

Covid19 Maths – Total Cases, Total Recoveries & Total Deaths

By Matthias Chang – Future Fast-Forward

The Malaysia's Success Story On Covid19 Since March, 2020.

This is the incredible story of the infected victims and the heroic front-liners in the war against Covid19 Plandemic ***without the myth of the magic bullet of Big Pharma's experimental vaccines!***

The above story is easily told and exposed by simple Maths which a primary school student can understand and appreciate. Yet our adults, are acting like idiots and buffoons!

The maths are based on figures / data published by the STAR Newspaper, sourced from the Ministry of Health.

The First Chapter of Success - Miracle of Recovery Without Vaccines

On the 25th February, 2021, when the PN Government rolled out its Nationwide Covid19 "Vaccination" Programme, with ***the courageous Prime Minister getting the first jab/shot of the Pfizer MRNA "vaccine"***, STAR published the statistics as at 7pm 24th February, 2021.

The statistics were just remarkable, a reflection of the PN government's disciplined efforts to defeat Covid19, which they were justifiably proud. However, the global mass media and the local media deliberately missed the plot and in tune with global big pharmas' and the Gates Foundation's, WEF's etc., coordinated agenda, unleashed an unprecedented fear and panic campaign to bully our citizens to surrender to the dictates of the powerful global elites for control.

But, the math speaks for itself.

Since March 18, 2020 the date of Malaysia's first MCO (Movement Control Order) till 7pm 24.2.2021, the statistics as published by STAR newspaper on 25.2.2021 are as follows:

| <u>Total Cases</u> | <u>Total Recoveries</u> | <u>Total Deaths</u> |
|--------------------|-------------------------|---------------------|
| 291,774 | 260,009 | 1,088 |

The difference between Total Cases and Total Recoveries is **31,765**, of which **1,088 died**. Therefore, 30,677 (31,765 – 1,088) represent a float of victims which have yet to recover as at 24th February 2021.

The figure of 30,677 must obviously represents those victims which were either:

- a. Quarantined;
- b. Hospitalised and treated; or
- c. In ICU.

However, the local media has not given any statistics on the above 3 groups of Covid19 victims.

In any event, we will show that the 30,677 would subsequently be treated as Fully Recovered with a small number having contributed to the total figure of victims who have died as at 1st May 2021.

It is so glaringly obvious that most people have missed out that (during this period – 18th March 2020 to 24th February 2021), **260,009 Covid19 victims recovered from Covid19 infections without the aid of any vaccines hyped by the global big pharmas as the magical medical bullet and the only cure and immunisation from Covid19 plandemic. Politicians, vested interests, analyst, arm-chaired critics and medical scientists were clueless.**

It is also glaringly obvious that no one bothered to determine how many of the 260,009 victims were **quarantined** and **recovered** through **inherent national immunity**, how many that were hospitalised and were **medically treated** by whatever drugs/therapeutics administered to them and lastly how many in ICU survived from **intensive medical care** and treatment.

ALL SURVIVED WITHOUT THE AID OF VACCINES WHATSOEVER

It can be said without any fear of contradiction, that all front-liners especially the doctors and nurses have massively contributed to the survival of the above victims **without any vaccination**. This is an indictment against the so-called experts of the global medical profession together with WHO, US FDA, the European EMA, etc. **They have blacked out, cancelled, and buried into the memory hole that there were medicines that could prevent or cure Covid19** even without the authorisation and use of experimental vaccines in an emergency and/or disaster.

It is most unusual and beyond comprehension why our Ministry of Health have not till today via our local mass media disclosed how the 260,009 Covid19 victims have fully recovered without vaccination. **This silence is an injustice and an unforgiveable denial of the heroic efforts of our front-liners making huge sacrifices and tirelessly working to save lives – 290,009 lives.**

The above is the First Chapter of the success story of Malaysia but no one is telling this success story. Why?

The local mass media with their army of investigative journalists have not uncovered and or publicised the 260,009 stories of recovery and survival of the victims with the help of our heroic nurses and doctors.

