

The 3rd Pearl Harbour - Covid19 Pandemic - For Global War & Hegemony

By Matthias Chang – Future Fast-Forward

Caveat:

This article is written for fellow Malaysians, 90% of which are clueless about geopolitics and more importantly on the history of WWII and its aftermath. I am feverishly writing this article to ensure that our citizens would not end up as cannon fodders for the coup plotters, backed by foreign powers to unleash a bloody civil unrest and to trigger an unprecedented economic collapse so as to grab unbridled powers, abolish the present Constitution to justify the establishment of a Republic.

To my foreign friends and colleagues, who are more knowledgeable, I seek your indulgence to assist me in spreading this article to a far larger audience, regardless whether you agree with my thesis, so that a vigorous global debate would ensue to prevent a total unprecedented global collapse. Some of the issues raised may have been whispered behind closed doors, but no one that I know, have ventured to bell the cat on the Covid19 as the 3rd Pearl Harbour to trigger a global collapse for world hegemony. However, I stand to be corrected.

Remembering Key Concepts:

Clausewitz, *On War* - war is a mere continuation of policy **“with other means”** (*mit anderen Mitteln*), or sometimes **“with the addition of other means”** (*mit Einmischung anderer Mitteln*).ⁱ

Rahm Emanuel (former Chief of Staff of President Obama), **“You never want a serious crisis to go to waste”**. And what I mean by that is an **opportunity to do things that you think you could not do before**.

Errol Morris (author of the book) **“The Fog of War”**ⁱⁱ

Thomas Hobbes, **“Killing two birds with one stone.”**

The Globalists End Game

Before proceeding further let me at the outset, explain why my article is entitled, **“The 3rd Pearl Harbour – Covid19 Pandemic - for Global War and Hegemony”**.

The “First Pearl Harbour” was the casus belli for the President Roosevelt to declare war on Japan and enter the WWII against the Axis powers and subsequently replace Britain as the global superpower. President knew in advance of the Japanese aerial attack on Pearly Harbour, as the US and British

Intelligence Services had broken the Japanese Military Codes as well as Germany's "Enigma Code"! iii

The "Second Pearl Harbour" – the 9/11 Attack on WTC Twin Towers

It was the exploitation of the September 11, 2001 attack on the twin towers of the World Trade Centre (a false flag operation) to unleash a war on "Islamofascism" **to sustain US global hegemony, militarily and economically.**

Malaysians must bear in mind the key words – MILITARY and ECONOMIC hegemony when reading the rest of the article.

The invasion of Afghanistan and Iraq revived US's war economy and prevented or postponed its collapse in 2001. The Cold War having ended, the US War Party needed a war to justify the continuation of the war economy.

To achieve that end, it needed an **ideological enemy**. The attribution of the 9/11 Attack to Islamic Terrorists linked to Al Qaeda **immediately** after the attack, provided the propaganda basis to **pinpoint Islam as the ideological enemy** and the subsequent declaration by President Bush for a **Global War On Terror"(GWOT)** targeted at Muslims, as the **Military Enemy**.

A world war by proxies! Make no mistake about this war. The name for the war states so - GWOT.

However, the above is only one aspect of the **convergence of vested interests** for a global war by the Deep State – **(i) to sustain the Military Hegemony.**

The second aspect was Wall Street's financial interests and the bankers were staring at total financial collapse in 2000 from the Dotcom bubble. Only a war would divert attention from the financial mess that Wall Street created – **(ii) to sustain the Economic Hegemony.**

The tech stocks completely dominated the US economy, such that the Nasdaq Index, which tracks mostly **tech** stocks, was hovering around or below 500 at the beginning of the 1990s. By 2000, it had soared past 5,000. In 2001, the bubble burst and the Nasdaq Index dived from its peak of 5,048.62 on March 10, 2000. A 78.81% fall. The Bubble wiped out an initial \$1.7 trillion from the stock market. By 2002, the loss of household wealth was calculated at \$6.2 Trillion and when adjusted to 2009 dollars (post the 2008 Great Recession), the crash caused \$9 trillion, and the real estate crash caused another whopping loss of \$7.1 trillion. It was only in April, 2015 that the Nasdaq Index regained its dotcom peak. The biggest failure during the Dotcom bubble was the AOL Time Warner megamerger in January 2000.

