

# President Donald Trump – The Strategic Leader Par Excellence In Geopolitics. Final Warning To Malaysia.

By Matthias Chang – Future Fast-Forward

## Geopolitics

**Geography and Politics!**

**Strategic landmass and Imperial control!**

**Understand global Real Estate and transactional values, you will begin to learn geopolitics.**

## Final Warnings To Malaysians

**Time is of the essence!**

Wake up and unite or we will be so fucked up that we will lose our beloved country.

**Read every PDF article that I have written in 2024 and 2025 (at the minimum), print them out in colour, study and store them as a record / evidence. Go to my website: [www.futurefastforward.com](http://www.futurefastforward.com) (free access) and do it as soon as possible as I may decide to shut down the website as I have done enough to warn Malaysians!**

Read every sentence with a fine toothcomb, and keep asking – “Why? Why? Why?”

Matthias has warned, even before the last General Elections, that Malaysia is **FRACTURED** and if and when we are not careful, our country will be subjugated and conquered again! Period!

## Maps of the World – From Ancient Times Till Now

My recent articles (especially those written in 2024 to 2025) referred to **maps**, nations, flags, races etc. and you are required to examine **as many maps** as you can lay your hands on, to appreciate why President Trump is a genius (regardless whether you agree or disagree with his policies) when pushing for MAGA (Make America Great Again) as an **unprecedented clarion call to unite his people**.

It will impact on all of us!

Only idiots and buffoons do not understand and appreciate the strategic significance of MAGA! Look at the **Maps** below.

**MAP 1** - Freaking arseholes – this is the freaking map you are familiar with. You are fucked up because you cannot see and did not see the world map from any other perspective!

Contrast with what Matthias Chang sees in **Map 2** besides the above **Map 1**.

**MAP 2** Arseholes – can you not see that Russia is just next door to USA and China is closer to USA from this perspective than in Map 1 above?

Now, you can finally understand geopolitics by just studying world maps from a different perspective, because after all the years of brainwashing, you analyse from the perspective of **MAP 1** and **not MAP 2** and failed to make the comparative analysis. You have been fucked up big time!

**Don't get angry with me. Get angry with your own screwed up eyes and mind!**

**Boundaries were and are made by imperial powers** throughout the ages. Some boundaries are even demarcated by straight lines as opposed to following the "natural boundaries" demarcated by rivers and mountains etc.

Now, do yourself a big favour and ponder over the Bullet-Points below:

- Who created Panama? **The United States administration of President Theodore Roosevelt created Panama in 1903.**
- Who invaded Panama? **The United States under President George H.W. Bush, invaded Panama in 1989 during Operation Just Cause.** The invasion was led by the U.S. military.
- What was the basis for the invasion? The basis under international law for the 1989 invasion of Panama as **cited by the Department of State** was the United Nations (UN) Charter, the Organization of American States (OAS) Charter, and the Panama Canal Treaty. **A report on the invasion submitted by President Bush to the Congress further justified the U.S. action as a lawful exercise of presidential authority under the U.S. Constitution.**

**So arseholes, President Trump is merely following the precedent set by the Empire under President H.W. Bush. The world kept silent, including Malaysia! There is an idiom / cliché "two wrongs don't make a right" but who got the guts to care?**

- Why Canada can be the 51<sup>st</sup> state of the USA. Canada cannot survive with USA!
- Why does Trump want Greenland and could he get it? Reuters reported that the **U.S. President-elect Donald Trump says he wants to make Greenland a part of the United States** and does not rule out using military or economic power to get Denmark to hand it over. Greater control over Greenland could be useful to the United States for its strategic location and its resources. **It lies along the shortest route from Europe to North America, vital for the U.S. ballistic missile warning system.**
- Two global powers are eyeing the geopolitical real estate in anticipation of a global war – Russia and USA.
- **There is already a US military base in Greenland** - Thule Air Base, a United States Space Force base located on the northwest coast of Greenland and Denmark has no balls to oppose the US.
- The island, whose **capital Nuuk is closer to New York than the Danish capital Copenhagen**, boasts mineral, oil and natural gas wealth, but development has been slow.

### Countries contend control of the Arctic Ocean

U.S. President-elect Donald Trump said on Tuesday he wants to make mineral-rich, strategically placed Greenland a part of the United States.

By Alessandro Parodi and Johan Ahlander

So, we should get real for once and understand the fact that any Hegemon can do as it pleases, especially in the geopolitical real estate protected by the military power of the US military. Denmark is a member of NATO and expects the US to provide protection. Denmark cannot “have the cake and eat it” but to ultimately obey!

