

Hot Wars In Lockstep To The Timeline Disclosed In Heinous Report

By Matthias Chang – Future Fast-Forward

This article provides the “meat” to the Red Alert which I sent out a few days ago to those in my Broadcast List.

I will not disclose the name of the Report because it took some effort to drill down on this report and weeks of research to verify the conclusions from other Military and Intel platforms. I am not interested to convince you of the truths and conclusion in this article. That, you have to do yourself by spending time to research, research and spend hours reading Top Secret Reports!

Few weeks ago, I uploaded to my website my article, **“US/UK Bio-weapon Unleashed! Are You Prepared To Confront This Diabolical Crime?”**

Biological warfare was Phase 1 of the global warfare to immobilise entire armies and the security forces of the target countries - Malaysia included. This was a warning of a heinous national security threat and that the Covid19 was not a mere medical crisis. **Hence, I have repeatedly referred to the Covid19 crisis as the “Covid19 Plandemic.”**

It is unfortunate that educated professionals – scientists, lawyers, doctors, accountants, engineers and security professionals have failed to recognise the essential significance of a **PLAN-DEMIC** from a **pan-demic!**

The former refers to a well-planned biological warfare unleashed by state player(s) and the latter, a disease prevalent over a whole country or the world.

I even exposed that the bioweapon was the “Vaccine” and not the disease under the misnomer “Covid19”. It is only recently that insiders have come round to acknowledge and educate the people that the “vaccine” (more appropriate to be referred as a ‘Gene Therapy’) is the bio-weapon. No one spoke about biological warfare until the latter half of 2021, even as I had referred repeatedly to section 564(b)1(C) of the FDA Act as the one and only basis for declaring an emergency in the USA and thereafter by WHO and echoed by countries in typical herd responses. I had alerted the editor of a renowned global website, but for reasons best known to him, he has refused and or neglected to publicise the irrefutable facts / evidence! Why? This was even after I had published my article below. Maybe it was the fear factor!

I quoted from a scientific paper that this methodology was first experimented on bats and later “engineered” in US laboratories (Fort Detrick) and universities (principally at University of North Carolina at Chapel Hill) including Malaysian entities, to infect and transmit via humans.

“Transmissible Vaccine: A transmissible vaccine is administered directly to one bat via injection. This bat is then capable of vaccine

transmission. In subsequent time steps, this bat encounters other animals and transmits the vaccine to them infectiously. The infectiously vaccinated bats also go on to transmit the vaccine infectiously to others...

What is so difficult to understand basic science, when it is spelt out so bluntly? It was essentially a “Gain-of-Function” research outcome! I trust you will go to my website and download that article before reading further.

Let’s fast forward to the present day.

The bio-weapon warfare did not cripple the Russian and Chinese military as the two countries knew of this evil agenda. The propaganda warfare, had twin objectives: (1) to divert the attention that it was the US military that planned this phase of the war as far back as in the early years of this century i.e. from 2004 onwards; and (2) to lay blame on China (specifically Wuhan). The propaganda failed notwithstanding the global MSM onslaught.

I take note that all American scientists and doctors have in their messages and videos referenced “Wuhan” when exposing the biological warfare. But, I take the view that they could not do otherwise, as they have been lynched by the Deep State MSM for coming out to expose the crime against humanity. It is interesting to note that they have always emphasised that the real culprits are Fauci, Ralph Baric, Peter Dysack, NIH, FDA, CDC and the Deep State.

This stance is also reflected in Malaysia, as besides myself there have been only two other commentators that have openly exposed Khairy, the Health Minister and the Director-General of MOH as criminals, in the forced mass vaccination of Malaysians with the weaponised vaccine!

However, this omission has not altered the ultimate outcome of the political scenario in Malaysia, specifically who will wield ultimate power as Prime Minister of Malaysia, even as a lame-duck Prime Minister.

We will now examine the strategic locksteps that have been utilised to win any war in the European War Theatre, specifically Russia, a formidable nuclear power, extracted from the Report.

It is abundantly clear to any Intel Apparatus Analyst that the above table can be adapted and applied to any war theatre as well as a measurement of any Intel strategy to meet with any domestic or foreign threats. Obviously the subject matters stated above have to be changed e.g. how to defeat local opposition forces or coup attempts by hostile forces.

When we cast the net of the above strategies and tactics (offensive and defensive) to the current tension/crisis between US/UK, NATO and allies against Russia, the planners have in fact war-gamed the outcomes for each strategy and tactic deployed. What is also apparent to the discerning eyes, is the absence of any confidence and certainties of a nuclear war, even in the use of tactical nukes!

While mutual destruction is all but assured, the first to blink after the INITIAL PHASE of the First Use Option, before the massive retaliation, would have to surrender to avoid total destruction.

On this issue, the decision lies entirely on the correct analysis of the character and strength of the “decision-maker” who has the finger on the red button to launch the nuclear-armed weapons!

For whatever its worth, I would not bet on America as Russia has proven and was willing to suffer more than 20 million deaths and casualties and the massive destruction of all her cities, fighting to the last breath against Nazi Germany! The turning point in WWII was the defeat of Nazi Germany along the entire Eastern Front leading to the capture of Berlin by Russian military. The West only intervened and opened the Second Front, the invasion of Normandy when it was clear that Russia had won and was advancing to capture Berlin. Thereafter, all the wars waged by US/UK and NATO after WWII were against smaller and weaker countries. The might of the West was defeated in the Korean and Vietnam wars. And for the remaining 20th Century, US/UK and NATO never won any wars and recently, even the Taliban booted the US out of Afghanistan in disgrace!

That said, I conclude my analysis by asserting that any future wars with US/UK and NATO, though bloody and massive would be the end of the American century and empire. The West cannot fight on two fronts – Europe against Russia and China over Taiwan in the South China Seas.

Turning inwards and domestically and applying the said methodology, the current political forces (whomsoever wins the next election) would be a failed regime and Malaysia would be ripe for a foreign power subjugation. A sad day for Islam, the Ummah and the sovereignty of our country.

No one has the guts to tell the bitter and ugly truth to the idiotic power addicts fighting over a shrinking economic pie!
