

Malaysia's Wake-Up-Call Dilemmas: In Three Parts

By Matthias Chang – Future Fast-Forward

Part 2

Prologue

“Whoever doesn't miss the Soviet Union doesn't have a heart. Whoever wants it back doesn't have a brain.”

If we think and meditate enough, we will conclude that President Putin's wisdom as quoted above applies to Malaysia without any need for qualification whatsoever.

Why?

President grew up and was part of the Soviet Union' system of government. He remembers all too well that it was the Soviet Union that defeated Nazi Germany in WWII and **not what you have been brainwashed to believe that it was US and UK that defeated the Germans in WWII, after the Normandy invasion and landing! That was all BS, propaganda and gross distortion.**

The Reality

- **22 June 1941, 99 of 190 German divisions**, including fourteen panzer divisions and ten motorized divisions, were deployed against the Soviet Union from the **Baltic to the Black Sea**.
- The Germans had **59 divisions** spread over **Western Europe** from the Low Countries to the Atlantic and Mediterranean coasts of France; **but approximately half of this number was static, and the remainder included only 10 armoured or motorized divisions**.
- **In WWII, in the Russia war theatre alone, the Germans ultimately allotted almost 150 divisions containing a total of about 3,000,000 (3 Million) men. Among these were 19 panzer divisions, and in total, the “Barbarossa” force had about 3,000 tanks, 7,000 artillery pieces, and 2,500 aircraft.**
- How many German divisions were at Normandy? It was the main US offensive. **The Germans could field only seven weakened infantry and parachute divisions, supported by 2nd SS Das Reich, Panzer Lehr (re-located from the Caen sector) and the remnants of 17th SS Panzer-grenadier Division.**

- **What nation did Germany fear most? Russia of the Soviet Union.** A Communist country was one thing; the other thing that scared the Germans so much was the incredible size of Russia. **Their armies were not the same as the French, the Belgians or any of the other nations they faced in Europe.**
- What was the deadliest battle on the Eastern Front? **Stalingrad was one of the most decisive battles on the Eastern Front in the Second World War.** The Soviet Union inflicted a catastrophic defeat on the German Army in and around this strategically important city on the Volga River, which bore the name of the Soviet dictator, Josef Stalin.
- Who fought the Germans the most? **Soviet Union:** all those who studied history should know this – **the Soviet Union inflicted 80% of all German casualties. She mobilized more soldiers than the USA, UK, France, and Italy combined, and also suffered the most losses – losing 20 million of her own people.**

Now do you understand why President Putin said:

“Whoever doesn’t miss the Soviet Union doesn’t have a heart ...”

Soviet Union’s **heart was literally bleeding** from the unprecedented sacrifice of the entire nation in defeating Nazi Germany. That was the proud and great history of the Soviet Union – WWII was rightly referred to as the Great Patriotic War. In 1990, it was conceded by the West that 26-27 million Russians died in this war. Yet, the entire world must kow-tow to the Zionists because 6 million “Jews” (falsified figure) were allegedly killed by the Nazis. I dare challenge anyone to prove that 6 Million “Jews” were killed by the Nazi. “Jews” were killed but not 6 million!

But, Russia has evolved since 1991 with the collapse of the Soviet Union and rebuilt itself into a great country and will defeat (as I have said repeatedly) the Zionist Anglo-American war machine. Seriously, can Ukraine, supplied and armed by the Anglo-American Combo, and several vassal states in Europe take on Russia in the current sinister proxy war?

Soviet Union and Communism made several and historical mistakes, notwithstanding its victory in WWII.

Hence, President Putin reminded and asserted to his people,

“Whoever wants it back doesn’t have a brain.”

The Lesson For Malaysia

The **application** of President Putin’s wisdom to Malaysia may be stated as follows:

“Whoever doesn’t miss the Alliance and the Barisan Nasional coalitions doesn’t have a heart. Whoever wants them back doesn’t have a brain.”

The new Malaysia must learn from the Malaysian history’s heart of sacrifices and pain. But, the new Malaysia must change by a “Revolutionary Brain Approach” to scale new heights of excellence as Russia is doing so brilliantly, post WWII!

Recall what I had stated in Part 1 and I repeat them here:

“Where & How To Start On A Clean Sheet – To Heal Malaysia

- *The political and economic environment has changed.*
- *The old tools and policies are not applicable. In fact, counter-productive.*
- *The need to spring-clean the mind-set of all the politicians across the entire divide.*
- *The SOP of all the political parties is the same. Differences and or variations are relative and a matter of convenience.*
- ***The dangerous subversion of our Federal Constitution, the Supreme Law of the Federation...***

I had in Part 1, covered the 5th Concept (as denoted in Red) – The Supreme Law of the Federation.

