

Politicians Have Betrayed And Undermined Our Brave Military

By Matthias Chang – Future Fast-Forward

Wars can never and will never be won by JUST bravery and bravery alone! Period!

No generals and commanders will sent their brave soldiers, merely as cannon fodders to be slaughtered in the battlefields, to satisfy the egos and misconceived political agendas of self-centred politicians in parliaments or the US Congress, who will abandon us and run from the enemies even before a single shot is fired!

No Malaysians can ever question the courage and discipline of our armed forces. No One! Period!

WARNING

We have **brave armed forces**, but they have not been **adequately trained and adequately equipped** to fight any wars in the 21st century.

Our politicians are still listening to the bleeding Western f#@ked up advisers who have not fought a war on such scale and intensity as in Ukraine, and continue day-dreaming that any future wars will be “Bully Wars” where the freaking US, UK and NATO military, will fight armies and countries who are not properly equipped. Even then, the freaking US was defeated in Vietnam, Afghanistan and fought to a standstill in Syria. Period!

These were imperialist wars for the hegemonic agendas of the Empire.

The bleeding US unleashed the terrorists (ISIS, Al Qaeda etc.) they trained and armed to do their dirty work, slaughtering Muslim brothers and sisters in Syria, Libya and Afghanistan and then withdrew as cowards as illustrated in Afghanistan after years of mass slaughter and mess.

In Ukraine, the estimated survival rate of Ukrainian soldiers in the frontline is less than three days, died for the Empire.

Our military would not be fighting any insurgency wars in the future. It will be the cannon fodder for the Empire.

Are we going to defend our country from foreign forces - US, UK and NATO - as they pivot to Asia to encircle China and Russia?

The South China Sea will be the war theatre and **we in Malaysia will be blackmailed and forced to fight for the US, UK and NATO as cannon fodders and our politicians will surrender and sacrifice our brave young men and women. I will not allow this.**

I stand to be corrected – Malaysia has no adequate Defensive Systems to repel any air and naval attacks from drones, cruise missiles etc. launched from the hegemon's ships and aircrafts. Plans are being hatched to subdue and force us to surrender and be the cannon fodder. Look at the Philippines, already subdued to be cannon fodder!

Our politicians in parliament have failed and or betrayed our armed forces.

CURRENT WAR THEATRES

When Israel (with the Iron Dome etc.) and the so-called might of the entire US, UK and NATO armed forces could not prevent Iran penetrating their missile defence system and hit the targeted Israelis' military bases, do you really think, our brave military can repel our enemies without the proper equipment?

The M1- Abram tanks and M2-Bradley IFVs were metal coffins / traps that were easily destroyed by the Russians. Ukrainians soldiers have testified on videos carried by Youtube that M1-Abrams tanks will not be used in the front lines as they will be target practice for drones etc.

Our military has been betrayed!

Iran smashed the myths of the Iron Dome and the invincibility of Israel. Russia and China are learning fast from Iran. **The entire Muslim Sunni Middle East were shocked that Israel was a mere "paper tiger" and they wasted \$Billions buying US military hard-wares that were so easily destroyed in Ukraine.**

Don't listen and read BS from Western fake news!

I cannot state the whole truth for a variety of reasons. But we are in the dark and we do not have the relevant intelligence about the agendas of US and NATO nations preparing for war.

Our politicians in parliament cannot be bothered and are busy preparing for some mental health legislations, when it is these freaking arseholes that are retarded and need to be mentally treated and confined, so that they can do no more harm to our military – presently outgunned and unprepared!

Our military has been betrayed!

There is no way that Malaysians will allow our country to be a "R & R station" again for the foreign soldiers to screw our women in Kuala Lumpur and Penang night-clubs as happened during the Vietnam War when drug trafficking was rampant and thousands of our youths became junkies! Never again!

But, even paper tigers can kill and bully countries who are unprepared.

Malaysia is unprepared.

We are naked and our f#@ked up politicians are corrupt and could not be bothered.

Our military has been betrayed!

When President Trump sent an Aircraft Carrier Battle Group to North Korea, President Kim was not intimidated. He continued to lop missiles across and over Japan and warned South Korea not to intimidate North Korea.

Think about that!

If Matthias is talking and writing BS, do one thing at the very minimum – watch Prof Ted Postol of MIT and Col. (ret) Larry Wilkerson (Chief of Staff to Colin Powell, former Chair of Joint Chiefs) on Youtube and do some home-work. Don't expect me to spoon feed and provide all the details.

Col. (ret) Larry Wilkerson explains the consequences of allowing such a situation as is happening in Ukraine. No way, never will we allow a similar situation to be obtained in Malaysia in any wars provoked by the US, UK and NATO. Malaysians cannot be the cannon fodders for the Empire!

I can assure you that the BRICS members and the Global South will support the actions taken against Malaysia under the International laws of wars, if and when Malaysia become complicit in helping US, UK and NATO to unleash a war in our region.

Why Malaysia Will Be Endangered

Know your geography. The Map **even before** Malaya and now Malaysia was established, with the “Straits Settlements” in RED.