**This is geopolitical Real Estate negotiations at the highest and most competitive level.**

### Why Matthias Chang Is Afraid for Malaysia

I have stated that before 1957, there was no Malaya!

I have stated that before 1963, there was no Malaysia?

The criminal Imperial powers create countries, just as the British created Malaya and Malaysia. When the Imperial powers can create countries, they will also arrogate to erase, delete and cancel the boundaries of victimised countries. For heaven’s sake research on the Sykes-Picot agreement on the division of the entire “Middle East” region into what is Syria, Lebanon, Iraq, Saudi Arabia, Kuwait, Jordan, and the punishment of the Kurds (Saladin was a Kurd) by not allowing a nation to be established for the Kurds. The Hegemon has Turkey, a Muslim nation and a member of NATO, yet the US is arming and training the Kurds at the borders of Turkey. Why? They don’t trust Muslims!

What we know today as South-East Asia (ASEAN), was prior to the creation of Malaya and Indonesia, controlled by the Dutch and the entire region was named the “Dutch East Indies”, administered by the Dutch East India Company, which was subsequently transformed to the British East India Company.

The choke point to the South China Sea is the Straits of Malacca and the entry and passage etc. was dominated and controlled by the then British Straits Settlements of Penang, Malacca and Singapore.

**Singapore evolved to be the “Island Aircraft Carrier” for the Empire at the Southern tip. Penang / Butterworth controls the Northern tip.**

Decades ago, the British anticipated and pre-empted the rise of Indonesia (an US vassal state) to be the regional power. Hence, the British rushed to establish Malaysia, with Sarawak and Sabah in North Borneo, the remaining British colonial geopolitical real estate, to ensure stability and obedience in the region

That anticipation proved prescient for the continued British control of the region.

The Washington Post etc. on 21 May 1998 reported, *“Albright’s remarks, in a commencement address to the U.S. Coast Guard Academy, represent the Clinton administration’s most forceful effort to date to persuade Suharto to relinquish the office he has held for 32 years. But they stopped well short of what congressional critics are demanding. Although Albright revels in her reputation for candour, her words this time were carefully chosen to avoid the appearance of an ultimatum to Suharto. The Indonesian leader has enjoyed generally friendly relations with Washington despite his administration’s rampant corruption and a governing style that the State Department’s human rights report described as “strongly authoritarian.”*

**And today, Indonesia has shifted her capital from Jakarta to Nusantara, located in East Kalimantan on the island of Borneo. The city is being built in a rainforest about 2,000 kilometers from Jakarta. Is it really too far-fetched for Matthias Chang to warn that Malaysia is fractured and will be further fractured. See [Map 3](#) below.**

In the light of President Trump's geopolitical real estate gambit, Britain or the US must ensure that the gateway to the South-China Sea is under their hegemonic control. It maybe counter-intuitive for arsehole Malaysians to surmise that for the hegemons, chaos, instability, divide and conquer is the preferred template for Imperial control, as opposed to fostering stability!

Singapore's role is a "given" and can be relied upon for full obedience.

Malaysia has in the Northern tip of the Straits of Malacca, the RMAF base at Butterworth. For more details on the current status, research from the source – <https://www.defence.gov.au/defence-activities/programs-initiatives/pacific-engagement/rmaf-butterworth-malaysia>

Australia has a strong bilateral defence relationship with Malaysia, underpinned by Australia's ADF presence at Butterworth, shared engagement under the Five Power Defence Arrangements, and defence cooperation activities (AKA Malaysia-Australia Joint Defence Program (MAJDP)).

**Kedahans should be very circumspect in their political agenda to claim Penang as part of the state of Kedah. The Imperial powers are watching and if this agenda rattles the nerves of the hegemon, all bets are off! The assertion that Malaysia is an independent and sovereign state and will not be part of any imperial equation is naïve. Any challenge to the imperial powers that be, will be catastrophic!**

**Consider:**

- **If President Trump can openly and publicly demand the control of Greenland, the Panama Canal and Canada be the 51<sup>st</sup> state;**
- **When Iraq can be devastated with two wars and sectarian chaos;**
- **When Libya was transformed from being the richest African State to a basket case;**
- **Saudi Arabia and the Gulf States (on the threats of coups) have behaved and obeyed;**
- **When Syria as a secular state, no longer exists;**

**Malaysia can easily be destroyed – a walk in the park – for the Zionist Anglo-American Empire.**

**Malaysians – UNITE, UNITE and UNITE!**
