

21st Century Wars: Barbarity of Imperialist / Settlers Colonial Wars On Steroids

By Matthias Chang – Future Fast-Forward

Soldiers will have a limited role in all current and future imperial / settlers colonial wars. Weapons of mass destruction will be the norm.

Mass killings by massive bombings – nuclear weapons, bombs, missiles, drones, starvation, biological and chemical warfare etc. to wipe out a population (or a part thereof), and or an entire nation will be the first option on the table.

Genocidal rampage, as a military strategy will dominate all wars (current and future) to ensure victory. International laws and laws of war of the past have no relevance and will be disregarded. Submit and be subservient to the Rules-Based Order created by the Empire or else.....

There is **now a reversion** to the “old methods” of warfare, in sustaining the total control by a single global power – the Zionist Anglo-American World Order – **massive killings and destruction!**

This can be summed up as “State Terrorism on Steroids”

There are still debates as to what constitute genocide. To the victims and survivors of mass killings, the luxury of such a debate and or definition for massive killings is but an excuse to avoid the responsibility and is absolutely irrelevant. There can be no excuses under any circumstances.

I disassociate and condemn all academic hacks, analysts, politicians, NGOs, who indulge in this intellectual masturbation to brainwash and confuse the masses.

Contrary to popular beliefs, it is the State rather non-state actors that use terrorism (violent and non-violent) as a weapon of choice in the subjugation and control of any people, domestic or foreign.

The criminal perpetrators that control the Zionist Anglo-American World Order know that:

- The world is watching their acts and omissions and their moves are calculated for maximum effect and impact, no ambiguities;
- There is now a life and death struggle to control the resources of the global south. There can be no compromises;
- The “Hot” or “Kinetic” wars have taken too long to achieve a decisive outcome as evidenced in Afghanistan, Syria, Libya, Ukraine, Gaza, and Lebanon. Mass Killing by the latest technologies will solve the problems (whether proxy wars and now the global war, WWIV which has started);

- The wars have enriched the Military-Industrial-Financial-MSM Complex but the second part of the equation “Divide and Conquer” (conquest) have eluded the powers that be;
- The military power projection has failed to achieve the agenda – FEAR of the Empire has diminished, replaced by a stealth hint of optimism by a growing alternative. This cannot be tolerated by the Empire;
- There is still time (no matter how limited) to stop the ripple effect of the BRICS Summit at Kazan and to re-assert global dominance;
- It is inevitable that a genocidal war has to be unleashed for the Zionist Anglo-American hegemony to seize back the initiatives that was lost in the Ukraine and Gaza Wars;
- The financial and economic factors have indicated that the Empire and her vassals states do not have the resources and stamina to fight in a prolong war of attrition over three major war theatres;
- The chips in the global SUICIDE POKER GAME are all in, for the final card in this poker game. The final card in whatever combination to the cards on display on the table cannot provide the total annihilation of the players as what is at stake are only the chips (of whatever value) on the table. The West led by the Zionist Anglo-American Hegemon is a serial debtor and cannot pay of the debts;
- The Alternatives have undisclosed reserves and will not fold for want of chips;
- Before the last card is even drawn, there will be brutal murder mayhem at the global casino;
- Russia must be conquered, before the Empire can claim the ultimate prize – the entire Chinese mainland and the island of Taiwan; and
- **The Zionist Anglo-American Empire risked WWI, WWII and before WWII ended, WWIII (the Cold War) was declared, but the kinetic war was postponed because both sides were too exhausted.**

The Soviet Union collapsed in 1991, and Fukuyama’s book, “The End of History” in 1992 was premature and neither did Samuel Huntington’s “Clash of Civilisations” in 1996 provide the final chapter. It was never a war of cultures as postulated by the author. Samuel Huntington envisaged an epic contest between Christianity and Islam, the revival of the ultimate crusade – the West versus the East.

But it was not to be!

It was just a matter of raw hegemonic power of Empires throughout our history!

Religions were the ideological excuse to galvanise the masses to commit mass slaughter, after the demonization of the opposing religion in all history. Period!

Empires comes, Empire goes Jumping from the frying pan into the fire!

Conclusions

Why are you shocked by mass killings by nuclear weapons? Yet, you fear not and have been sensitised or clueless to tolerate the barbarity of:

- The millions slaughtered by biological warfare (the present Covid19 vaccine comes to mind). “Biological warfare involves the intentional release of living pathogens either in their naturally occurring form, for example the diseased corpses of animals, or in the form of specific human-modified organisms (in this context also known as ‘germ warfare’). This may include bacteria or Viruses, or any pathogen that may cause disease”

<https://www.sciencedirect.com/topics/medicine-and-dentistry/biological-warfare>

- The million slaughtered by chemical warfare. “....there has been several international agreements attempting to limit and ultimately abolish chemical warfare. The Brussels Declaration in 1874 (un-ratified) forbade parties ‘to employ poison or poisoned arms.’ The Hague Conference signed in 1899 (entered into force in 1900 and updated in 1907) forbade the “use of projectiles the object of which is the diffusion of asphyxiating or deleterious gases.” The Geneva Protocol signed in 1925 (entered into force in 1928) forbade “the use in war of asphyxiating, poisonous or other gases, and of all analogous liquids, materials or devices.” Most recently the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and their Destruction of 1993 (entered into force in 1997) is administered by the Organisation for the Prohibition of Chemical Weapons (OPCW). This Chemical Weapons Convention has been ratified by all member states of the United Nations, with certain exceptions...”

- Case Study:

The U.S. Military and the Herbicide Program in Vietnam

From 1962 to 1971, the U.S. Air Force sprayed nearly 19 million gallons of herbicides in Vietnam, of which at least 11 million gallons was Agent Orange, in a military project called Operation Ranch Hand. An additional quantity (1.6 million gallons has been documented) of herbicides was applied to base perimeters, roadways, and communication lines by helicopter and surface sprayings from riverboats, trucks, or backpacks. Herbicide operations in Vietnam had two primary military objectives: (1) defoliation of trees and plants to improve observation, and (2) destruction of enemy crops.

<https://www.ncbi.nlm.nih.gov/books/NBK236347/>

“The Vietnam Red Cross estimates that three million Vietnamese have been affected by dioxin, including at least 150,000 children born after the war with serious birth defects,” said Wells-Dang, referring to the toxic chemical in Agent Orange.

There is now a Final Count down. I have to accept that only a nuclear war will stop the madness of Empires.

It is for the future generations, and hopefully, I will be still here to be a witness!