The new wisdom,

“Whoever doesn’t miss the Alliance and the Barisan Nasional coalitions doesn’t have a heart. Whoever wants them back doesn’t have a brain...”

... must be applied and integrated with the remaining four concepts which will be examined in Part 2 and 3 of my analysis.

In my Conclusion to Part 1, I wrote and I quote:

Hence, the First Step is to uphold the sanctity of the Federal Constitution – the Supreme law. When we cannot uphold the sanctity of the Supreme Law, any discussions on addressing the remaining issues relating to the dilemmas facing Malaysia is an exercise in futility!

Living On Borrowed Time

It is absolutely critical that Malaysians must acknowledge consciously that we are already in 2024 and by the next year, in 2025, we have would have barely survived the first quarter of the 21st century.

Consider:

- The alarming fact that the NEP which was supposed to last for **twenty (20) years** has **expired three decades ago in 1990** (the end of the Fifth Malaysia Plan);
- It was **“politically”** accepted by **all Malaysians** and **political parties** that the NEP would be reincarnated in another form, the NDP in 1991 for ten (10) years and has **already expired in 2020** the **end of Vision 2020**;

- Therefore, the **social engineering program** which spanned three decades (30 Years) to **uplift the entire Bumiputera Community** has **ended** for all intent and purposes.
- It was an **undeniable success story** (we must build on success and not whine on mistakes) – **all** professional endeavours and Middle-Class **targets were achieved.** This is the best summation of the success of the social engineering program. **Be proud**, notwithstanding mistakes!
- We must also recognise the critical fact that a new economic and financial landscape have emerged at the beginning of the 21st century. Although we have “caught-up” in the economic race / game beyond all expectations, **we have fallen behind in competitiveness by a wide margin.**
- **And we are still living in the past and fighting the “last economic wars” using the same obsolete tools of social engineering.**

It reminds me of the oft quoted cliché by French Prime Minister, George Clemenceau:

"Generals always prepare to fight the last war, especially if they won it..."

What was meant by the complaint was that **Generals** always fight the last war, and **armies consequently spend the time between conflicts training how to fight better under conditions** they most recently experienced.

This is how **politicians from Barisan Nasional (especially UMNO)** and echoed by all other political parties are fighting the current 21st century economic and financial wars with policies, programs and social engineering tools which have exceeded its shelf-life dates and were to be applied “Best before the End of the 20th century”.

This is not what I asserted, but the official Barisan Nasional government (dominated by UMNO) have repeatedly assured Malaysia! This all ends within 30 years (three [3] decades) by 2020!

The Complacency Poison

Malaysians are complacent and have settled into the comfort zone of entitlements and dependency – the same disease that has so obviously infected on the past and present hegemons – UK and US, that their monopolistic tools are still applicable and must be followed - when their empires are no longer competitive and sustainable. Like in the USA and the UK systems, the Malaysian government is the biggest employer and debtor.

Kaput!!! In German it is Kaputt !

To quote from International Man, Jeff Thomas,

"Dependency upon government is a disease. Once it has been caught, it becomes chronic and does not reverse itself in a population until the system collapses under its own weight."

There were five Malaysia plans since the retirement of Tun Mahathir Mohamad in October, 2003 and are as follows:

- **Eight Malaysia Plan, 2001-2005**
- **Ninth Malaysia Plan, 2006 - 2010**
- **Tenth Malaysia Plan, 2011-2015**
- **The Eleventh Malaysia Plan, 2016-2020**
- **Twelfth Malaysia Plan, 2021-2025**

When Tun Mahathir became the prime Minister again in 2018, the 11th Malaysia Plan was dead on its arrival at his desk. 1MDB overwhelmed the government.

Likewise, for the 12th Malaysia Plan, when Anwar Ibrahim took over on 24th November, 2022, he could only make a lame “Mid-Term Review”. Sad!

The abovementioned Plans have grand designs and “politically correct sound bites” **but the Annual Budgets from 2004 onwards did not jive with the Five Malaysia Plans! Sad!**

The policy-makers, the economic and financial players, the GLCs (Government Link Companies), the GLICs (Government Link Investment Companies) and other allied agencies are matured and experienced players. Yet, these entities are still using tools and policies beyond the expiry dates.

Do I have to yank out the nails from the coffin to get through to you? You must be sick to the core of your being to expect that level of spoon feeding!

Final Questions:

Do, and have the “advisers” to the government read all the above **Plans, and **the Annual Budgets** to have, **at the minimum** the “feel” of the trend and the directions which our country is heading?**

Where is **the consistency** and **alignments** of the policies embedded in the Malaysia Plans and the Annual Budget?

The politicians, especially those in parliament have failed the country and all of us!

Why bother to elect them?

Part 3 – much later. We must chew and digest first, the information provided!
