

Total War On Covid 19 (SAR-CoV-2) In 2 Parts

By Matthias Chang – Future Fast-Forward

Part 2

Introduction

On 3rd April, 2020, I sent out to all of you, Part 1 of this article, warning that the **War On Covid 19** is but one aspect of the **Total War (WIII or whatever you want to call it)**. The Health Segment, which was preceded by the Currency Wars and the Trade Wars is the Third Segment and is the last phase or prelude to the inevitable “Hot War”. If the three segments devastates the entire global economy, giving rise to **a reset** of the Global Financial System, then and just maybe, the Hot War may be avoided. But, I doubt it as all global wars followed the same trend. More of this forewarning will be detailed in the later part of this article.

However, we must now focus on the home front, on a more devastating and deadly virus.

The ALKS-PH-3 Political Virus

In Part 1, I had explained how this sinister political virus evolved over the years into its present structure. The conduit or carrier of this virus from its predecessor, **ALKS-PH-2** (Pakatan Rakyat) was a prisoner in the Sungai Prison and the infection was carried out right in front of my eyes, but I was not made privy to the scheme. However, my distant presence, from the perception angle, gave credence to Anwar that the conduit /carrier was legitimate. I was never infected till today. On the contrary, I realised the potential danger and took pains to alert all potential victims. My alerts fell on death ears and was also prevented from getting through because of the Berlin Wall and internal sabotage. And as they say, the rest is history.

The **ALKS-PH-3 virus is absolutely devious and its spread is not by cough, droplets and contact. It goes for the jugular, attacks the MIND, your mind through the time-tested route of subtle and indirect brainwashing!**

The current sound-bite and flavour for our mental infection is the following:

Anwar: The Country is a laughing stock!

Lim Kit Siang (LKS): We must do whatever, it takes! Convene Virtual Parliament!

This is the cunning, sinister and seditious route to overthrow the lawfully and constitutionally appointed government of Tan Sri Muhyiddin (PM) by the Agong - Mind Warfare in the infantile guise of helping PM to defeat Covid 19.

Read the above two sound-bites again and again. It is so innocuous and politically correct to inexperienced and immature sheeple / herd that views the political virus as harmless. People refused and or unwilling to take cognisance of the DNA sequence of this virus – the unbridled lust and greed for crass power and to seize the keys to the National Vault.

A Fix Deposit Box has two keys, one held by the bank and one by the customer. PH had only one key (thank God for this blessing) held by LGE, the Minister of Finance and the other by (who????) There was **so much frustrations, anger and impatience because each time PH wanted to have a peek inside the vault, PH had to get permission from the other key holder. This irritation turned into pure hatred but was always camouflaged by a veneer of respect for the key holder!**

Chinese businessmen who pride themselves as “loyal”, “diehards” and “confidante” of the second Key Holder, but are in reality filthy rich scumbags motivated by greed and the RM tattoo on their foreheads, have slavishly kow-towed to PH for the bonanza but got the crumbs instead.

Of the above two propaganda sound-bites, the one by LKS is downright dangerous and a fatal trap for the PM had he fell into it. But, I am sure PM could smell a rotten rat miles away.

LKS’s sound-bite, “do whatever it takes” without qualifications and explanations is a provocation and or an incitement to adopt extreme measures beyond what the law allows. Videos have been circulating about India and other European countries using harsh police / military actions to enforced social distancing measures. LKS is so dangerous because he pretends not to know that Anwar without any basis had already oppose the deployment of the military to assist the over-stretched police. The Anwar scumbag did not have the chutzpah to criticise these countries who have also declared “Emergency” to ensure compliance and deployed the military.

But, these dastardly political hoodlums have not uttered one word on what they meant when they screamed “do whatever it takes!” Say it lah, cowards! I dare LKS and Anwar to demand from PM to declare an “Emergency” and they would give 1000% support for this drastic measure!

I had in fact, from the outset of the crisis warned that PH would make such accusations and hurl “abuse of human rights” violations to whip anti-government sentiments. Therefore, PM was correct in adopting a “step by step” approach to intensify measures of enforcement, if needed. Now, these arseholes are screaming that more drastic measures ought to be taken. LKS and Anwar, freaking hypocrites, why did you not scream at the outset to adopt “do whatever it takes” to defeat Covid 19?

So, you want to have the cake and eat it! Scumbags!!!!

My only criticism of the new government is that the minister in charge of communications etc. have failed to mount any effective communication

campaigns to whack the two political charlatans! PM, please straighten him out as he is not pulling his weight to assist you!

LKS demands the convening of a “virtual parliament”. There is no need to give this political harlot a platform to spew PH nonsense. I demand LKS to post his nonsense to the mass media and social media so that the entire country can review all his “impossible promises” and if deem necessary, PM has the discretion to accept or reject his “advice”. If LKS has good ideas, just publish them lah, as there is no need to see his face and hear his provocations.

Just do one simple thing – Piss the F...K Off!!! Or else the rakyat would be compelled to “do whatever it takes” in accordance with the law and due process to shut you up! LKS and Anwar, better look into the mirror. What a sight, **stinking laughing stock!**

More to follow on the economy etc.
