

Government leaders Are Not Elected But Selected. \$\$\$ Billions Are Given To The “Chosen” Political Parties, And The Leaders Will Do As Directed!

By Matthias Chang

Please, please don't believe me. However, you may want to investigate and check out what I have disclosed. I am not trying to persuade you, but I am merely disclosing facts which you may want to verify.

I cannot force you to read what I have written, but can you ignore the Global Insiders' insider, Prof. Michael Hudson's exposé in his numerous books and articles.

May I suggest that you do a thorough research on Prof. Michael Hudson, who was invited by me to visit Malaysia some years back, to share his invaluable insights, before you continue reading this article.

Please read carefully the passages below **and let the conclusions sink in deep and ask with humility why the facts and conclusions have never crossed your mind.**

First Passage:

“Basically, the United States is at the root of violence. The United States is the head of the CIA - the “Murder Inc.” The University of Chicago ... made it very clear in Chile. They said you cannot have a free market unless you close down every university that teaches economics in Chile and replace it with us. You have to be willing to assassinate and kill every labour union leader. You have to kill every land reformist. You have to kill every university professor that says there is an alternative. You have to kill every progressive. If you're not willing to kill the intellectual elites of the population, if you're not able to have a mass murder, such as we worked in Chile, Argentina, and throughout Latin America, then you're not going to have a free market, making it free for us to take whatever we want from the economy and smash it to pieces...”

Second Passage:

“Neoliberalism means ‘dismantle the whole edifice of government and replace it with what they called the free market’.... Neoliberalism means centralised planning shifted away from Washington and other political capital into the financial centres, away from Washington to Wall Street and The City of London.... And in other countries away from industries

towards International banking... To them a 'Free market' is a market where wealthy people are free to do whatever they want ... and to exploit without any government interference with their extraction and predatory behaviour..."

Third Passage:

"The campaign donors decide which politicians will have the money to buy TV time and essentially the pay in the Democratic Party, the Democratic National Committee. The Democrats appoint the Heads of every government committee by how much money can you contribute to the Democratic National Committee, which is a group of ultra-right wing rentiers, very much the same people who finance the Republican Party.

"They are the same party basically... They contribute to make sure ... the FIRE sector: finance, insurance, real estate, along with monopolies in the military.... That's the core of the campaign contributors who dominate both the Republican and Democratic Parties, but most blatantly the Democrats..."

Although Prof. Michael Hudson was writing about the USA, he did state "in other countries" the same reality applies.

I do not need to spell it out that you have to follow the money trails. Initially, it is 'their money' that starts the ball rolling but, in the final analysis, it is the taxpayers' money that greases the election machinery to manipulate the votes in the direction of the chosen candidates.

Common sense, you have to know WHO is behind the MONEY and HOW THAT MONEY is deployed – AS IN BUYING VOTES!

Are you really so stupid that you do not understand this basic reality? We are not interested in the frontline actors that capture all the headlines.

WHO ARE THE MASTERMINDS, the "Collective Decision Makers" OUT OF VIEW AND OUT OF SIGHT?

Now focus on all the global investigations on "abuse of power, corruption and money-laundering etc. witness' sworn statements and testimonies" and I guarantee that the passages of Prof. Michael Hudson cited above and my exposés over the years are absolutely true and correct!

So, no investigations on abuse of power, corruption and money laundering etc. can ever be effective and thorough, when the investigations do not focus on the REAL / ACTUAL source of this EVIL, whether foreign and domestic!

There are also secondary factors that would be deployed to ensure the desired outcomes.

However, for the purposes for this article, I will focus on the issues of immigration and US \$Debt that has dominated the political narratives in the US and Western Europe.

Why only in the last few years, that this two issues have become the threats to national security of the Western countries?

I will not spoon feed you. You are invited to research and read the MSM headlines, specifically the racial, religious and the country of origin for the waves of immigrants, criss-crossing all boundaries from the South to the North, from the countries of the Muslim Crescent to Europe and the inevitable backlash against the immigrants.

Who and what cause the uncontrolled influx of immigrants to the West and which country and race would be the principal beneficiary of the backlash?

WHICH COUNTRY was selected as the TEST-BED TO DETERMINE THE MOST EFFECTIVE APPROACH to implement this IMMIGRATION policy? It is hidden in plain sight!

I will invite you to consider if - "you" (the race, the country, the geopolitics) are the focus of global anger and hate, what is or could be the greatest diversion, and or the paradigm shift - *from the focus on "you" to a contrived existential danger that "you" are the victim in as much as the people and country are victims to the tidal waves of illegal immigrants who can be easily provoked to rampage, burn and destroy and the implementation of the inevitable solution – clean and clear them out ... extermination!*

"You" as the problem, will be forgotten.

The existential threat to the world, the Western culture and civilisation will be the immigrants (illegal or otherwise) – a morbid reversal of the politics, the ugliness and horrors of centuries of "Imperialism / Settler Colonialism" - the genocide of the native peoples who became a forgotten race and an oppressed minority held down by the yoke of cultural genocide as obtained in Palestine for over 70 years.

Soon, terror and the unbridled cruelty will be unleashed on the immigrants, the convenient patsies for the Global New Map, drawn up and exhibited for the world to see at the United Nations by the chosen genocidal cheer leaders.

It is remarkable that “highly qualified” economists and policy-makers in governments (for which even President Putin had recently confessed and admitted OVER LIVE TELECAST to be NAÏVE in believing the propaganda of the West) have refused to accept the REALITY of the US\$ Debt burden and the global infrastructures that facilitate this debt burden!

No Harvard, Yale, Oxford, LSE etc. graduates in economics and finance can explain why and how the US, being the biggest and baddest debtor in the world (in excess of US\$ 200 Trillion, and counting) and enjoyed a low interest rate regime for over 15 years, can still be perceived as the “strongest economy”, the “strongest currency”, the “strongest military” etc. even as the FED has reversed the low interest rate regime and accelerated the increase in the rate of interest on US\$ debts / currency.

If truth be told, it has nothing to do with the myth that the US\$ is backed by commodities (e.g. oil has to be purchased in US\$) and or that because it is stated on the US currency that “In God We Trust” (a blaspheme) or it is a nuclear power. Russia, China, UK, France are also nuclear powers.

The above factors cannot explain the fundamental truth, why the US\$ is so strong and powerful since WWII and presently losing its lustre.

In simple “Joe Six-Packs” lingo and not in Queen’s English, the US is a hegemon and an empire and a PREMIUM (or Goodwill) MUST BE PAID for the use of the US \$ and the irony is that the VALUE OF THE PREMIUM is absolutely determined by the people wielding power behind the Hegemon and Empire.

A digression – Why is the UK pound sterling, joined at the hip with US\$, is so much stronger than the currencies of the Commonwealth countries? The small bully is relying on the “muscles” and baseball bats of the big US bully. Hence the “Special relationship” between US and UK and the members of the “Five Eyes” Coalition / Alliance which are all “Settler Colonialists!

Conclusions

Looking into the future, the US Hegemon and Empire is declining and losing its lustre. The wars in Ukraine, Gaza, Red Sea and future wars have opened and will open the eyes of the members of BRICS, the Shanghai Cooperation Organisation (SCO) and the Global South. The journey to remove the Imperial / Empire yoke will be arduous and long. It is sobering for President Putin (and a measure of his integrity) **to admit on live telecast that he was NAÏVE in believing the Western propaganda, even though he was once a senior KGB officer. Count your blessings that he has finally accepted this harsh reality! But, have YOU?**
