

Interim **Audit Report** & Statement on the Global Union (SOTGU) – **Devastating** **Geopolitical And Military Findings** By Future Fast-Forward

The Rationale

Future Fast-Forward was compelled by the **Desperate Cries** and the **Ocean of Tears** of the victims of Genocide (specifically the Palestinian victims) to embark on this unprecedented Interim Audit and to issue a Statement of Condemnation against **the Zionist Anglo-American Empire Inc.**

Final Audit - 2028

Following the widespread fraud, disinformation and lies by the parent company and its subsidiaries (Group Accounts), we are prevented from issuing Annual Audits but we will endeavour to issue a Final Audit by 2028 as we estimate that by that period we shall have obtained sufficient data, confidential reports from internal whistle-blowers and written admissions by the Directors cum management of the crimes committed, and when cover-ups, denials and falsehoods cannot be swept under the carpet.

Summary of the Interim Audit

- The Zionist Anglo-America Empire Inc. (ZAE Inc.) is the **most corrupt geopolitical entity** in history – second to none;
- The business of ZAE Inc. cannot be sustained and will be liquidated in due course – in short, on the **path of financial suicide** by the actions and omissions of the entire management (top to bottom);
- In all honesty, we are of the considered view and opinion that a change of management in January, 2025 will not change the trajectory of the business because the **incurable financial disease** has overwhelmed and spread to each and very vital organ. Transplant is not an option, but will in fact hasten the death of ZAE Inc. ;
- The financial disease was first discovered more than a decade ago and further aggravated in 2014, but the then auditors gave a ‘clean bill of health” notwithstanding that **ZAE Inc.’s core business (the Pentagon’s War Business) was not even audited for seven years**. There were several changes of management, but the status quo remained. The addiction to global power was incurable!
- Extravagance and waste was tolerated in the hundreds of \$ Billions, when **ZAE Inc. acquired the Ukrainian subsidiary** without any due diligence, as there were the so-called “irrebuttable assurances” that the combined might of the ZAE Inc. and its

European subsidiaries was more than sufficient to acquire and sustain the **hostile** takeover. No one would dare question the said acquisition. The geopolitical chorus led by the John McCain, sang the song, **"Russia is a 'gas station masquerading as a country."**

- The repeated refrain was that ZAE Inc. is the biggest global enterprise, and often referred to as **the "Exceptional Enterprise"** and any audit was superfluous. Such was the arrogance!

Statement Of The Global Union (SOTGU)

The attention span of Malaysians is rather short and they cannot read with the required focus any analysis more than three A4 pages of text, when written in Queen's (now King's) English.

I therefore seek the indulgence of readers for the blunt and direct language and not the eloquent "Royal Lingo" as Barristers would prefer.

The geopolitical contention between ZAE Inc. and its subsidiaries with the BRICS Coalition is now at a **strategic stalemate**. As stated in our previous analysis, there must be a Triangulation of Global Power, the agreed co-operation and sharing by the ZAE Inc., Russia and China for global peace. Period! Realistically, it would not be allowed by the Deep State as their demand is for one supreme Hegemon.

Why fight and contend when the "global cake" is so big that any single contender aspiring to be the sole and undisputed global power would choke to death with just a mouthful of the proverbial global cake. The Ukrainian bun is already causing so much indigestion, and yet geopolitical arseholes want a feast to consume the global cake!

F#@K Them!!!

We hate to say this. In wars, there will always be "collateral damage" but humanity never learned from history. There is *the* genocide in Gaza. But, the global common did not care enough to make any difference. The ocean of tears of the Innocents, brutally slaughtered is now overtaken by the distraction of the Syrian coup, the treasonous conduct of Erdogan and his dream of a Turkish Caliphate and the bloody squabble over the Ukrainian subsidiary.

Let there be a nuclear war, even as the Russian Oreshnik Intermediate Missile devastation has replaced the need for a nuclear ICBM.

So, why not?

There will be survivors, for sure! Back to the "stone age" and wars will be fought with sticks and stones as before. So what?

There was WWI, WWII, WIII (the Cold War), Hiroshima and Nagasaki, the carpet bombings of the Vietnam War etc. of the 20th century. Who cared?

There was even the cliché that we need a war to stop all wars, the assertion was plagiarised by ZAE Inc. from the book by HG Wells in 1914, "The War to end all Wars", a term for the First World War of 1914–1918.

At the present state of play of the global Chess Board, **there are no winners**.

The contenders are fighting at the edge of the precipice as illustrated in the graph below:

We are at the edge, then the plunge to oblivion!

But, we can already see the losers:

- Zionist Israel and Netanyahu;
- The Islamic UMMAH and the OIC;
- Turkey and tyrant Erdogan's dreams of a Caliphate;
- The geopolitical myths – e.g. Israel controls the USA. Biggest BS propaganda. Israel cannot conduct any wars without the consent of the USA. Israel has nuclear weapons, another BS! Maybe I will write another article to explain this propaganda;
- Ukraine and Zelensky;
- The global bankers and multi-national corporations who have invested in the \$Trillions in fomenting the recent wars in Ukraine, Palestine, Lebanon, Syria and soon Iran; and
- The global MSM army - the liars, fake news purveyors and journalists.

The crisis actors are creating narratives to camouflage their losses and defeats – the shifting of war theatres to draw your attention away from the war crimes, crimes of genocide etc. committed in broad daylight.

Focus on the genocide. The genocide of the Palestinians!

Do not speculate on short term outcomes. The war in Syria is a short term outcome and will not decide or determine the Final Outcome. It is a distraction.

Focus on how best, we can accelerate the death and liquidation of ZAE Empire Inc.!
