

In War, Any Wars, The Greatest Threats Are 5th Columns, Posing As Allies. The “Turkish Caliphate” Showed Its Treachery As Arselickers of The West

By Matthias Chang – Future Fast-Forward

BRICS, especially, its components, Russia and China, must now consider Turkey, the hidden and dangerous ally of the US, Israel and Europe / NATO. Turkey has not only betrayed BRICS but also Islam as Turkey always wanted to revive and establish a Caliphate in association with Israel to dominate the Middle East.

The Erdogan's version of Islam is a betrayal of the Holy Quran and her deceptive stance was couched in an Islamic narrative to brainwash and mislead the entire UMMAH. Even the Sunni Gulf States, as slavish as they were to the West, did not have the protection of the nuclear armed NATO and the USA.

By all means, disagree with vehemence, but have the courage of your Islamic convictions, to explain why Turkey is the only “Muslim” country within the umbrella of NATO. Do not be emotional, but think hard and long, how this betrayal has been perpetrated.

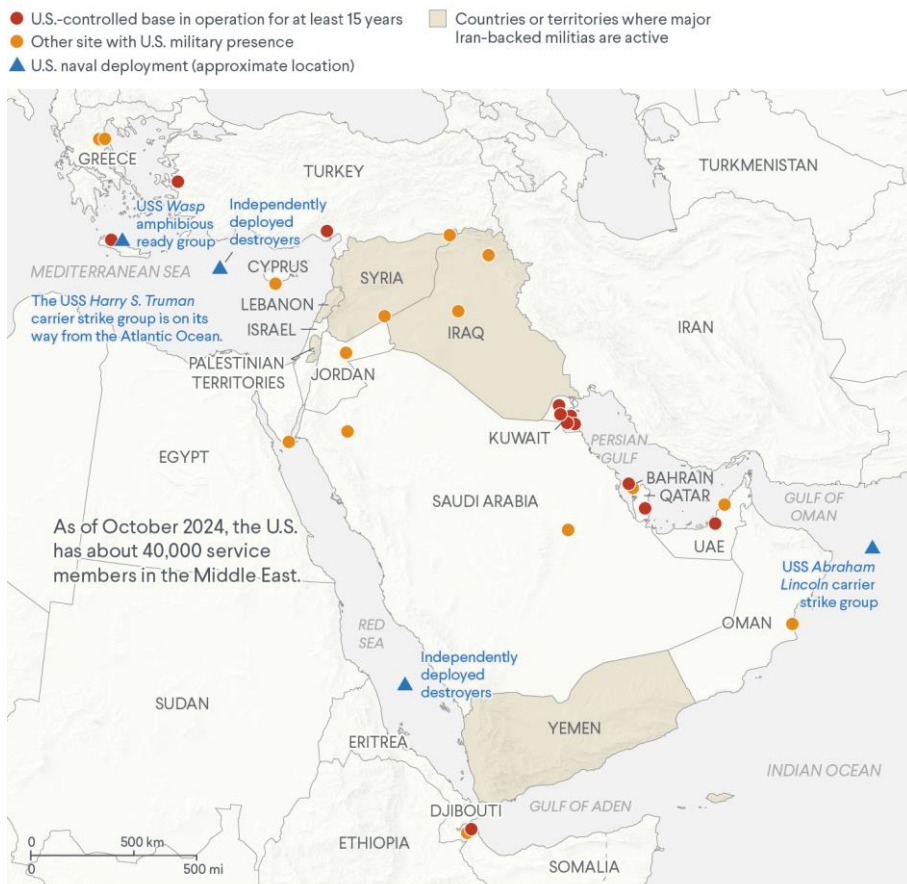

Malaysia is now in grave DANGER, as it has allied itself with Erdogan and Turkey, seduced by the false Islamic narrative.

Erdogan and the Turkish military establishment are the daggers, willing weapons stabbing at the hearts of the heroic struggles of the Palestinians. It took so long to uncover and expose this Truth because Erdogan was very cunning in lulling the UMMAH to believe that as a MEMBER of NATO (its strongest military force) to guard the southern flanks of NATO, he would still fight for Islam.

