

# Why Donald Trump Had to Go

By Peter Koenig - ICH

**There is an agenda. A huge agenda. It is a Globalist agenda that is in the process of inflicting gigantic harm to humanity. It is called the *Covid-19 – The Great Reset*, issued by the World Economic Forum (WEF), authored by its founder, Klaus Schwab. If left undisturbed, The Great Reset's plan is a crime of epic dimensions, never seen before in our civilization. Mr. Trump did not want to be part of this agenda.**

Donald Trump, for better or for worse, is not a Globalist. He calls himself a patriot. He wanted to Make America Great Again (MAGA). Sounds silly? Perhaps. But it's not globalist. **Therefore, Mr. Trump was not the guy of the Globalist Cabal, currently calling the shots on world events** – way above Presidents like Donald Trump and those of the other 192 UN member countries. This Globalist Cabal has enormous power.

## **Joe Biden and his gang respond to this power.**

What is behind Donald Trump's "silly" idea of MAGA, the western globalist-brainwashed world cannot understand. It was supposed to bring the United States back to again becoming a sovereign, independent, economically autonomous nation. On more occasion than one Mr. Trump said, he wishes the same for every nation in the world. He also insinuated that NATO's purpose was *passé*. **And he said before his 2016 election, under his Presidency the US would no longer be the policeman of the world. He may have tried on all of these scores, but the Powers That Be (PTB) had other ideas.**

In foreign policy – interfering in other countries' affairs – he certainly didn't act according to his pre-election promises (or was not allowed to by the PTB); not in Syria, not in Afghanistan, Iraq, Iran, Venezuela, Cuba, North Korea – not in Europe, not anywhere in the world where "American interests" are at stake – as they euphemistically call "interference" in other sovereign nations' affairs.

Especially not in Russia and China. Quarreling with these sovereign nations, and menacing them, was a lost cause. He knew it, but it was good for cosmetics. It presents well as an international show of upmanship, for maintaining the image of a super-power and an emperor. Both of which are long gone. But perception is always limping behind facts.

**However, you have to give him this: Against the wishes and pressure of the Military Industrial Complex (MIC), Donald Trump did not start any new wars. He maintained those started under his predecessors – six active ones – give or take a conflict here and there. Thereby keeping the MIC at bay.**

Donald Trump obviously did not fit the Globalist agenda. It was not his plan. Contrary to what many may think, he had no ambitions for a One World Order (OWO), which is clearly the Globalist's goal. This is the plan behind the Great

Reset (see this [The World Economic Forum \(WEF\) Knows Best – The Post-Covid “Great Global Reset”](#)). To achieve completion of the Great Reset, millions of people may have to die.

**The Globalist Cabal doesn't care. Jo Biden doesn't care. Because Jo Biden is a Globalist, as well as his crew, inherited mostly from the Obama era – and so is Hillary (on her “demolish Libya” initiative, cynically laughing and referring to Muammar Gadhafi: “We came, we saw, he died”), still an important figure of this – let me call it what it is – a criminal clan.**

The political career of Jo Biden's was born in the swamp of Washington – and the way it looks today, it will end in the swamp of Washington, either with him as President – or without him as President. At this age, despite all the noble words spoken at his inauguration, Jo Biden will not reform his conscience. *“I will be President not only for those who voted for me, I will be President also for those who didn't vote for me; I will be President for all Americans.”* **This slogan-style wishy-washy palaver has no meaning.**

There is not one US President who hasn't used such words, at least during the inauguration – and most of them much earlier during their campaigns. *“I will work to unite our badly divided America again.”* When in the last 70 Years were the United States united? Never. Will Jo Biden meet the challenge?

During his inauguration speech, as well as in several previous occasions, including the pre-election Presidential Debates, Jo Biden referred to the coming “Dark Winter” – hoping that America will get through it without harm. What is the “Dark Winter”? – Why the mystery, instead of transparency? Why talk in code-language, when American people are, as Biden implied, his number one priority?

