

# Three Nationalist Presidents Will Rule The World **In Partnership**

By Matthias Chang – Future Fast-Forward

## Reminder

Because most Malaysian politicians are numbskulls and intellectually lazy, I would suggest that they go to my website, retrieve and study every word in my articles, namely:

- The Triangulation of Geopolitical Power ...
- If Truth Be Told ...
- It Takes Two To Dance ...
- Skating On Thin ice ...

**If the hat fits them, put it on!**

**It requires discipline, honesty, objectivity and intense dedication to engage in Intelligence Analysis.**

99.5% of Malaysian politicians do not have such qualities but grandstand and misrepresent that they must be considered as such by virtue that they are politicians with some “pseudo power”. They are mere puppets!

## National Treasures

The three Presidents, national treasures to their countries, have similar stature and by their indomitable spirit, survived the cauldron of fire to lead their respective countries. Hence my article, referred above, “The Triangulation of Geopolitical Power...”

The three statesmen, without exception understood the immense significance of the concept and symbolism of **WATER**, the most powerful source of power and energy

However, in this article I am singling out President Donald Trump because it was beyond all expectations by so many, that President Trump would be intensely tested, survived and be one of the three-sides / pillars of the Global Triangle and **in partnership**, usher a new era of peace and prosperity. I had forecasted in 2022 in my numerous articles and messages that Trump would win the US presidential election in 2024.

**Caveat: If the political bitches and cowards of the Deep State in the USA prevent the inauguration of Trump in January, 2025 (by whatever means) as the 47<sup>th</sup> President, peace will elude humanity and global conflagration will ensue. Russia and China must together, avenge the murder of Trump, even by a nuclear war to bury the Deep State. The remaining two cannot rule without the third, the pivotal partnership in geopolitical affairs.**

Let's not be hypocrites!

In war, any wars, millions of innocents would be killed. This is the horrendous price throughout history, so we must not be squeamish and accept this brutal reality. The bitch, Madeleine Albright even said that 500,000 children slaughtered was the price for **unleashing an imperialist war** in Iraq. She was a serial war criminal.

However, the death of Innocents, in the millions, is the **inevitable price** for genuine peace for humanity. The Soviet Union in WWII suffered at least 27 million deaths, the majority were civilians.

The USA must pay the self-inflicted price for allowing and or failing to prevent the murder of Trump (if it happens).

**F#@K You, if you protest too much, hypocrites!**

**Millions of Innocents died in WWI, WWII, WWIII and now WW IV but the world did nothing, in spite of repeated warnings! So, don't cry crocodile tears.**

### **Back To The Three Presidents**

The three presidents made huge personal sacrifices in going against the Deep State in their respective countries. A minority of dedicated followers and genuine nationalists understood what were at stake, when the outcomes were not even assured. **They persisted. This is genuine patriotism.**

Let me share what I had learned over three decades, as a disciple of Wushu / Qi Gong and why my belief that the three presidents consciously or sub-consciously shared my convictions. What do I mean?

#### **Understanding Water**

***Nothing in the world is as soft as water.  
Yet nothing is superior to it in overcoming the hard.  
The soft overcomes the hard,  
And the gentle overcomes the powerful.  
Everybody knows it,  
But few can put into practice.***

Lao Tse (Shuo Yuan – 1<sup>st</sup> century)

***Pure is he who does not seek power and wealth.  
Purer is he who is associated with power and wealth but uncorrupted.  
High is he who does not know how to play tricks.  
Higher is he who understands tricks but refuses to use them.***

Vegetable Roots (16<sup>th</sup> Century)

***Move the deceitful with sincerity; the ruthless with gentleness;  
the wicked and crooked with pride and a sense of honour.***

Vegetable Roots (16<sup>th</sup> Century)

***Learn the Truth in the morning,  
And die content in the evening.***

Confucius (551-479 BC)

***Without intelligence, a man can live up to a hundred years  
but remains a child.***

***With intelligence, a child can do better  
than a man who has lived a hundred years.***

Daoyuan (11<sup>th</sup> Century)

You may, if you have the time, read the writings and the wisdom revealed by Baltasar Gracian who lived in Spain in the 17<sup>th</sup> century and was a keen observer of many in positions of power. One of the lessons that I have treasured, while working close to “power” as a political secretary to a former prime minister, is that **“one must be well informed, for the discreet arm themselves with a store of courtly, tasteful learning; not vulgar gossip, but a practical knowledge of current affairs”**.

The vulgar, stupid political analysts and armchair critics have the audacity to criticise Donald Trump when he has been a successful entrepreneur and a billionaire and **dared to** take on the Deep State, while the cowards opine in comfort surrounded by fake news and indulging in pleasure with sex predators.

It takes two to tango and a world war, albeit a nuclear war, can only be avoided if and when Trumps ascends to the presidency of the USA. However, should Biden, pressurised by the Deep State creates the circumstances and provokes Russia or China to retaliate, there is but one answer – Russia and China must intervene to ensure Biden etc. are removed from power and a global partnership established for global peace.

Russia and China defeated Nazi Germany and Imperial Japan respectively in WWII in collaboration with the US, notwithstanding the evil conniving and schemes of the British Deep State. The Cold War (WWIII) was started by the blood thirsty Brits, when in **March 5, 1946**, at Westminster College in Fulton, Churchill uttered the infamous words **“From Stettin in the Baltic, to Trieste in the Adriatic, an iron curtain descended across the continent,”** which framed the geo-political landscape for the next 50 years.

This must not be allowed. There cannot be another “Cold War” and what little is left of UK must be just an island in Europe and whatever her dreams of resurrecting a moribund empire must remain buried in the memory hole.
