

Putin's Reverse Cuba Gambit: Moving The Chess Pieces On The Geopolitical Chessboard - Checkmate US, UK and NATO

By Matthias Chang – Future Fast-Forward

Chess

One move on the Chessboard, the Entire US Military Command and the Western Hemisphere will be caught stark naked, will surrender and then beg Russia for forgiveness.

President Putin and his team understand chess and strategy better than anyone in the West.

From the epicenter in St. Petersburg, the shockwaves from this article will reverberate to the far corners of the globe, all thanks to President Putin's Reverse Cuba Gambit, the master move in the geopolitical chessboard!

I can now with certainty reveal the truth, the whole truth and nothing but the truth!

There is more than one way to checkmate the “King”. My favourite and I believe that President Putin's **Reverse Cuba Gambit** (Coup de Grâce) has caught ALL Western minds (even those supporting Russia's stand) completely off-guard because the f#@ked up Zionist West only knows how to “use” the “Queen” the only way they are accustomed to do – to bully i.e. the use of provocation and the threat of a nuclear war.

The nuclear bombs unleashed on Hiroshima and Nagasaki was never ever to save American troops in an alleged invasion of Japan in WWII. Japan was already defeated in the Pacific war theatre. Period!

There was only one reason and one reason only – the nuclear threat to USSR. The threat did not work at all. Nuclear weapon was and is a “Paper Tiger!”

Know WWII History

USSR has achieved and obtained the singular ultimate prize, the total and devastating destruction of the Nazi war machine. Japan was never a major consideration for the USSR. Japan's empire in the East was a pipedream when MaoTse-Tung's “people's war strategy” defanged Japanese Imperialism in Asia.

Arsehole Malaysians better re-learn the real history and not the West's fake news and propaganda! You need not be a communist to write what I am exposing to you!

Do the research and don't be the f#@ked up Malaysian, so afraid about learning the irrefutable Truth. The British's narrative was that, only a communist holds the view. BS!

Winston Churchill understood the geopolitical strategic implications even before the conclusion of WWII when the USSR defeated Nazi Germany in the Battle at Stalingrad and Leningrad (now renamed St. Petersburg).

The Western economies were all war-based economies and war must continue for the minimum period of ten (10) to fifteen (15) years or else their economies would not recover. Another great depression after WWII was unacceptable!

How to create a war when WWII just ended?

In March 5, 1946 at Westminster College, Fulton, Missouri, Churchill delivered what has been considered his most important speech - the **"Iron Curtain"** speech in which Churchill issued warnings about the Soviet quest for domination in and beyond Eastern Europe, and he pushed for Britain to start another global war, first in Europe, and Asia to follow. **His message frightened the Americans, who were brainwashed to fear communism's spread since the 1917 Russian Revolution.**

THE SAME NARRATIVE IS BEING SPEWED AGAINST RUSSIA TODAY!

"From Stettin in the Baltic to Trieste in the Adriatic an 'iron curtain' has descended across the continent. Behind that line lie all the capitals of the ancient states of Central and Eastern Europe."

The Iron Curtain!!!!

There was unanimous agreement by the Western strategists that this speech was a "Declaration of War" - the COLD WAR to replace WWII and save the Western economies.

Britain had also to divest her colonies to survive. Britain agreed to the independence of her colonies for survival sake and not because she is so freaking kind and generous!

Freaking idiotic Malaysians fell for the cheap British propaganda, that USSR having suffered some 27 million dead and millions more wounded, would conquer the world as alleged.

It is impossible for the USSR to conquer the world but, Malaysians were suckers for the "Domimo Theory", the Cold War propaganda and were convenient pawns in the geopolitical chessboard.

Freaking Malaysians did not even know that:

Britain, France, the United States, Canada, and eight other western European countries established the North Atlantic Treaty Organization

(NATO) in 1949. In 1955, the Soviet Union responded by creating the Warsaw Pact as a defensive measure, immediately after the accession of West Germany to the NATO Alliance.

So, which side and who declared war first?

Answer: The British imperialist, still hanging on to her Empire but, for all intent and purposes, the USA became the imperialist top dog after WWII!

Before The Cuban Crisis

Bullet Point Summary

- After WWI, the Ottoman Empire ceased to exist. It was divided up after the end of World War I. What was left of the empire became the Republic of Turkey in 1923.
- During WWII, having learned the lessons of WWI, Turkey remained “neutral” for survival - an opportunistic strategy.
- 1938 - President Ataturk dies, succeeded by Ismet Inonu. Turkey chose Neutrality and does not take part in combat. Join the Allied forces in 1945, an opportunist move for survival when Nazi Germany was defeated.
- Agreed to serve the interests of US and the West, having been baited to join Europe. **Agreed to be cannon fodder during the Cold War by agreeing to host nuclear weapons and be a military base for the West to control the Black Sea.**
- Joins United Nations in 1950.