Instead, we have self-serving politicians who on every other day, are stealing the limelight during this crisis and projecting themselves as the champions and heroes in overcoming the Covid19 global pandemic. How ungrateful can our political leaders be when they black-out our Covid19 heroes.

Most glaring is the total silence by our opposition leaders who are merely waiting to pounce on our Prime Minister for any alleged mistakes made when the next 15th General Election comes due. These opportunists will spew their political filth and propaganda to gain votes from the misguided electorate.

The Second Chapter of Success

We will now examine the math as at 7 pm 1st May 2021 and published by The Star newspaper on 2nd May 2021.

| <u>Total Cases</u> | <u>Total Recoveries</u> | <u>Total Deaths</u> |
|--------------------|-------------------------|---------------------|
| 411,594 | 380,442 | 1,521 |

From the above figures Total Deaths increased only by **433** (1,521 - 1,088) since the introduction of vaccines in Malaysia on 25th February, 2021.

The amount of victims recovered increased to **120,433** (380,442 – 260,009). The vaccination of Pfizer and Sinovac vaccines would not have and could not have contributed to the survival rate disclosed above as the increase in the recovery were made without the aid of vaccines for the following reasons:

- a. Victims who are infected (by medical protocol and safety guidelines) cannot be vaccinated until and unless they have fully recovered from the infection and there is a lapse of 14 days from date of recovery before any victims who wish to volunteer for vaccination can in fact be vaccinated;
- b. In any event, Pfizer “vaccine” must be applied twice – i.e. 2 doses for the prevention of any symptoms to be severe enough for hospitalisation. It is also established beyond all doubts and even admitted by big pharmas, WHO, FDA, EMA that even a person who has been vaccinated can be infected with Covid19 subsequently; and
- c. In the event some victims (repeat, only some) have survived because of being vaccinated with Pfizer or Sinovac vaccines, no information, statistics, or data have been provided by the Health Minister, by Mr Khairy, the Immunisation Minister or the DG of the Health Ministry to justify that claim. Until such data are made available, we have the right to assert that even as at 1st May 2021, the 380,442 victims recovered without the aid of vaccination.

This is the Second Chapter (from 25th February 2021 to 1st May 2021) of Malaysia’s success stories on how we combated and defeated Covid19.

Conclusion

In conclusion, the Rakyat demands to know why these 2 success stories have been hidden from us and the Rakyat were made to

suffer in fear and panic and brainwashed to accept that the one and only solution is to be vaccinated by experimental vaccines only allowed/permitted to be used during an emergency as in the case of USA and in a disaster in Malaysia as stipulated by the NPRA (under the jurisdiction of the Ministry of Health).

Who is to gain and or profit from this deceitful campaign to hide the 2 success stories from Malaysians, across all race, culture, religion and divide.

Since 18th March 2020 the entire nation was united as one, to fight and defeat Covid19 and made huge sacrifices notwithstanding our national economy was shattered.

Life matters, but an appropriate balance must be made and drawn between the survival of our national economy and the survival of our people. As at 7pm 1st May 2021, 1,521 victims have died and while we grieved for those who have died, this data of 1,521 deaths surely must bring into our focus that more people have died of cancer, heart attacks, hypertension, road accidents etc. and we need to draw the necessary objective conclusion.

Many of our people – hawkers, small traders, small businesses, are barely surviving to feed themselves and their families. Such financial burden and poverty are enormous strains on the health and survival of our people and would by any measure (because of lack of nutrition and food) contribute to the low level of their natural immune system and as a result would contribute a higher rate of Covid19 cases.

Enough is enough. We must put an end to the fear and panic campaign so as to corral people for mass vaccination **when the best form of immunity is our own natural immunity which itself will be the key factor in establishing herd immunity.**

Vaccination cannot in itself provide herd immunity.

We therefore urge all Malaysians to be pro-active, demand accountability and transparency from our Immunisation Minister, our Health Minister and our DG of the Ministry of Health. They must not be allowed to undermine the unity of our country and the leadership of our Prime Minister.

Stay safe and God bless you all.

Matthias Chang