The so-called “Unexpected War” in Northern Syria was long in the planning and the Al Qaeda and ISIS jihadis were trained, armed and financed by Turkey. When Hezbollah soldiers were fighting Zionist Israel, Turkey could not intervene as Syria was assisting Iran and the Resistance in Gaza. The moment when the “manufactured ceasefire” in Lebanon was implemented, after the huge defeat of Israel in Northern Israel, Erdogan made his move to divide Syria, oust Bashar al-Assad, assert control over Syria and ultimately to confront Iran for Israel and the NATO.

The war against Iran cannot be initiated, as long as the Syrian buffer remains and Iraq remains a military occupied vassal state of the US. The largest US Embassy in the entire Middle East and the world is in the “Green Zone” in Baghdad, the capital of Iraq. See the map of bases below. Israel can only start a war against Iran with the support of the US and NATO when Syria is divided, weakened and or subdued.

U.S. Military Presence in the Middle East as of October 1, 2024

Note: Locations of U.S. bases and sites are based on unclassified sources and do not include all bases and sites in the region.

COUNCIL ON
FOREIGN
RELATIONS

By all means demonised Matthias Chang, **but Malaysians have better pay attention to the following observations by the retired and reputable MI6 officer and diplomat, Alastair Crooke who observed,**

“More recently, the Atlantic Council has drawn on the Kennan doctrine to suggest that his broad outline should serve as the basis of U.S. policy towards Iran. “The threat that Iran poses to the U.S. resembles the one faced from the Soviet Union after World War II. In this regard, the policy that George Kennan outlined for dealing with the Soviet Union has some applications for Iran”, the Atlantic report states.

“American neocons and western intelligence have not listened to any other view, because they were (and largely still are) convinced by Kennan’s formulation. The American foreign policy class simply could not accept the possibility that such a core thesis was wrong. The entire approach reflected more a deep-seated culture, rather than any rational analysis – even when visible facts on the ground pointed them to a different reality.

“Of course, there are other reasons beyond the permanent security cadre’s wish to Gulliverise Trump into continuing the war in Ukraine, in order to taint him with a war that he promised immediately to end.

“Particularly the British, and others in Europe, want the war to continue, because they are on the financial hook from their holdings of some \$20 billion Ukrainian bonds which are in a ‘default-like status’, or from their guarantees to the IMF for loans to Ukraine. Europe simply cannot afford the costs of a full default. Neither can Europe afford to pick up the burden, were the Trump Administration to walk away from supporting Ukraine financially. So they collude with the U.S. interagency structure to make the continuation of the war proofed against a Trump policy reversal: Europe for financial motives and the Deep State because it wants to disrupt Trump, and his domestic agenda.

“The other wing to the ‘global war’ reflects a mirror paradox: That is, ‘Israel is strong and Iran is weak’. The central point is not only its cultural underpinning, but that the entire Israeli and U.S. apparatus is party to the narrative that Iran is a weak and technically backward country.

The additional observations by Alastair Crook should awaken Malaysians that following Erdogan blindly is a grave mistake and geopolitical suicide.

“And Iran seems to have solved the problems associated with an adversary enjoying air dominance. Iran has created a deterrence fashioned from the evolution of cheap swarms drones matched up with Ballistic missiles carrying precision hypersonic warheads. It puts \$1,000 drones and cheap, precision missiles up and against hugely expensive piloted airframes – An inversion of warfare that has been twenty years in the making.

“The Israeli war however, is metamorphosing in other ways. The war in Gaza and Lebanon has strained Israeli manpower; the IDF have sustained heavy losses; its troops are exhausted; and the reservists are losing commitment to Israel’s wars, and are failing to show up for duty. Israel has reached the limits of its capacity to put boots on the ground (short of conscripting the Orthodox Haredi Yeshiva students – an act that could bring down the Coalition).

