

ENERGY CRISIS – GLOBAL ECONOMIES ARE SUFFERING.

KEEP DREAMING THAT MALAYSIA WILL BE EXEMPTED.
RENEWABLE ENERGY IS A SCAM

WHY HAVE YOU NOT READ THE HEADLINES BELOW?

“Current [clean energy] policies and two decades of mandates and spending on a transition have led to escalating energy prices that help fuel the destructive effects of inflation.”

Mark Mills,
Senior Fellow at the
Manhattan Institute

*“Depriving the world of all fossil fuel is immoral and evil, as **extreme shortages will result in billions of fatalities from diseases, malnutrition, and weather-related deaths.**”*

Ronald Stein,
Pulitzer Prize nominee,
Policy Advisor for *The Heartland Institute*

The administration's clean energy plans *“would be the road to hell for America.”*

Jamie Dimon,
CEO of *JP Morgan*

“America is wrestling with the worst energy crisis in nearly five decades, a period of high prices and limited supply. What makes this crisis different than the troubles that roiled the country in the 1970s is how it started and the fixes required to make it end.”

— *The Wall Street Journal*

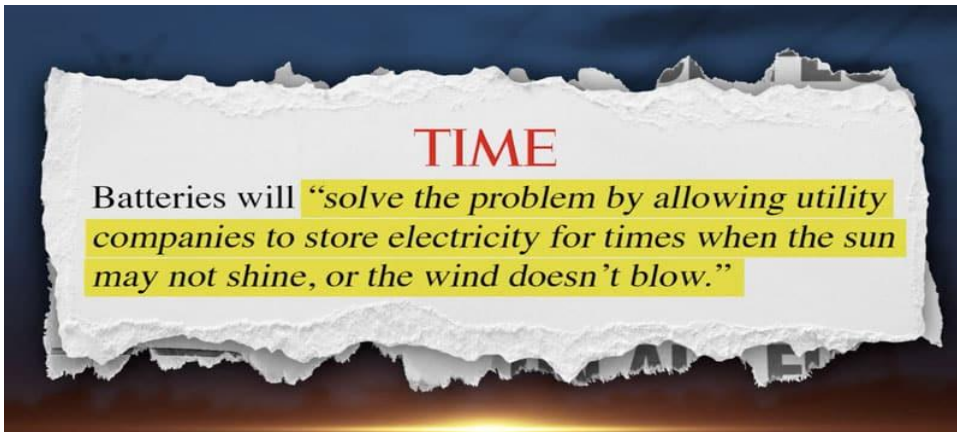

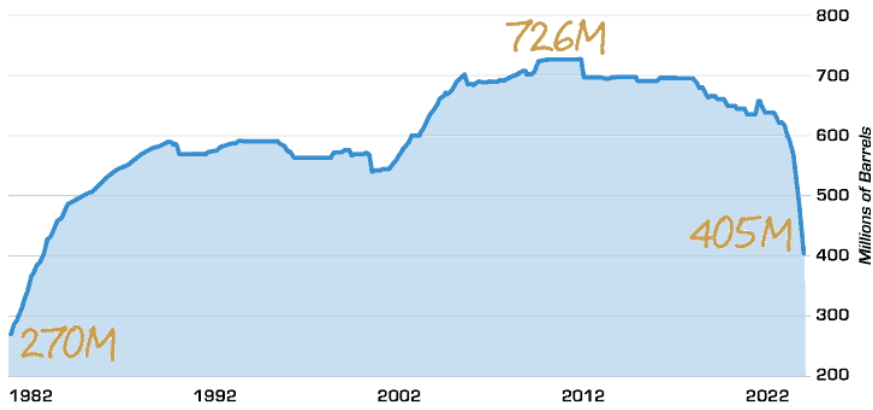

DO YOU BELIEVE THE LYING PRESIDENT AND HIS VICE-PRESIDENT?

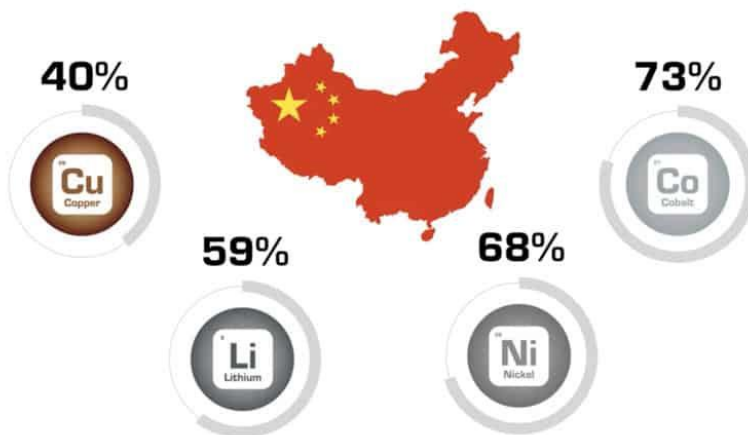

WHEN THEY ARE CONTRADICTED BY THEIR OWN EXPERT

Strategic Petroleum Reserve

BATTERIES WILL NEVER SOLVE THE PROBLEMS.

WHY????????

BECAUSE USA IS SCREWED!!!!

DEPENDENT ON IMPORTS
FOR **100%** OF **17** **CRITICAL MINERALS**

Source: The Manhattan Institute

No way, Africa etc. have the resources or even enough minerals to make clean energy goals a reality.

Elon Musk of Tesla built the world's largest battery factory in Nevada (see picture below). But the factory cannot make

enough batteries to store just ONE day's worth of energy for USA.

What more the entire world!

And in Malaysia? What investment is Elon Musk making in our country?

Give us a break!

How long will it take to make enough batteries to power America for a week or a month??? Cannot be done.... Stop day dreaming!

USA AND Biden bet BIG on clean energy ... \$1 trillion ... and lost big time!!!!!!
