

Deep State Provoking War Worldwide

By Chuck Baldwin – Lew Rockwell, September , 2024

As I have said repeatedly, there is only one party in Washington, D.C., and it's the War Party. Some people call it the Uniparty. There are two issues that most D.C. Democrats and Republicans will always agree on: War and Israel, but then I repeat myself.

It was the United States, not Russia, that started the war in Ukraine back in 2014. It's not the intent of this column to go into the details of this issue, but notable freedomists such as Judge Andrew Napolitano, Col. Douglas Macgregor, Clayton Morris, Professor Jeffrey Sachs, former British diplomat Alastair Crooke, former Marine Corps Intelligence Officer (Major) and former Chief U.N. Weapons Inspector Scott Ritter, former CIA Analyst Larry Johnson and several others have detailed Washington's nefarious and deliberate provocations of Russia in Ukraine over the last ten years

Ukraine's Volodymyr Zelensky is nothing more than a U.S. puppet. He doesn't give a hoot in Hades about the Ukrainian people. They are being slaughtered en masse, but Zelensky keeps using his people as cannon fodder anyway. Ukraine is doomed.

If Putin wanted to, he could conquer Ukraine before the November elections.

The death toll among the Ukrainian population is staggering. Zelensky has already sent young people and prisoners to the battlefield, and now he wants to send old men. And Zelensky is not even president anymore. His term of office expired, and he refused to hold an election. Only a U.S. puppet president could get away with that.

The United States is giving him billions of dollars in CASH to keep its proxy war against Russia going. We also send billions in CASH to Israel's Benjamin Netanyahu. But D.C. is pushing hard to remove cash from the American people. Think about that.

Biden and Harris and the War Party in Congress will fight their proxy war to the last Ukrainian.

It is the Deep State in Washington, D.C., that is doing everything it can to provoke Russia into war with the West. And if they succeed, a nuclear war with Russia would be a war with the country that has the most nuclear warheads of any country in the world.

Then there is the world's most notable warmonger, Israel's Benjamin Netanyahu, who is committing ethnic cleansing and genocide in Gaza. Netanyahu is a top-tier Deep State asset. In addition to Gaza, Netanyahu is attacking the West Bank, Lebanon, Syria and Iran.

Along with Russia, the Deep State is doing everything it can to provoke Iran into a war with the West. But Iran's leaders are not stupid; neither are they impulsive. They know that time is on their side—not Israel's.

As I wrote last week in this column, if Israel continues its warmongering ways, its collapse might not be far away. Israel's economy is in tatters. Hundreds of thousands of Israelis marched in the streets last weekend demanding a ceasefire agreement. The largest labour union in Israel called for a national strike—which is almost unprecedented. Tourism (one of Israel's largest industries) is non-existent. Airlines refuse to fly into Israel. The flow of goods into Israel is only a shadow of what it was (except for the delivery of U.S. bombs and missiles every week). **Israelis are fleeing the country by the hundreds of thousands—maybe millions.**

Netanyahu believes that his only chance for his personal survival is to provoke Iran into all-out war and force the United States to come to Israel's defense. And he is the Deep State's main man in the Middle East, so it is doing all it can to help Netanyahu succeed.

Think about this, folks: If Netanyahu succeeds in provoking Iran into an all-out war, Israel would positively be destroyed, and if the United States came full force to Israel's defense, it would become a global war with both Russia and China. And that would mean a full-scale nuclear war, which would doubtless annihilate all of the countries involved—including America. It would also mean the almost total shutdown of the distribution of oil coming out of the Middle East. Think about what that would mean for the West.

All of this for the sake of an antichrist, apartheid state about the size of New Jersey.

But most evangelicals are actually salivating over the possibility of a global nuclear war over Israel, as they believe that will signal the "Rapture," and they will be taken to Heaven. Therefore, in truth, evangelicals are NOT supporting Israel; they are using Israel to take them to the "Rapture." Of course, there is no "Rapture," and these deluded evangelicals will endure the consequences of this global incineration along with everyone else.

