

The Manipulation, Misrepresentation & Weaponisation Of Geography For Geopolitical Agendas By The Western Powers.

By Matthias Chang – Future Fast-Forward

Preamble

Using only the evidence from the Global Deep State, I will prove to you, how you have been brainwashed from the time you were in studying in school till now, and still absolutely unaware that you have been brainwashed.

By all means prove me wrong if you can, but you will fail. Once you have studied the evidence and the history of world events unfolding you will be able to join the dots. I can assure you that you will be cursing and swearing that you have been so easily conned and brainwashed for decades. Who are you going to blame?

A Short Story

A young boy told his father that his teacher and headmaster have threatened to dismiss him from school for questioning the teachers that were teaching him History and Geography. He had to accept what he was taught as the gospel truth or be terminated from attending classes.

The father listened carefully to the young boy's explanations and replied: *"Such teachers are stupid and ignorant. You need to sit for exams, have good grades, go on to the University, accept more falsehoods, to succeed in life. This is the conventional wisdom. But, you need to keep the truth to yourself for now, just to survive. You are absolutely right in your explanations, but, you have to ignore the idiotic teachers as the world is not ready to accept the Truth."*

Joining The Dots

You are going to be pissed off by me.

Why?

You are so **confused and brainwashed** that you cannot even tell the West from the East and this is in spite of all your qualifications from prestigious colleges, universities and appointments!

(i) One Geographical Illustration from Wikipedia

Greenwich meridian, an imaginary line, last established in 1851, was used to indicate **0° longitude**. It passes through Greenwich, a borough of London, and terminates at the North and South poles. Because it indicates 0° longitude, it was

also known as the prime meridian. The Greenwich meridian passes through eight countries in Europe and Africa from north to south:

1. United Kingdom (specifically, only England)
2. France
3. Spain
4. Algeria
5. Mali
6. Burkina Faso
7. Togo
8. Ghana

It also passes through Antarctica, only touching Queen Maud Land, a territorial claim of Norway, on its way from the North Pole to the South Pole.

It crosses the maritime exclusive economic zones of:

1. Greenland (Denmark)
2. Norway (via proximity to Svalbard, Jan Mayen Island, and the Norwegian mainland in the North Atlantic, and Bouvet Island in the South Atlantic)

MAP 1

Without looking at MAP 1, you have been **taught and accept as Gospel truth** that the right side of the 0 Longitude (the Greenwich Meridian, the straight line in the Map) **is the West**.

Europe is referred to as **the “West”**.

Please explain why after WWII, we are taught that there is a Western Europe and an Eastern Europe to be divided and allocated to the control of the victorious powers. But, the entire European continent is referred as the “West”. Therefore,

Eastern Europe is not a geographical demarcation, but a **geopolitical** definition for the distribution and control of the **geographical spoils of war**.

We are further confused by the Zionist Anglo-American Empire that the **entire North and South America continent must be referred as the “Western Hemisphere”** and no other country or powers can intrude into that geopolitical space!

Geopolitically speaking, can both sides of the Longitude (The Greenwich Meridian) be referred to as the “West”? **The geopolitical demarcations are inconsistent to and contrary to the geographical divide as shown in MAP 1.**

More confusion – Asia is referred as an Eastern Continent, but we have a “Middle East”, south of the Mediterranean Sea. Israel is accepted as a European country (part of the “West”) but, Turkey is not accepted as such, notwithstanding that she is a member of **NATO, the Western North Atlantic Treaty Organisation!**

Is Spain and Portugal in the “West” or in the “East” as they are also situated on the left side of the Longitude, the Greenwich Meridian – see MAP 1.

(ii) Another Geographical Illustration of the Confusion.

Our country is divided into **“West Malaysia”** while Sarawak and Sabah is referred as **“East Malaysia”**

But, the Dutch and the British, before Malaya and Indonesia were created, named the entire region as the **“Dutch / British East Indies” controlled by the Dutch / British East India Company**. But the Caribbean countries (nine in total and though on the left side of the Greenwich Meridian - 0 Longitude) are collectively called the **“West Indies”**.

(iii) Third Geographical Illustration – MAP 2

The British Empire referred to China as the “**Middle Kingdom**” - **MAP 2**. Common sense demands that countries on the left of China ought to be referred to as “**East**”, and the countries to the right as “**West**”.

Then we have to go back to the drawing board and re-designate the region, we now call the “**Middle East**” by some other name as it is not in the “middle” of any geographical area. Adding further confusion, **Australia** is considered one of the members of “**Western Powers**” but, Australia demands that she be accepted as part of Asia.

(IV) Fourth Geographical Illustration

The waters separating USA from the continent of South America is geographically called the “**Gulf of Mexico**” but President Trump demands that it should be called the “**Gulf of America**”.

I do not wish to belabour the point in issue with more illustrations, suffice to say that the names and directions of any geographical area are purely at the absolute discretion of the imperial / hegemonic powers and not the geographical realities.

Thus, the designations are more geopolitical and hegemonic references that enable the Empires to assert power at the material time or era.

Israel does not even have any national boundaries but insists that they are entitled to a geographical area defined as “from the river to the sea.” It is the only country and an aspiring empire to claim an area without limits.

A Mischievous Teaser

In the event that Sarawak and or Sabah secede and join Indonesia, would our country be called “Malaysia” or revert to her old name “Malaya” and thereafter reclaim Singapore as an integral part of Malaya, when it was part the of the Johor Sultanate?

Singapore was detached from Johor by the British to establish the coveted “**Straits Settlements**” and evolved presently into the “**Island Aircraft Carrier**”, the military eyes and ears of the Zionist Anglo-American Empire!

What fate awaits our country?
