

# Whisper's 40<sup>th</sup> Meditative Insight To The World

Shared by Matthias Chang

I often wonder why Whisper's insights are so varied, seemingly without patterns or flows and so random. But, not all her insights can be shared. Then, I realised that in the totality of Whisper's Insights, there was the consistency in what was needed for me to address, as well as the people whom I am directed to share with, without persuading and or convincing the recipients, the fundamental truths. This, they must discover for themselves. There is no other way.

"Matthias, the force or spirit that moves the cosmos is the same force and spirit the controls the tiniest particle or wave that sustains life."

"Evil force is no different!"

**"Truth is surrounded by half-truths, lies, distraction and the blind adherence to negative habits.** Yet, the fundamental Truth is right before your eyes, but people chose to ignore Truth because it is difficult to accept, and in most time, excused as an inconvenience. Over time, the dismissal of the inconvenient Truth gathers momentum and builds up into a crescendo that over-whelms your / their being, and the left-overs are the disappointments, depression, stress, rejections and the ultimate arrogant question posed,

**'Why, must I suffer so much?'**

**"By not convincing or persuading people to accept my insights, you received HIS saving grace that protects you from being disappointed and losing your Faith in HIM."**

"Let me share with you a practical insight. Know the motivation why anyone would utilise all of his / her resources to ascend to the top status of even an insignificant post or an organisation. **It is the mirror to his / her soul.** The ascent to the top status of a major organisation starts from this first step. **Is there consistency? Are there any deviations? Is the motivation driven by positive or negative forces?"**

"Strengthening your faith in HIM starts with the disciplined effort to erase and to resolve the **small flaws** that you have exhibited. The source for all flaws is the **EGO!** Ponder and meditate on this fundamental truth."

"There are billions, in fact trillions of stars etc. and the scientists have the audacity to assert that they are so knowledgeable and demand from people that what they have written and postulated must be accepted as the Gospel Truth. The so-called scientists can never accept that they are wrong as to the creation of all things, that their speculations, conveniently termed as "hypotheses", are theories couched in mathematical theorems etc. They cannot even answer as to

why there are billions of plants, so varied and unique and what have been studied, numbered only in the thousands.”

“Instead of admitting that they don’t know, they assert that in time, everything will be known but in the meantime, their speculation is Law and must be accepted.”

“What time-period?”

“Cosmic time is infinite! HIS time is not our understanding of time.”

“What is space-time? And the explanations are so convoluted and obscure that the common people dare not venture to explain because of the irrational fear that they we would be ostracised and defined as idiotic. **Why even ask the question, when HIS time is not our TIME and categorised as:**

- Space time compression;
- Space time and velocity;
- Space time continuum;
- Space time convergence;
- Space time intervals;
- Space time prisms; and
- Space time trade-offs!”

**“Just say, ‘My Time is in YOUR hands’ and ‘I trust HIM at all Times’.**

I came to the conclusion that it is the clichés on time that have confused me, when all I needed was the abovementioned insights that I received in the early mornings between 3 am and 4 am (24/7) and reinforced by my perambulations at home and in my office.

I am at and in PEACE!