**Did his remark refer to Operation Dark Winter which was a code name for a senior-level bio-terrorist attack simulation conducted on June 22–23, 2001, at Andrews Air Force Base Maryland? The simulation was designed to carry out a mock version of a covert and widespread smallpox attack on the United States. The simulation was sponsored and carried out by the Johns Hopkins Center for Civilian Biodefense Strategies (CCBS) and the Center for Strategic and International Studies (CSIS). Note – the Johns Hopkins research and teaching complex is strongly supported by the Rockefeller Foundation.**

Does this mean that there is or may be a plan for a biowarfare attack – in the form of Ebola, smallpox or a stronger strand of coronavirus? Or any other highly infectious and deadly disease? – If so, **Mr. Biden, and all the others who mentioned a Dark Winter ahead, including Barak Obama, must know what's behind it. And they hide it from the people.**

The insinuation that such a catastrophe may be in the making, without openly warning the people, or better, preventing the *Dark Winter* – is certainly not a sign of caring for the people. To the contrary, it shows disdain for the people –

the lower casts. Sounds like Hillary Clinton's "Basket of Deplorables" in a 2016 Presidential campaign speech. Seems, the core of the Dems, as they pan out with Jo Bidens election, have a particular flair to feel above the rest of the people.

**People, and unity within the United States seem clearly not to be a priority preoccupation of Jo Biden's. Much more important, how can he – or rather the team behind him – be a driver in the implementation of the globalist agenda, the Great Reset. Because, he, Jo Biden, and the swamp behind him are committed to this cause. The Globalist Cabal, chose him over a continuation of Donald Trump's Presidency.**

**Never mind that there was massive – but massive, proven voter fraud, possibly in the hundreds of thousands, maybe over a million votes were added to Biden or electronically switched from Trump to Biden. But Mr. Trump's legal team was not successful in bringing forward and defending their evidence before any court, including the US Supreme Court. Imagine the Immense power behind this Global Cabal!**

**Mr. Trump, like him or not, for his country he had another agenda. He wanted to rebuild the US economy again. Bringing back outsourced labor, create jobs. His approach may have been inadequate, and at times he sounded awkward addressing economic issues, as well as the people. But he was not a Globalist, he did not strive for an OWO. That's why 80 million Americans voted for him. They do not want an OWO. Most of the world – 99.99% – do not want an OWO.**

Those who voted for Trump also sensed that the so-called Dems had not the least interest of the people in mind. Never had, at least not since JFK.

So, Donald Trump did not fit the agenda of the Global Cabal – also called "Deep State". Those, who are way above the President of the US – and the leaders (sic) of the world. They are dead-set on implementing the Great Reset – grabbing more power for themselves, more wealth – and a technified, digitized, robotized world, a totally electronic plutocracy – a technocracy *cum* tyranny, under which the Epsilon-people (lowest cast in Aldous Huxley's Brave New World) will behave and obey as they are digitally ordered – modern slaves – *own nothing and be happy* – the *Great Omen of the Great Reset*.

**And if their eugenist wish comes through, they, the Globalist Cabal, will reign over a massively reduced population. That's where the current western inoculation campaign comes in – all three of the most used vaccines, or rather toxic injections – Pfizer-BioNTech, Moderna, AstraZeneca – contain mRNA, thus, DNA-altering substances – and have so far not proven effective as vaccines. To the contrary, dangerous side effects and death rates exceed by far the common measures of traditional vaccines. They also contain sterilization and infertility components which fits the eugenics agenda well.**

Unfortunately, Russian and Chinese traditional **live-attenuated vaccines** (a weakened form of the virus) that creates a strong and long-lasting immune response, are not freely available in the west. Such vaccines do not affect the human DNA. However, the methodology is based on decades of experience.

The imminent question is – why suddenly a new type, never tested before vaccine? What is the agenda behind these new types of jabs? Do they have to do with the implementation of the Great Reset? – Why are scientists not allowed to talk openly about the effects and possibly long-term negative impacts of these new-type injections? Why do governments around the globe keep any true science about them under wraps – prohibited – censored in the media – even forbidden under fine and in extremis arrest in psychiatric wards?

Why this immense drive to vaccinate everyone as fast as possible – under menace “*if you are not vaccinated, you cannot move*”? – And that for a virus – covid-19 – that has a mortality rate approximately comparable to, or in some years even less, than the common flu? – See Anthony S. Fauci, Director the National Institute of Allergies and Infectious Diseases (NIAID / NIH – USA), in “*Covid-19 – Navigating the Uncharted*”, New England Journal of Medicine – NEJM (28 February, 2020):

***If one assumes that the number of asymptomatic or minimally symptomatic cases is several times as high as the number of reported cases, the case fatality rate may be considerably less than 1%. This suggests that the overall clinical consequences of Covid-19 may ultimately be more akin to those of a severe seasonal influenza (which has a case fatality rate of approximately 0.1%)...***

Among Jo Biden’s first decisions during his few days as President is an increased effort of vaccination – with the mRNA-type vaccines, as well as massive testing by the also proven ineffective and an totally inappropriate PCR test – in the US.