The Real Cuban Crisis & Settlement

From US Archives

- **The facts of nuclear deployments in Turkey have been an official secret for decades**, but it is no secret that they are a legacy and a relic of the Cold War. It is also no secret that the deployments caused anxiety in Washington when the U.S.-Turkish nuclear relationship began in the late 1950s. For example, according to a declassified memorandum of conversation in late 1960s staffers with the congressional Joint Committee on Atomic Energy (JCAE) told State Department officials that they saw a “real threat in Turkey” because of the possibility that leaders of an Army coup “might seize control of one or more of the inadequately protected weapons.”
- The deployments of nuclear weapons to Turkey that began in the late 1950s were part of the **NATO Atomic Stockpile plan** in which the U.S. would provide nuclear weapons delivery systems to allies and concurrently train their forces in the use of the weapons. The United States retained formal custody and control of the weapons, although

sometimes who actually controlled them was ambiguous, until the Kennedy administration began to tighten arrangements.

- An excised table in a Department of Defense history provides the starting years for of U.S. nuclear deployments in the NATO countries. The names of the countries are excised, except for the United Kingdom and West Germany, but the alphabetical order of the list makes it possible to identify Turkey, right before the United Kingdom. As Italy and Turkey were the only deployment sites for Jupiter intermediate-range ballistic missiles (IRBMs), the identification of Turkey is a certainty. Besides the Jupiters, deployed during 1961-1963, the United States also deployed gravity bombs beginning in February 1959, Honest John missiles in May 1959, and 8-inch Howitzers in June 1965.
- **The Cuban Missile Crisis of October 1962** served as a pivotal moment in Cold War history. Several events precipitated the crisis. **First, the United States placed medium-range ballistic nuclear missiles at bases in Turkey, which threatened the Soviet Union.**

It was agreed between JF Kennedy and Nikita Khrushchev that Turkey must remove all nuclear weapons under US control in exchange for USSR removing nuclear missiles in Cuba!

Any statements to the contrary, are BS and fake news! RM1 million to any arsehole in Malaysia who can prove me wrong or they must forever keep their mouth shut and learn from genuine history about the Cuban crisis!

Repeat of Cuban Crisis - US / UK Can't Do Anything

President Putin's "Reverse Cuba Gambit"

Russia's flotilla is presently sailing to Cuba and with a nuclear armed submarine lurking beneath the seas.

Turkey is no longer in play, not a piece on the Chess Board. There can be no exchange as in 1962!

Checkmate by Russia, without even making a move, as US / UK cannot move the King or Queen in any direction. The West is totally blocked on the geopolitical chessboard. Checkmate!

Now the fun starts!

US, UK, NATO has to offer something and or beg Russia to cease military actions.

Russia is at **THE DOORSTEP OF USA** as in 1962, just as the Zionist West is using Ukraine to threaten Russia.

USA is less than three minutes away from a nuclear explosion! President Putin's Reverse Cuba Gambit in play as you read this article!

Now who is shitting bricks???

Definitely not Russia!

Typical Malaysians, distracted and overwhelmed by information overload and never bother to think and or play Chess but indulging in intellectual masturbation.

Yes I did warn of the dangers of a nuclear war, but I did not say who will get f#@ked.

Now you know!

Apologies to American & British Colleagues

I have said repeatedly that I am writing specifically for Malaysians, but copied to you. Even though I am a Barrister, I am opting out of using "Queen's English" and using a language that Malaysians will wake up and understand – No-Holds-Barred Street Fighting lingo!

Why?

Malaysians have their heads between their legs! Ouch!

Exceptions:

- Former Prime Minister, Tun Mahathir Mohamad, who have been let down by his own ungrateful people for all that he has done. Foreign powers and his deceitful people ensured his humiliating defeat in the last General Election in the Langkawi constituency.

- Tengku, Tan Sri Razaleigh Hamzah. History and his people have not been kind to him after all the sacrifices he has made over the years. He is of royal bloodline, and after Tunku Abdul Rahman, our first Prime Minister (also of royal blood-line) his people turned their backs on the royals!
- The late Tan Sri Noordin Sopiee, chairman and chief executive officer of Institute of Strategic and International Studies (ISIS), a major think tank of Malaysia.
- Tengku, Tan Sri Mahaleel, former CEO of Proton, one of the best CEOs that Malaysia has produced.
- Robert Kuok Hock Nien is a Malaysian business magnate, investor, and philanthropist.
- Lim Chor Pee (1936 - 5 December 2006) was a lawyer and playwright. He wrote his first play, *Mimi Fan*, in 1962. The play featured characters that did not speak Queen's English and is considered to be Singapore's first English-language playwright. Lim was born in Penang in 1936. He attended the Penang Free School in 1940s. He studied at St. John's College, Cambridge in the 1950s. He was called to the Bar at the Inner Temple in June 1959. In September 1962, he was admitted to the Malayan Bar in Singapore.
- Datuk Seri Gopal Sri Ram (16 August 1943 – 29 January 2023) was a Malaysian judge of the Federal Court, a senior lawyer, and a distinguished constitutional jurist. He was the first practising lawyer in Malaysia to be appointed directly to the Court of Appeal when the court was first established in 1994.
