

Whisper's 11th Meditative Insights To The World

Shared by Matthias Chang

This Message must be read in conjunction with the Message I sent out yesterday, "About Time – What Time Is Not". Below this article, I will be sharing a video about time.

First Thing First – Whisper Message Today

“Matthias, this message is for only those in search of Truth, has an “Open Mind” and is willing to learn and cast away the trash that has clouded their Hearts and Souls. Only a few will understand, that this message is MEANT for them and no one else.”

“Matthias, you have made so many references to the various Faiths, Religions and the Holy Scriptures but only a handful have asked the question,

Why did HE chose and or appoint the “Messenger” who is not a scholar?

“It does not matter whether you believe in whatever religion and or who is God.

“Jesus was a carpenter, Buddha gave up a kingdom to be a Sadhu and Prophet Mohammad was a humble man before receiving the Revelations.”

“Their Messages and Revelations have survived for thousands of years and spread throughout the world, in spite the efforts of scholars’ intense examination to disprove the authenticity of the Holy Scriptures.”

“You cannot “see” what HE sees. You can never know what HE knows. HE is Infinity. This fundamental Truth is so obvious, yet we have scholars and scientists debating whether there is “GOD”, or a “CREATOR” and how the world was created. Yet, they were all so gullible to accept the obnoxious and falsity of the Big Bang Theory.”

“For those who have Faith, there is no need for the James Webb Telescope to verify HIS absolute truth. Now, the arrogant have been hoisted on their petard - their so-called discoveries, assertions and finally exposed as charlatans. They lied, misled and clothed with “respectability” and the conferment of the Nobel Prize they were deemed to represent the Truth.”

“Matthias, please share with others what your research have shown about these so-called experts...”

This is what I had gathered from Wikipedia:

Nobel disease or Nobelitis is an informal term for the embrace of strange or scientifically unsound ideas by some Nobel Prize winners, usually later in life. It has

been argued that the effect results, in part, from a tendency for Nobel winners to feel empowered by the award to speak on topics outside their specific area of expertise, although it is unknown whether Nobel Prize winners are more prone to this tendency than other individuals. Paul Nurse, co-winner of the 2001 Nobel Prize in Physiology or Medicine, warned later laureates against "believing you are expert in almost everything, and being prepared to express opinions about most issues with great confidence, sheltering behind the authority that the Nobel Prize can give you".

Coming back to Whisper's message

"To avoid the arrogance of the so-called experts, I will share with you this secret – HE sees with the **LENS of INFINITY**. And those who have faith are radiant as viewed from HIS Lens of Infinity. **They will be the Light, glowing brightly to show the way. And the light comes from the Heart.**"

Now, I finally understand why I just have to share and not to persuade. **I need not know.**

HE will know as HE watches all of us.

What is meant to be WILL BE. What is not meant to be WILL NOT BE!