He vows to vaccinate 100 million Americans in the first 100 days of his Presidency. This is spot-on with the Great Reset and the Globalist Cabal’s agenda. He has already been warning about the spread of a new more infectious covid-mutation – which would require more of the unpopular repressive measures – also further infringing on the already hard-hit economy. And if Washington decides to “tighten the screws” on the population (Mme. Merkel’s expression), Europe will soon follow suit – and so will all the other western world’s vassals.

Think that’s exaggerated? You may want to read up on the Great Reset and its follow-on White Paper, “*Resetting the Future of Work Agenda: Disruption and Renewal in a Post-COVID World*” which is basically an implementation manual of the Great Reset. See also [The Post Covid World, The WEF’s Diabolical Project: “Resetting the Future of Work Agenda” – After “The Great Reset”. A Horrifying Future.](#)

Following the agenda of the Globalist Cabal is Mr. Biden's number one priority. On his first "work day", actually on his Inauguration Day, he has not hesitated to sign 17 Executive Orders, of which the New York Times says: *"Despite an inaugural address that called for unity and compromise, Mr. Biden's first actions as president are sharply aimed at sweeping aside former President Donald J. Trump's pandemic response, reversing his environmental agenda, tearing down his anti-immigration policies, bolstering the teetering economic recovery and restoring federal efforts to promote diversity."*

Among these measures are returning the US to WHO, making Anthony Fauci, Director NIAID / NIH, the head of the U.S. delegation to the organization's Executive Board. *"He will jump into the role with a meeting this week"*, says the NYT. Mr. Fauci has long been known for his conflict of interest with the vaccine pharma-companies, and for working hand-in-hand with Bill Gates, who funds up to one third of WHO's budget, and calls the shots on WHO's vaccination policy. What does that say for Jo Biden, other than he plays already on his first day into the hands of the Globalist Cabal.

President Biden also signed a National Mask Mandate – or *"the 100 days masking challenge"*, when every serious scientist says how dangerous wearing masks is. However, this is a step towards the Globalist Cabal's crackdown on humanity, that and social distancing, and isolation by quarantining – leading to lockdowns after lockdowns – all within a massive fear campaign. This is supposed to bring the populace at large to its knees, so that the implementation of the horrible steps within the Great Reset will encounter less resistance.

Mr. Trump never saw lockdowns or mask wearing as the solution to the covid-19 crisis – an opinion shared by many high-ranking scientists and professors the world over. He wanted the already covid-destroyed economy to get back running again, as quickly and as closely as possible to "normal" – thereby also improving the desperate employment situation of the people.

You may see the details of Mr. Biden's 17 first-day Executive Orders here <https://www.nytimes.com/2021/01/20/us/biden-executive-orders.html>

So, because Mr. Trump didn't see eye to eye with the Globalist Cabal, he had to go. His quest for justice from the High Courts with regard to voter fraud was denied.

**The Great Reset agenda, dictated by the Globalist Cabal, is to be implemented in its cruelest details under the supervision of the World Economic Forum (WEF), the Bill and Melinda Gates Foundation, the Johns Hopkins Institute for Medicine (funded by the Rockefeller Foundation), WHO, the IMF, World Bank — and the entire UN apparatus. It is an integral part of the UN Agenda 21-30, which depicts to the world the 17 Sustainable Development Goals (SDG) as the agenda's glorious *"raison d'être"*.**

In fact, the Great Reset is the key driver of the UN Agenda 21-30. The SDGs are but a noble gesture to tell the Global South how interested the West, or

Global North is in the wellbeing of the poor and marginalized people of the nations of the Global South, also called Third World or “developing countries”.

**The caveat for the implementation of the SDGs is that the “developing” countries are expecting massive funding from the IMF, World Bank and regional development banks, as well as western bilateral aid organizations, to implement these goals. But, as we know, these development assisting funds come with tight strings attached.**

In the case of the SDGs, countries receiving foreign funding from the financial gods mentioned before, have to commit to following the rules and dictates of the Globalist agenda. i.e. the rules and narrative of the Great Reset. Plus, most of the funding comes in the form of loans. **That means further debt-enslavement, further dependence on the west, the Global North, for trade and exploitation of their natural resources.**

One may wonder, who needs more development the West / Global North or the Global South? – It depends on the criteria of development. It could be – the more digitized and uniformly controlled the world population is, the more developed it is. Or – alternatively, the more sovereign nations collaborate peacefully as independent nations, each with their own culture, their own money, their own fiscal policies and social coherence – the more developed, equal, just and peaceful the world will become.

You choose.
