

The Political Reality of the George Floyd Murder And the Democratic Party's Agenda.

By Matthias Chang – Future Fast- Forward

While we must condemn the brutal and senseless murder of George Floyd by a rogue “white police officer”, we must of necessity go behind the real story with regard to the violence sweeping USA. The peaceful protests have been hijacked to facilitate a coup and it is the last ditch efforts by the Democratic Party to regain Black American support for the Presidential Elections in November, 2020. I know, it's hard for you to believe that there is such a political agenda.

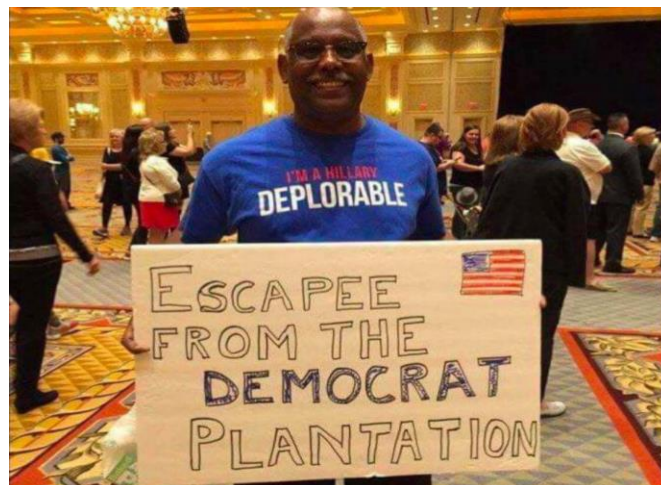

Read on!

I invite all of you to ponder the message of the internationally renowned black American philosopher, Dr. Cornell West who said,

“We are witnessing the failed social experiment that is the United States of America in the protests and riots that have followed the death of George Floyd at the hands of Minneapolis police....

“You've got a neo-liberal wing of the Democratic party, that is now in the driver's seat with the collapse of brother Bernie and they really don't know what to do because all they want to do is show more black faces -- show more black faces.

“But often times those black faces are losing legitimacy too because the Black Lives Matter movement emerged under a black president (OBAMA), a black Attorney General (ERIC HOLDER), and a black Homeland Security Secretary (JEH JOHNSON) and they couldn't deliver. So when you talk about the masses of black people, the precious poor and working-class black people, brown, red, yellow, whatever colour, they're the ones left out and they feel so thoroughly powerless, helpless, hopeless, then you get rebellion”.

West (not a Trump supporter) told CNN host Anderson Cooper (a Trump hater) that what is going on is a rebellion to a failed capitalist economy that does not protect the people. West, a professor, **denounced the neo-liberal wing of the Democratic party** that is all about "black faces in high places" but not actual change. The professor remarked even those black faces often lose legitimacy because they ingratiate themselves into the establishment neo-liberal Democratic party.

Top former black Obama official Van Jones, is now warning:

"It's not the racist white person we have to worry about, it's the white liberal Hillary Clinton supporter walking her dog in Central Park who would tell you right now, you know, people like that, 'I don't see race, race is no big deal to me, I see us all as the same, I give to charities,' but the minute she sees a black man who she does not respect or who she has a slight thought against, she weaponized race like she had been trained by the Aryan nation. A Klans member could not have been better trained to pick up her phone and tell the police a black man, African-American man, come get him."

Finally, in despair, he added:

"There is not an easy legal answer, there is not an easy political answer. There is a personal and spiritual accounting that all of us are now called to. **How can civil rights people like me get on TV every day and promise a better outcome and fail every day and still have a job? What the heck is wrong with people like me, what the heck is wrong with all of us, we got to this place.**" This is indeed a very courageous statement for black American, Van Jones to make.

And now the real kicker: **Did you know that Ku Klux Klan was created by the Democratic Party?** Historian Eric Foner observed: "In effect, the Klan was a military force serving the interests of the Democratic party, the planter class, and all those who desired restoration of white supremacy.

We now find out that **ANTIFA** is the armed wing of the Democratic Party who are behind the violence sweeping across USA.

We, (the whole world) are now caught in the information overload of fake news and propaganda, such that even the average American (black and white, Latinos etc.) are not aware that of the **44 districts in America** having the highest Covid19 death tolls, **41 of them were Democrat Party controlled black citizen districts.**

Yes, Covid19 and viruses do not make any distinction between race, colour, religion, culture etc. when they do their deadly work of infection. So, why are black Americans the majority in Covid19 deaths in USA? It is simple - the neglect and squalor of the states, cities, boroughs etc. are under the control of the Democrats for the past 100 years and they remained in such desperate conditions notwithstanding, and as Cornel West observed, the stark reality of betrayal by Black leaders:

“Black Lives Matter movement emerged under a black president (OBAMA), a black Attorney General (ERIC HOLDER), and a black Homeland Security Secretary (JEH JOHNSON) and they couldn't deliver.”

So, is it merely a White v Black issue or a matter of political corruption across the political divide?

You be the judge!
