

American Patriots - Michael Collins Piper And Col (Rtd) Donn De Grand-Pre. Impeccable Source For Political And Military Intelligence.

By Matthias Chang – Future Fast-Forward

Preliminaries

I owe a debt of gratitude to the late Michael Collins Piper and Col. Donn De Grand-Pre that I can only repay by continuing their discipline, dedication, courage and going against the tide in bringing hidden Truths to as many people as are willing to make sacrifices for their country.

I had known Michael for many years and invited him to Malaysia and joined him in Iran as speakers at the **International Holocaust Conference** with 67 researchers from 30 countries in December, 2006. I spoke at the Final Session with **four Rabbis** to a packed audience. But, for Michael I would not have known Donn, his patriotism and inexhaustible hope that his fellow Americans will discover the hidden truths.

However, this article is about what I learned from Donn and I fervently believe that **99.9% of Malaysians**, including members of the Intel Apparatus in Malaysia have not heard about Donn and the hidden truths revealed to me which I will elaborate below.

Who Is Donn De Grand-Pre

From Donn himself, a summary:

Got into OSS right at the end of World War II, then went into Korea for a year and a half, was wounded, with the airborne. Actually I went to work for Sec. Def. Bob McNamara. He hired me as the chief arms negotiator for the Middle East. And we conducted our business there. We were known as the super salesmen in ISA, (International Security Affairs). And over a ten-year period, we sold over a hundred billion dollars' worth of military equipment to all comers. On 12 September, 2001, I wrote to my friend Gen. Hugh Shelton, who was Chairman of the Joint Chiefs at that time. He was transited out, was replaced by Gen. Richard Myers, what the heck, was the Chairman of the Joint Chiefs' He was a four-star Air Force General. At any rate, I called together from 16 to 19 September, in the Pentagon area, not in the Pentagon, a group of military, civilian and general aviation pilots. And for three days, we kicked around what actually happened on 11 September. And then the investigator journalists covered that and it was reported in the Portugal news and very accurate. I have the report in front of me.

Washington Post quoted him as saying:

"But I'm against the proliferation of weaponry just for the sake of maintaining production lines or making the sale. Because the thing snowballs. We find that occasionally we're arming both sides of a confrontation, as we have in India and Pakistan, Jordan and Israel and -- on a much larger scale -- Egypt and Israel."

What You Need To Know

- One year before the 9/11, Donn wrote: **"Have the barbarians already pulled off a de facto coup?**
- Think about it seriously, **for time is running out**
- If a coup d'etat actually took place early morning of 11 September, then, **who were the King-makers? Who were in charge?**

Donn assembled a team on 16th to 19th September.

- On 12th September, he wrote to General Hugh Shelton who was the then Chairman, Joint Chiefs, who was transited out and replaced with General Richard Myers (a four- star Air Force General).
- For three days, from 16th to 19th September (a group of pilots, names were kept anonymous) submitted a 24 page (unanimous conclusion) Report to the Chairman of Joint Chiefs as well as to the then Vice Chairman, General Peter Pace (who later succeeded General Richard Myers). 500 copies were sent out!
- The reply from Joint Chiefs was coded – "Semper Fi" meaning "Always Faithful"
- The final paragraph of the Report states: "So far the mainstream American news media has failed to publish or broadcast any details regarding the independent inquiry. Similarly, the White House whilst having received a copy of the Report has remained silent on its findings."
- Col. Dick Schultz, from the staff of the Joint Chiefs, admitted that the morale was low and the military were ready to mutiny.
- A **coup was pulled** on the morning of September 11th. It was an **"administrative"** or **"a cold coup d'etat"**.

- We found that the culprits, including Rumsfeld were part of a neo-con group that has been planning this for literally years **prior to** September 11th.

I have a Copy of the Report as well as a Letter to General Peter Pace, then Vice-Chairman, Joint Chiefs dated 23 January 2002 from Donn.

I will quote the relevant parts,

- “Regarding the 9-11 ‘incident’ I was assisted in my analysis by friends of impeccable credentials, who actually believe in Duty-Honor-Country. They are in accord with the analysis. Believe me it was no accident. There were no hijackers; there were no box cutters; there were no phone calls to hijacked passengers; **in fact all personnel on board were rendered instantly unconscious** (within 18 minutes at most) by controlled depression.
- All commercial planes were **controlled remotely** by aircraft with EMP and / or other radio frequency weapons. The actual **plot was exceptionally well planned** in advance and **was executed under the guise of ‘terrorism’**.
- The President seems to be absolutely terrified of the results and the Israelis are dangerously desperately It could spell the death knell for the Israelis. When and if they recover, the **Palestinians will eventually get resolution 242 and 338** and become a **truly unified state**. In the meantime we are rapidly and inexorably **heading toward a massive financial collapse** ...
- When in God’s name, will we decide that enough is enough?”

Sincere regards from a soldier, once young

My comments in parallel with MH370. I invited a former impeccable retired US fighter pilot to Malaysia, who warned that “remote control” was used to hijack the plane MH370. I introduced him to a former colleague of mine in the PMO, who was an UTK force member and before his recent retirement, as the CPO of Pahang.

I cannot say more for national security reasons!

Caveat

Therefore, I accept Donn’s evidence as I would accept any other evidence from my sources in the same manner and discipline – extensive verification, without bias or prejudice notwithstanding that they may have a past record of bad deeds.

Ask, if you accept even without verification, John Perkins “Confession of an Economic Hitman” and how he had corruptly assisted the IMF to destroy third world economics, why not open your eyes and be more objective?

Political, Financial and Military Intelligence from any source must always be viewed and examined with a fine toothcomb without prejudice!

Parting Advice From Donn

General Andrew Jackson, just before the Battle of New Orleans, confronted by an unusual dense fog on the fields outside the city was asked by a young soldier: “But, general, sir, how can I fight and defend myself against an enemy I can’t see?”

The General replied, “sooner or later your enemy will show himself. And you will know what to do”.

While peace is undoubtedly wonderful, the motives of those who organise so-called peace movements and peace demonstrations of varied degrees of violence, are often suspect.

In the final analysis, **World Government** under socialist rulers becomes the pacific sea toward which all tributary movements flow. With the end so nearly achieved, **it seems more than ever unfair that the American people should not be permitted to know the identity of their betrayers.**

Donn invited Americans to consider:

- Either a unified Rising against the New World order of economic and political slavery, and for the restoration of our Constitution and the Republic for which it stands;
- Or a submissive surrender to the global oligarchy and preparation for a journey into the long dark night of no return.
- The Barbarians are inside the gates!

The same advice should apply to the world!
