

Guaranteed: President Biden Ordered the Murder Of President Trump By Snipers.

By Matthias Chang – Future Fast-Forward

The Unthinkable was activated by President Biden but the entire USA cannot come to terms with this fact when it was activated and notwithstanding the failure, as the admission would destroy completely the American nation and civil war would ensue.

The distraction and diversion narrative of the “lone gunman” was promoted as the cover-up for President Biden. That was the narrative all along regardless whether the murder succeeded or not. Even when the murder failed, that narrative was adhered to because that was the only “prepared” narrative and excuse. Trump death was a done deal. But, he survived!

There were never any external threats or parties involved in the failed murder of Trump. None, zilch!!! Period

Consider the following:

- Prior to July 8th, 2024 there were no explicit Orders to kill Trump from Biden notwithstanding numerous threats from the Deep State’s mouth-pieces that Trump must be killed;
- On July 8th, 2024, Biden issued the Order and the Method to murder Trump. “It’s time to put Trump in the Bullseye” - (“bullseye” means murder by snipers);
- Outright admission by Acting Head of Secret Service, Ronald Rowe in a Press Conference that there was never a “counter-sniper” team in any previous Trump’s Campaign Rally event. It was the first time at the rally in Butler, Pennsylvania that such a counter-sniper team was deployed.

It was part of the narrative that the lone gunman having been shot dead by the Secret Service’s Counter-Sniper team, was the assassin;

- Go to my website, www.futurefastforward.com for my article dated 15th July 2024;
- Lt. Col. Shaffer openly admitted that the members of Deep State “knew who were the snipers that fired the shot” that nearly killed Trump and Thomas Matthew Crooks was just a patsy. The video was uploaded to my website site. Listen carefully, word for word.

Lt. Col. Shaffer had previous experience of “Killing” on the command of the previous Presidents;

Source: <https://www.youtube.com/watch?v=1AQkbmmlLkE>

- President Biden was told by Nancy Pelosi that he “could go either the easy way or the hard way”. The reason is obvious, so that the cover-up can move forward, the “lone gunman” theory would be canvassed extensively, all the evidence destroyed and or “cleansed” as was done. President Obama (who has a “Kill List” – Google search, arseholes) gave the final warning or else....! President Biden surrendered and bargained that he would not be prosecuted for the attempted murder. The deal was done - Win-Win for the Deep State and the Democratic Party;
- The historic and unprecedented “Prisoners Swaps” between Russia and US was another diversion and President Biden had agreed because he needed a diversion and publicly seen that he could still be a “president”;
- There were no assassination attempts previously, as there were no Orders from a “sitting president”. And orders to kill must be obeyed against all enemies, domestic and foreign. The CIA, FBI, Secret Service etc. have a long history of carrying out such orders. And they are protected by law for such killings. No one has been prosecuted for such assassinations or failed assassinations in the past – not in the case of JFK, MLK, RFK and Reagan respectively. Trump was demonised as a “domestic” enemy and would destroy America.

There will be another attempt to murder President Trump, before or after the elections. That is why, Trump chose Vance as the Vice-President.

If it is before, there is a candidate, already endorsed by the Republican Party to take on whoever represents the Democratic Party to be the President of USA.

If, it is after the Election and Trump wins and is murdered, by law and by the Constitution, Vance will succeed as the President without much fanfare.

The true actors that attempted to murder Trump on the 13th July 2024, or when Trump is murdered post the election, they will never have to answer for the crimes at all.

The “Lone Gunman Theory” will be resurrected again and accepted even after 50 years. The USA **can never accept the unthinkable** that murder was committed at the command of a President. Period!