Arsehole Malaysians, just look at the Map of our country!

The Straits of Malacca is pivotal for the Empire to unleash any hegemonic wars.

Sarawak and Sabah will be the staging ground / base on the eastern landmass.

History of WWII and how Japan whacked the British and controlled the entire sea route in South-East Asia was the blue print for the establishment of the Japanese Imperial Co-Prosperity Sphere – **in reality an effective propaganda tool to enforce Japanese hegemony.**

Do you numbskulls think that the US / UK hegemons will not replicate the same design to sustain their hegemony? Why do think Malaysia was formed?

Analyse the following bullet points:

- **RMAF Butterworth** (*Malay: TUDM Butterworth*) is an active Air Force Station of the Royal Malaysian Air Force (RMAF) situated 4.5 nautical miles (8.3 km; 5.2 mi) from Butterworth in Penang, Malaysia. It is currently home to the Headquarters Integrated Area Defence System (HQIADS), part of the **Five Power Defence Arrangements (FPDA)**.
- **Malaysia is therefore part of the US/UK hegemonic military design and agenda for the region.**
- The airfield was originally known as **RAF Station Butterworth** and later as **RAAF Butterworth**, under the operational commands of the Royal Air Force (RAF) and the Royal Australian Air Force (RAAF) respectively. Although the airfield is now a RMAF base, **under the terms of the FPDA the RAAF are a co-tenant of the base, maintaining an operational presence in the region alongside the RMAF squadrons.** The airfield and associated base facilities are colloquially referred to as **Butterworth**.
- Singapore, the Island Aircraft Carrier for the US / UK Hegemons controls the South, while Butterworth controls the North of the Malacca Straits. Diego Garcia is to control the Indian sub-continent and the Indian Ocean.
- When American and Australian aircrafts use the bases to bomb and destroy Russia and China's military force, Malaysia will not be spared. Yet, we promote that South-East Asia (ASEAN) is a zone for peace and

neutrality. Malaysia cannot be neutral when we host war planes for the Empire and enable the hegemons to wage wars. We must be mad!

- That is why the MPs and parliament must now be in the front lines and legislate laws prohibiting any foreign country to use Malaysia as a base for their war agendas. Period!
- Last warning to parliament or I will demand that every MP to be conscripted to fight the hegemons. If MPs believe that they are exempted in any way, then challenge Matthias and see what will transpire – over my dead body if you dare.
- That is why it is so critical for Singapore to have a stake in the “Malaysian Shenzhen” in the southern tip of Johor. Don’t ever forget that when LKY was alive, he was the indispensable ally of the US / UK designs and this has continued uninterrupted till today! Without US and UK’s support (financially and militarily) **Singapore would not be viable as a military State – the sole purpose of Singapore’s existence!**

Our military has been betrayed!

Wars Are Planned Years In Advance

- The French lost their Indochinese colonies due to political, military, diplomatic, economic and socio-cultural factors. The fall of Dien Bien Phu in 1954 signalled a loss of French power. General Walter Bedell Smith proclaimed: “Diplomacy has rarely been able to gain at the conference table what cannot be held on the battlefield.” While the first Indochina war broke out in late December, 1946 the preconditions had been set with misrule, mistrust, rebellions and skirmishes **long before**. Source: Australian Naval Institute.
- Fast Forward – President Obama administration's **2012 "Pivot to East Asia"** regional strategy, had the following key areas of actions – (1) **strengthening bilateral security alliances**. He increased US military ties with Vietnam (one time enemy), Australia, and the Philippines, increased aid to Laos, and contributed to a warming of relations between South Korea and Japan and (2) the **Trans-Pacific Partnership as the key economic pillar of the Asian pivot**.
- The Ukraine War was provoked **with the coup** initiated by Victoria Nuland in 2014. Russia defended Russians in Ukraine in February, 2022 after the slaughter of 15,000 Russians by the Nazi regime in Ukraine.
- AUKUS (2021), the trilateral security agreement among Australia, the United Kingdom and the United States, is already bringing the three allies closer together, and concrete progress will be measured over the next few years. Army leaders speaking at CSIS said they can see the benefits of the close partnership happening much more quickly. **The**

pillars of cooperation are technologies — including hypersonic weapons, cyber and computer technology and more. We do not have hypersonic weapons or defences against such weapons

- Australian Chief of Army Lt. Gen. Simon Stuart, British Army Chief of the General Staff Gen. Sir Patrick Sanders, and U.S. Army Chief of Staff Gen. Randy A. George have worked closely together to examine the ramifications of the partnership and ways to make it closer and more interoperable.
- "In an era of great power competition, defense and security is once again, a whole of nation endeavour," Stuart said. "But even more so, it requires us to work even more closely and in a more integrated fashion with allies and partners. **As military professionals, our greatest challenge is balancing the enduring human nature of warfare with its ever-changing character.**"

So, Malaysians think that there would be no plans to subdue our country by the Global War Party and Deep State?

Stop the intellectual masturbations and get real!