But I digress.

So, we have the Deep State provoking potential nuclear war with Russia in Europe, provoking potential nuclear war with the world's major powers, including the U.S., Russia and China, in the Middle East, and now D.C. decides to provoke Venezuela into open hostilities.

While Joe Biden was sunbathing on the beach over the Labour Day weekend, D.C. seized Venezuela's equivalent of its Air Force One jetliner.

Jared Yanis posted a short video with the report of the U.S. seizing Venezuela's presidential jet. Venezuela's president Nicolas Maduro was not on the plane when it was seized.

Do you think it is a coincidence that we are hearing reports of violent Venezuelan gangs operating in the United States at the same time that D.C. decides to seize the Venezuelan version of Air Force One?

Biden's criminal policy to not just allow but also finance and facilitate tens of millions of illegals into the United States (using primarily an Israeli NGO called Hebrew Immigrant Aid Society that receives hundreds of millions of taxpayer dollars—in CASH) includes thousands of gang members from Venezuela. Many of these gang members were released from prison by Maduro and sent to Biden's open arms in America. These are ruthless, violent men who are now roaming the streets and bringing their violent criminal behaviour to U.S. cities.

I'm sure most people reading this column are already aware of the criminal activities of the Venezuelan gang Tren de Aragua in Denver, Colorado, and surrounding cities, such as Aurora.

Mayor Mike Coffman announced on Friday that the city is starting the process of clearing the apartment buildings where transnational armed gang Tren de Aragua has taken over.

In a statement posted to Facebook, Coffman shared “the Aurora City Attorney's Office is preparing court documents to request an emergency court order to clear the apartment buildings where Venezuelan gang activity has been occurring by declaring the properties a ‘Criminal Nuisance.’”

“This will require a municipal judge to issue the order with the goal of getting these properties back under the control of the property owners. In the meantime, the law enforcement task force set up to disrupt and arrest Venezuelan gang members in these buildings will continue its operation. I strongly believe that the best course of action is to shut these building[s] down and make sure that this never happens again,” concluded Coffman.

One has already been picked up. In an email to Fox News Digital, Aurora Police Department confirmed that Tren de Aragua leader “Cookie Monster” is currently in custody in relation to a shooting on July 28.

Fox 31 reports that the men seen in the video that has gone viral are armed members of the Tren de Aragua gang, according to Department of Homeland Security sources.

It took a courageous city councilwoman by the name of Danielle Jurinsky to blow the lid off by publicly reporting the criminal activity of the Venezuelan gang taking place in her city. The pro-illegal invasion governor of Colorado, Jared Polis, said the gang violence was “largely a feature of Danielle Jurinsky's imagination.”

As you know, Denver is a sanctuary city.

Former Border Patrol Agent in Charge J. J. Carrell has meticulously described the Venezuelan gang activity in Chicago, Illinois. We have also heard numerous reports of Venezuelan gang activity in New York City.

So, now that the Venezuelan gang Tren de Aragua has thousands of gang members living and operating in U.S. cities, the Deep State decides to seize the Venezuelan president's jet. Just a coincidence, right?

U.S. government officials said that seizing Venezuela's Air Force One was sending a signal that "no one is above the law."

What a crock! Washington, D.C., is loaded with lawbreakers, and I don't mean the ones walking the streets. I'm talking about the ones sitting in Congress and the White House. That's where the real criminal activity is taking place.

What the Deep State did was wave a bull fighter's red muleta in front of a bull. It is provoking the Venezuelan gang members in the U.S. into violence against the American people—as if they needed any provocation.

Once again, the Deep State is doing what it does best: provoking war all over the world and even within our own country.

And there is one more thing the Deep State does well, and that's selecting the president and most members of Congress.

You still don't know who they are?