“In short, the Israeli army’s troop levels have fallen below present command ordered military commitments. The economy is imploding and internal divisions are raw and bruising. This is especially so due to the inequity of secular Israelis dying, whilst others stay exempt from military service – a destiny reserved for some but not others.”

Yet, Erdogan wants to divide Syria and create a Caliphate to fulfil his own ambition to be *the* modern day Caliph. Won’t happen!!! Period!

Erdogan is backing the wrong horse as UK and Europe is financially ruined and incapable of sustaining a long protracted war with Iran. And when Ukraine officially defaults on her bonds and the guarantees to the IMF loans, any country associated with Turkey’s disastrous schemes would be tainted. This is a given.

Need I say more????

You need not believe me and since Malaysians continue to heed only the Westerners’ take on events unfolding, I shall quote in extenso the observations of another reputable geopolitical analyst, Mike Whitney,

***“Syria is an indispensable part of Israel’s ambitious plan to remake the Middle East. The country sits at the heart of the region and serves as both a critical land-bridge for the transport of weaponry and foot-soldiers from Iran to its allies, as well as the geopolitical center of the armed resistance to Israeli expansion. In order to truly dominate the region, Israel must topple the government in Damascus and install a puppet regime similar to Jordan and Egypt.*”**

“Now that Washington has been persuaded to ‘unconditionally’ support Israel’s interests (over its own), there is no better time to affect the changes that are most likely to achieve Tel Aviv’s overarching plan. Prime Minister Benjamin Netanyahu is thus prepared to launch a ground war from the South to create a two-front war that will split Syrian forces in half greatly improving his prospects for success. At the same time, US-backed jihadis will continue their rampage in the North gradually eroding Syria’s tattered defenses while further securing Syria’s industrial capital, Aleppo.

“If Damascus falls and Assad is removed from power, Israel’s dream of regional hegemony will be within reach and likely attainable if—as we assume—President Trump has committed to initiating a war with Iran as part of a quid pro quo with powerful Lobbyists who shoehorned back him into the White House. But, first, Syria must be pacified, its army defeated, and its present ruler ousted. That is the only way that Iran can be effectively cut off from its allies and partners and thus prepared for the dreadful onslaught ahead.”

I trust and pray that the “Erdogan Faction” in Malaysia heed the Turkish Think Tank, SETA’s published research paper in October and quoted extensively by Mike Whitney,

“Out of the 28 factions [in the Turkish mercenary force], 21 were previously supported by the United States, three of them via the Pentagon’s program to combat DAESH. Eighteen of these factions were supplied by the CIA via the MOM Operations Room in Turkey, a joint intelligence operation room of the ‘Friends of Syria’ to support the armed opposition. Fourteen factions of the 28 were also recipients of the U.S.-supplied TOW anti-tank guided missiles.”

Max Blumenthal, The Grayzone stated,

This band of hacks (The media) is now fully exposed for foisting a bloody scam on the public, marketing some of the most brutal fanatics on the planet as revolutionaries and “moderate rebels” while they destabilized an entire region. Like the extremists they once promoted, most have somehow managed to evade accountability and remain employed. The US has backed 21 of the 28 ‘crazy’ militias leading Turkey’s brutal invasion of northern Syria..”

Mike Whitney then concludes with this frightening Truth,

“In other words, virtually the entire apparatus of anti-Assad insurgents armed and equipped under the Obama administration has been repurposed by the Turkish military to serve as the spearhead of its brutal invasion of northern Syria. The leader of this force is Salim Idriss, now the “Defense Minister” of Syria’s Turkish-backed “interim government.” He’s the same figure who hosted John McCain when the late senator made his infamous 2013 incursion into Syria.....”

The Intelligence Apparatus of Malaysia must be alert and carry out its onerous duties to protect the country and the Constitution. I am fortunate to have read the quoted analyses and I am sharing the same in the hope that our patriots will wake up and sound the alarm of this danger.

I have done my part.

If you do not want to listen to my warnings, have the humility to read and learn from the objective analyses of world renowned analysts.

You, a Malaysian the patriot must do likewise.