The Blueprint for hegemonic war was created by the infamous Neo-Cons in their report, "**Rebuilding America's Defence**" which stated at page 51,

“... the process of transformation even if it brings revolutionary change, is likely to be a long one, absent some catastrophic and catalysing event - like a new Pear Harbour”.

For Malaysians who are still blur, what the Neocons were saying openly in their report is that the US need a pretext for war as was the case in WWII – to induce an attack on America, on Pearl Harbour by the Japanese. US need another similar attack to justify another global war!

Hence, my reason for naming the false flag operation on September 11, 2001 (9/11) as the “Second Pearl harbour”!

The “Third Pearl Harbour – the Covid19 Global Pandemic

I need to hammer home to Malaysians reading this article, that the above discussion on the Neocons’ Blueprint is not a reflection of some demonic minds but in reality is the accepted agenda of the Deep State represented by so-called renowned leaders and acclaimed scholars. To illustrate, I will just quote Zbigniew Brzezinski, a Polish-American diplomat and political scientist. He served as a Counselor to President Lyndon B. Johnson from 1966 to 1968 and was President Jimmy Carter's National Security Advisor from 1977 to 1981. He was the primary organizer of The Trilateral Commission, the Robert E. Osgood Professor of American Foreign Policy at Johns Hopkins University's School of Advanced International Studies, a scholar at the Center for Strategic and International Studies etc. In the book,

The Grand Chess Board, he wrote,

“... as America becomes an increasingly multicultural society, it may find it more difficult to fashion a consensus on foreign policy issues, except in the circumstances of a truly massive and widely perceived direct and external threat... The pursuit of power and especially the economic costs and human sacrifice that the exercise of such power often requires, are not generally congenial to democratic instincts. Democracy is inimical to imperial mobilisation.”

Now, pay attention to the following words:

...“except in the circumstances of a truly massive and widely perceived direct and external threat.”

As was in the First Pearl Harbour - Japan, the external and direct enemy / threat and the truly massive attack on Pearl Harbour;

As was in the Second Pearl Harbour - 9/11! Allegedly executed by Muslim terrorists linked to Osama Bin Ladin and Al Qaeda - the external / direct threat and the truly massive destruction of WTC Twin Towers, though in fact, a False Flag operation!

So, why is there a need for a Third Pearl Harbour?

Simple!

The 2001 Dotcom crash postponed the collapse of the US by the Second Pearl Harbour war until 2008.

The Great Recession of 2008, while almost collapsing the entire global financial system **DID NOT** immediately threatened US global hegemony. Quantitative Easing, massive injection of “funny money” was enough to stabilise the system. And the collapse was postponed yet again.

Then alarm bells went off in 2015, when China launched their country’s Vision 2025. Never before in the entire history of USA, has any country posed an existential threat to the economic might of the USA as the sole super-power!

The US Deep State and the Global War Party suffered a massive heart attack. Shocked to their very core! How dare China compete with US to be the global economic power? China can stay as the number 2 economic power, but no way can China be the head honcho for global economic affairs.

Signs were already appearing that the adjourned collapse of the 2008 Great Recession cannot be resolved by massive QEs, not as a permanent fix. Wall Street escaped blame by a mere whisker.

The Road and Belt initiative was the final straw that broke the proverbial camel’s back! Though it was launched in 2013, it was not taken seriously by US and Western powers. But when US and Western powers saw the trade routes criss-crossing the world’s landscape and taken together with the vision of “Made in China 2025”, the US Deep State perceived a dagger pointing at the its jugular. China and her allies, mainly the members of the Shanghai Cooperation Organisation (SCO) and BRICS must be destroyed.

The military option was out of the question, but, intimidation, gunboat diplomacy and sanctions were thought to be enough to bring the potential enemies to heel. The US was dealing with nuclear powers and could not wage any wars on its own. NATO was useless, a fat bully with no muscles and could only make irritating noise. Syria was a test case and so was Libya. China and Russia was not impressed by the bully tactics. Intimidation failed.

