

The Western Structure of Governments Is A Scam And A Ponzi Scheme

By Matthias Chang – Future Fast-Forward

For the record, I have exposed repeatedly that the so-called the “democratic elections” (or representative governments) are scams and that political leaders are selected and or groomed to capture power for their masters and vested interests.

Political power is but a derivative of Money Power.

A picture paints more than a thousand words. Look at the picture and learn.

The then Prince Charles and Evelyn de Rothschild, poking Prince Charles in the chest. This is a very aggressive gesture, and not something one would do to a superior. Definitely not! We would do this only to a distinct inferior, and someone we were bullying, almost treating with contempt.

Now, pay attention and get the **quotation below** tattooed to your grey cells so that you will never forget, and or stupidly assert, that I am writing BS.

“By dividing the voters through the political party system, we can get them to expend their energies in fighting for questions of no importance. It is thus, by discrete action, we can secure for ourselves that which has been so well planned and so successfully accomplished. These truths are well known among our principal men, who are now engaged in forming an imperialism to govern the world.”

Montagu Norman,
Rothschild servant & Governor, Bank of England
Speech to the US Bankers’ Association in New York City in 1924

“With the citizens permanently divided and popular dissatisfaction safely channelled into meaningless dead-ends, these puppet-masters could maintain unlimited wealth and power for themselves, with little threat to their reign.”

Boris Berezovsky

“No other system of governance provides as much opportunity for external control of nations and mass deception of populations as does a multi-party electoral system.”

Larry Romanoff

In essence, the “Families” must create the system whereby the entire nation is divided – preferably on racial lines, with each community subdued by fear that without “their government” in power they cannot and would not survive, thereby so easily manipulated and controlled. And all the agencies of government are headed by loyal representatives presiding over an obedient army of civil servants (the bureaucracy).

All budgets have a huge allocation to a sector that is never scrutinised at all. No politicians dare question this stupendous allocation. It comes under the term “Operating Expenditure” and taxation feeds this voracious appetite and obesity.

Hint: With each “new” government (it matters not whether it is a Republican or Democratic, Conservatives or Labour or a change of Coalition Governments) strategic appointments are made. When incumbents are retained, they ‘swear’ allegiance and obedience until a replacement is selected, to ensure continuity of governance *“that which had been so well planned and accomplished”*.

Contrary to the finance and economics taught in Universities and Business Schools, it is the governments and the public sectors that cause INFLATION and not the issue of fluctuating demand and supply of goods and services.

No politician and or economists can explain why the **target rate** of annual inflation is 2% or whatever rate that the vested interests have decided. The BS is that once they have “brought down” the rate of inflation to 2% or whatever, the Central Bank (and of course the government) can claim that they have defeated inflation. BS! Period!

Do the following exercise:

- Calculate the Operating Expenditures for each year, for the last forty years (any country);
- Calculate the size of the civil service and public sectors in the last forty years (any country);
- Calculate the inflation rate for each year, for the last forty years (any country);
- Calculate the price of a link (terrace) house in 1970 till now in 2024 (any country); and
- Which entity is the biggest employer in the last forty years (any country).

We have the measurement “CPI” (Consumer Price Index) which is changeable according to the whims, fancy and convenience of the government and the central banks to measure inflation.

It is fraudulent and a false index in measuring inflation. So, you may want to ask, why not a GPI (Government Price Index) to determine the cost of sustaining the obesity of the government machinery?

Then, we will know the blood suckers that serve the interests of the Puppet Masters.

So simple and yet we have the so-called experts, the economists and accountants to weave the fairy tales.

SUCKERS!

Addendum:

To excite your dull brains (if the hat fits you, otherwise ignore this observation).

Extract of a passage by Romanoff in extenso:

In Japan, the city of Nagasaki expelled all the “Jews” prior to World War II, and a few years later Japan expelled all Jews from the country. They were shipped to Shanghai, where the opium so-called “Jews” of Rothschild, Sassoon, Kadoorie et al owned and were largely in control of the city. Few people are aware that it was the so-called “Jews” who selected the targets for America’s atomic bombs, Bernard Baruch (“the most powerful man in America”) in particular had the final say. His first target was to be Kyoto because it was the cultural heart of Japan and its utter destruction by an atomic explosion would create “a wound that would never heal”. Kyoto was protected by Providence with a solid overcast that prevented the bombers from locating their target with sufficient accuracy so they proceeded to the secondary city of Hiroshima. It is almost a certainty that Nagasaki was selected by Baruch as the second target in retribution for the expulsion of the Jews some years earlier.

It isn’t well-known but after Mao’s victory over Chiang Kai-Shek’s Nationalists (who were supported by the so-called Jews and the Americans), his first act was to expel all the so-called Jews from China and expropriate all their opium-financed properties that included virtually all of Shanghai and the Mainland branches of the HSBC. History written by the so-called “Jews” simply states that the Jews “left quickly after the war”, without specifying exactly why they left. China knows, but the Western world doesn’t. Cuba expelled all the Jews after the revolution (yes, they really did), which is why that little country has been punished by “sanctions” of every description for 70 years now. Germany attempted the same thing, and for more or less the same reasons, Hitler’s ‘final solution’ being to send all the so-called Jews to Madagascar. We all know how badly he failed, and Germany today is a cowed nation, totally controlled by these same people, and still being punished mercilessly after 80 years.
