganda media not even telling their citizens about them—and who are, instead, focusing all of their attention today on a “*fake news*” story favoring a mob action started by leftist-Marxist agitators against supposed “*white nationalists*”—but with these “*white nationalists*” (See [HERE](#) and [HERE](#)) describing a catastrophic situation totally created by local police forces who were ordered by their Democratic Party leaders (both State and local) not to protect them, and even though a US Federal Judge had ordered them to do so.

As to why the “*Deep State*” aligned US propaganda media created with the Democratic Party this “*fake news event*” to discredit President Trump by portraying him as a “*white nationalist*” sympathizer this report explains, is due to their equally “*fake news*” Russia hysteria story totally collapsing this past week—and as evidenced by America’s oldest and most leftist publication, [The Nation](#), publishing a scathing article last week titled “[A New Report Raises Big Questions About Last Year’s DNC Hack](#)” that has “[put the last nail in the coffin of the “Russian hack” narrative that has dominated the mainstream media’s coverage for the last year](#)”.

- There was no hack of the Democratic National Committee’s system on July 5 last year—not by the Russians, not by anyone else. Hard science now demonstrates it was a leak—a download executed locally with a memory key or a similarly portable data-storage device. In short, it was an inside job by someone with access to the DNC’s system. This casts serious doubt on the initial “hack,” as alleged, that led to the very consequential publication of a large store of documents on WikiLeaks last summer.
- Forensic investigations of documents made public two weeks prior to the July 5 leak by the person or entity known as Guccifer 2.0 show that they were fraudulent: Before Guccifer posted them they were adulterated by cutting and pasting them into a blank template that had Russian as its default language. Guccifer took responsibility on June 15 for an intrusion the DNC reported on June 14 and professed to be a WikiLeaks source—claims essential to the official narrative implicating Russia in what was soon cast as an extensive hacking operation. To put the point simply, forensic science now devastates this narrative.

To the American people themselves being able to see the truth about President Trump, instead of the “*Deep State*” lies told about him, this report concludes, remains uncertain—but is not helped by a new study showing that, [in 2016, Americans spent more than \\$80 billion on lottery tickets—which is more than they spent on movies, video games, music, sports tickets and books combined](#)—or in more simple language—they believe more in “*fake news*” created fantasy than reality.

The people will believe what the media tells them they believe.
