

# Whisper's 23<sup>rd</sup> Meditative Insights To The World

Shared by Matthias Chang

**Before Whisper visited me, I received a dream at 1.04 am.**

**The dream was about one of my Gurus that came into my life decades ago. I was asked to recall his eerie and trembling experience that was confided to me when I became a disciple. I was stumped, as I had over the years forgotten completely his life changing and humbling experience.**

He had crossed OVER by a SUMMONS, and was commanded to choose four entrances that will decide his fate. My Guru, sweating blood, knew that the wrong choice would be disastrous. He humbly asked, "Is this my judgment day?"

**A "NO" or "YES", IS FOR YOU TO DISCOVER, was the reply!**

My Guru made a startling decision. He narrated,

***"I am not ready in make ANY DECISION and with YOUR permission I MUST cross back to my world and re-learn, to renew and to restart my journey."***

In an instant, my Guru came back to his "world" and he was never the same person again.

My Gurus taught me this wisdom,

**"Don't ever think you are ready. You are never ready to make the decision, never .... I was never so fearful of my ignorance and my flaws. Know that YOU don't know anything UNTIL you and I have been confronted with THE CHOICE ... AND THEN YOU WILL DISCOVER, that you cannot even make a simple choice."**

My Guru told all his disciples to leave him, as he cannot be a Guru to them when he knows nothing. His parting words – **"You are your own Guru, SEE and LISTEN with your HEART."**

I was wide awake from 1. 04 am to 3.00 am waiting anxiously for Whisper.

Whisper came and assured me,

"Matthias, it is good that you **recalled** the experience of your "Guru" who was **not your "Guru"** and especially **his parting words** to you and the disciples he had gathered over the years."

“Now, do you finally understand the command that you are only **to convey** but never to **convince** or **persuade** another to believe **as it is their choice**, a choice so simple when compared to the choice your “Guru” had to make when he crossed over.”

“It took such an experience to realise how ignorant that the gurus of the world in **each** and **every discipline** are, but they continue to display their arrogance and stupidity. Common sense eludes the experts! If HE is unknowable, how can anyone STUDY HIM and be recognised as a theological scholar with all manner of conferments of an expertise that is false and fake.”

“Let me illustrate. HE has sent down messengers and messages. HIS words! So why do people need scholars to interpret and explain HIS words? And then the greatest insult and blasphemy is when the **scholars demand** with arrogance that an entire nation and the people must follow **their school of interpretation and explanations of HIS teachings when such fake scholars have no basis to assert that they were appointed to be HIS representative.**”

“No basis whatsoever.”

“Is it any wonder, that HIS teaching is now a **global industry** and an **army of fanciful uniformed clerics**, parade and awe the people of the world that their teachings (not HIS teachings) are sacrosanct and cannot be questioned, on pain of death or imprisonment under the man-made laws such as sedition, heresy etc.”

“People rather listen to fake gurus, then listen and see with their HEARTS ... because they are too lazy to think, to listen and see with their hearts and squander that unique **GIFT** by surrendering to these religious harlots and charlatans, adorned with fanciful and colourful costumes and conferred with authority that subject ignorant people to be controlled and subservient.”

“Should anyone dare confront you and question YOUR faith, confront that arrogant fake **TO MAKE** a choice: – ‘There are four doors to SEE and BE WITH HIM, which one would you choose, as the wrong choice would decide your miserable FATE’ .... and you will witness the fake begging for the correct answer that he may be saved, as he will make a wrong choice.”

**I am so blessed that whatever messages and insights that I have received from Whisper was just to listen and see with my heart, be disciplined, dedicated and have the unshakeable Faith in HIM.**

**I am sharing this message and insight, that you will never be a victim of religious harlots and charlatans, selling their expertise on GOD. They have nothing to sell but their egos and the perceived man-made authority to control and subvert your faith.**
