

A Geopolitical Perspective – US /UK Zionist Hegemony Cannot Be Sustained & Will Collapse.

By Matthias Chang- Future Fast-Forward

This article is a continuation of my analysis and exposures that what students have learned at leading global universities and their clones, particularly at economics faculties, are junk, lies and myths.

This analysis, by reason of time and space must likewise be confined to the history and events of the 20th and 21st Centuries.

THE TWIN PILLARS OF POWER

The twin pillars of power of Britain (the previous hegemon) and the US (the current hegemon) are:

- (1) Naval Power (Gun-Boat Diplomacy) and**
- (2) The Global Reserve Currency (the previous British £Pound Sterling and now the US \$)**

The inherent and ultimate weakness of naval power is that they have to be deployed all over the world to protect / preserve the colonies / vassal states and the vital sea routes for plunder and subjugation. The resources for such a global naval armada must be harnessed at great expense and stretched to the limits to be effective. Hence, the necessity for battleships which were replaced by aircraft carriers and supporting ships forming an awesome “naval battle group”, in essence a mobile and “floating military base”.

Ultimately, conquest must be ‘**land centric**’ and the victorious military must of necessity ‘**occupy**’ the real estate to plunder and subjugate.

This factual matrix explains why Russia and the then Soviet Union could not be conquered by any massive military invasion. It was a logistic nightmare for the invading armies. In the case of China, it was form of hybrid occupation, as it was more than sufficient to occupy the economic coastal choke points for imperialist plunder and subjugation. Hence, the strategy of “Peoples’ War” using the rural hinterland to encircle the urban industrial / financial centres.

The hegemon’s global stranglehold was the “reserve currency” as trade and finance could only be transacted in the reserve currency and when “fiat” replaced “gold-backed” currencies, financial imperialism reached its zenith of domination.

It was an exorbitant privilege that “toilet paper money” was accepted without question by the entire world, to the extent that even Russia / China have to use the US\$ as the benchmark for financial stability. 80% of Russia’s global trade was transacted in “US\$ Toilet Paper” and China foreign reserves was

predominantly in US\$ Toilet Paper. The greatest irony was that China produced and sold goods and services and was paid in US\$ Toilet Paper and became a creditor of US debts in the US \$Trillions and was repaid by computer generated US\$ Toilet Papers. This holds true even today when China, allied with Russia and BRICS, embark on the de-dollarization of the US\$!

Yet, students were never taught that fiat money was essentially “toilet paper money” and its acceptance was by compulsion, that any challenge to the dominance of the US\$ Toilet Paper Money, would be met by the total destruction of the political leaders and economy of the country – Iraq and Libya are recent examples.

PETRO-DOLLAR AND EURO-DOLLAR

Bribery and the threats of a US military backlash were the only basis for the affected countries (in the Middle East and Europe) to kow-tow and accept the US\$ Toilet Paper Money.

The entire Muslim leadership, save for Iran, capitulated to the US on the assurances that their rule as absolute monarchs would be protected and ensured or face the wrath of the Israeli gangsters / mass murderers armed and financed by the US / UK Deep State.

No Muslim leader or State dare question the myths of the mighty Israel and US, as these Muslim countries were artificially created by the Sykes-Picot agreement and the humiliating collapse of the Ottoman Empire following the defeat of the Axis powers in WWI.

The defeated empire and its people must obey. Period! That is the rule of the game since time immemorial.

This is the reason why Muslims and Muslim leaders have been so subservient to the West and Islam insulted to such an extent that occasional demonstrations were tolerated or be demonised as “Terrorists” should they go beyond the geopolitical Red Lines. The Global War On Terror (GWOT), following the false flag operation on 9/11 was unleashed to ensure that Muslims adhered obediently the rules and dictates of “Mother England” (UK) and “Uncle Sam (US).

The irony, is that Al Qaeda and ISIS were the creations of the Western (UK / US) Intelligence Services and yet, Muslims have been brainwashed to accept that Islam is the theology and ideology that breeds terrorists. Patsies were trained and indoctrinated by the Western Intelligence Apparatus to take up arms to fight for Allah when they were instruments of the Western Deep States. Adding insult to injury, the “Battle Cry” by these brainwashed stooges was “Allahu Akbar”!

Study and research on the Talmud before you attempt to prove me wrong. You won't succeed!

For the Europeans, they were equally subservient because Germany and Italy were defeated in WWII and France etc. were victors only because the US entered WWII, to assert hegemony in that war theatre, after the Soviet Union defeated the Nazis on the Eastern Front and rushed toward Berlin, taking the entire Eastern Europe as the spoils of their victory and as agreed by President Roosevelt and Churchill.

Euro-dollar was an instrument to ensure financial compliance with the City of London as the centre of financial hegemony for the US\$ Toilet Paper Money hegemony.

The oil embargo in the 70s by the Arabs was a farce and a simulated exercise to prolong the US\$ Toilet Paper Money hegemony. I have called it a brilliant scam and in our local cliché - “Wayang Kulit” (Shadow Play).

Crude Oil is produced and must be sold in US\$ Toilet Paper Money and these “papers” must be re-invested in US\$ dollar assets, mainly US Treasuries. The American Zionists are laughing all the way to their banks and the Federal Reserve Bank (FED).

Why do you think the Westerners have such utter contempt for the Arabs, the Muslims and the then Communist countries when they did not pull the curtain back and expose the fraud and scam?

Total acceptance!!!

This is one of the reasons for Putin to declare recently (better late than never) that he and Russia were so naïve in accepting this sordid story line. Ditto for China, who only just woke up to this scam and con-game and scrambling to minimise this horrendous historic mistake. Count your lucky stars that the world has Putin and Xi!

A caution – do not count the chickens before they are hatched!

PARTING WORDS

Right now, the global forces is at the **“strategic stalemate”**, with neither side strong or vicious enough to go on the offensive on a global scale. Hence, the proxy wars.

The prize of victory by a global nuclear war is too costly and destructive for both sides.

Till the inevitable collapse of the Empire, the **BEST CASE SCENARIO** for least a decade, the earliest time line being 2035, the world will be divided into three or four specific regional spheres of influence and control.

Aircraft Carrier Battle Groups and naval armadas are obsolete and the natural defence lines afforded by the Pacific and Atlantic oceans and out-dated ICBMs

would not be sufficient deterrence or impediments with the availability of indestructible hypersonic nuclear missiles, swarms of hundred thousands of drones and space launched nuclear missiles.

Only the madmen would go for the full Monty. But, we have enough madmen. So, I suggest in all sincerity, that we pray for sanity!