Back to the drawing board!

What could be more devastating than a hot war to a foreign enemy when the home crowd does not support any hot wars? Wall Street escaped all blame for the Great Recession of 2008. Massive QE would not resolve another crash in 2020, not a permanent fix anyway. There would certainly be civil wars in the US as well as in Western countries, if the collapse cannot be blamed externally or the cause outsourced to a convenient state patsy..

The Deep State counter intuitively decided that Donald Trump would be the answer. When Trump fails, the entire collapse would be blamed on him and war

would be the only option – a repeat of Roosevelt’s gambit when the country at the material time was against engaging in a war in Europe.

What the Deep State did not expect was that Trump was successful in turning round the economy. Trump was just too successful and had other ideas of his own and getting too powerful. Trump therefore was perceived as an internal threat to the Deep State. The Deep State was divided. The dissenters did not want Trump at all and from the get go, conspired to oust Trump.

In 2018 or thereabouts the Deep State, no longer divided, decided that Trump must be removed, failing which the secret option would be unleashed.

The war games and models showed that casualties (death or otherwise) would not exceed 500,000. An acceptable figure! There was a precedent from the Iraq war. Madeline Albright the then State Secretary commented that the death of 500,000 innocent children was worth the price of the war and sanctions against Iraq. No outcries whatsoever, even from the liberals.

In the anticipated scenarios and war games, the majority of deaths would be the dispensable old folks. This was the critical factor in securing the unanimous agreement that the secret option be unleashed before the collapse as there would be no opposition from the rest of the population.

And since the US economy and even the Western economies are in deep shit, additional economic devastation would not matter as the blame cannot be laid on Wall Street or the Deep State once the secret option is unleashed.

A bankrupt is still a bankrupt whether for \$100 Billion or \$Ten trillion! To hell, even if there is a global collapse, so long as China is devastated along the way.

The Covid19 pandemic, planned for so long and openly announced to the world by the World Economic Forum, the Bill & Melinda Gates Foundation etc. that such a pandemic would soon occur, transformed the mind-set of everyone.

Malaysia, like so many countries have been made victims of this insidious agenda by the global Deep State actors.

But to the Deep State actors, so long as the US remains the Superpower, any price is worth paying for, even 500,000 old folks who are already on the death queue!

So, for sure the **3rd Pearl Harbour** is the Covid19 pandemic. It fits well with the matrix of the First and Second Pearl Harbours.

- 1) It is an External Direct Threat;
- 2) Will cause truly massive destruction;
- 3) Provides the irrefutable cover and excuse for the current global financial and economic woes; and
- 4) USA remains the undisputed hegemon without engaging in any hot wars!

Conclusion

There are few more dots to be joined but, I am confident that I got the big picture right!

Post the Presidential election in November 2020, whosoever wins (I am forecasting a Trump victory) Covid19 will get the blame for all the financial and economic devastation. Not wall Street and the central banks!

However, unlike the Deep State actors referred to above, the coup plotters in Malaysia, spear-headed by Anwar Ibrahim, Najib Razak, Zahid Hamidi, Tun Mahathir and their minions, would not get away with their crimes and Covid19 cannot be used as an excuse because since before February, 2020 they have been plotting and conspiring against the Agong, the PH government and our Prime Minister in total disregard for our welfare, solely driven by their lust for raw political power.

The timing of the coup is critical, because the plotters miscalculated that PM and his government would be so pre-occupied with Covid19, they could spring a surprise attack and remove PM and the King without any resistance. Big mistake!

Anwar is still the favourite poster boy for the Neo-cons and it comes as no surprise that Anwar etc. are using the same game plan and play book to launch their coup. There is no way the plotters can blame anyone but themselves for the mess they have created. And Lim Guan Eng must be held responsible for mismanaging the economy in 2019. He failed to prepare the country economically for the Covid19 devastation as the signs were already apparent that Covid19 would be the 3rd Pearl Harbour.

Query: why did the pharmaceutical companies, doctors (GPs) etc. pushing their patients in 2019 to get vaccinated with previous flu vaccines? More of that in my next article.

End Notes
