

# Inevitable Nuclear War – Dance Of The Wushu Grandmasters. Guaranteed -Trump Will Be A War President!

By Matthias Chang – Future Fast-Forward

## So what, if there is a nuclear war?

President Trump wants a nuclear war, to convince moronic Americans that he had no choice but to save the Empire already on the decline. No other choice when all baits and traps against Russia and China failed! Last suicide poker card to be played! The Grand Theatre by the Empire to hoodwink the world!

Stop your hypocrisy and condemnations. Stop your cowardice and hypocritical squeamish, and think, think before you utter a damn word against me!

For sure, **I would press the Red Button if I had nuclear weapons**, to save my country and the brutal slaughter of Malaysians in the millions. Why should be it be shocking when USA did not hesitate to drop nuclear bombs at Nagasaki and Hiroshima to *blackmail the entire world to be subservient to the Zionist Anglo-American Empire, when the fascist Japanese were already defeated in WWII?*

## The Wushu Grand Masters Dancing The Wrong Dance

The Soviet Union paid the heaviest price to defeat Nazi Germany in WWII when **over 27 million men, women and children died in the Great Patriot War** and **millions more died in China** when Japan invaded China. No freaking historian dare declare the number of Chinese victims, because the Chinese were mere “Yellow Hordes” – considered not even humans. Hence, China declared the 20th century as the century of the humiliation of the Chinese people!

The then Soviet Union and China had no nuclear weapons to save their people but to fight a horrendous “**conventional war**” in WWII.

**I will be vindicated by history that the leaders of the then Soviet Union and China would have no qualms in unleashing the nuclear bombs to save millions, who died unnecessarily.**

**Who were the Masterminds? The British Empire’s ruling elites, not the government at White Hall, but the imperialist families in control at the City of London.**

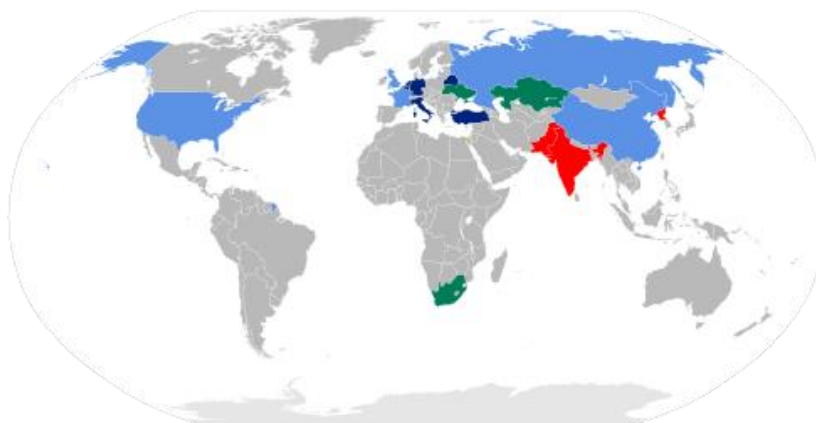

I have the highest respect for the leadership of President Putin and President Xi, but having personally observed the wielding of power at the closest quarters, the present strategies and tactics adopted by them are wrong, grievously wrong

as the strategies employed will not guarantee any lasting peace – but merely postponing the inevitable nuclear war by a decade (at the latest) and by 2025 - 2026 (at the earliest).

## The Idiotic Myth of Nuclear Weapons

If **nuclear weapons are the ultimate destructive weapons** then ask why and ponder on following (it does not mean they are not destructive, if we query):

- From a high of 70,300 **active weapons** in 1986, as of 2024 there are approximately 3,880 active nuclear warheads and **12,119 total nuclear warheads** in the world;
- According to the [Federation of American Scientists](#) there are approximately 3,880 active nuclear warheads and 12,119 total nuclear warheads in the world as of 2024. Source: *Kristensen, Hans M. (2023). "Status Of World Nuclear Forces". Bulletin of the Atomic Scientists. 79 (1): 28–52.*
- The [Stockholm International Peace Research Institute](#) (SIPRI) estimated in 2024 that the total number of nuclear warheads acquired by nuclear states reached 12,121. **Approximately 9,585 are kept with military stockpiles.**
- About **3,904 warheads are deployed** with operational forces. 2,100 warheads, which are primarily from Russia and the United States, are maintained for high operational alerts.

Map of [nuclear-armed](#) states of the world

**NPT**-designated nuclear weapon states ([China](#), [France](#), [Russia](#), [United Kingdom](#), [United States](#))

**Other states with nuclear weapons** ([India](#), [North Korea](#), [Pakistan](#))

**Other states presumed to have nuclear weapons** ([Israel](#))

**NATO** or **CSTO** member **nuclear weapons sharing** states ([Belgium](#), [Germany](#), [Italy](#), [Netherlands](#), [Turkey](#), [Belarus](#))

**States formerly possessing nuclear weapons** ([Kazakhstan](#), [South Africa](#), [Ukraine](#))

Wikipedia gave an insightful summary below:

*The United States was the first nation to develop the [hydrogen bomb](#), testing an experimental prototype in 1952 ("[Ivy Mike](#)") and a deployable weapon in 1954 ("[Castle Bravo](#)"). Throughout the [Cold War](#) it continued to modernize and enlarge its nuclear arsenal, but from 1992 on has been involved primarily in a program of [stockpile stewardship](#). The US nuclear arsenal contained 31,175 warheads at its Cold War height (in 1966). During the Cold War, the United States built more nuclear weapons than all other nations at approximately 70,000 warheads.*

*The Soviet Union tested its first nuclear weapon ("[RDS-1](#)") in 1949. This crash project was developed partially with information obtained via the [atomic spies](#) at the United States' Manhattan Project during and after World War II. The Soviet Union was the second nation to have developed and tested a nuclear weapon. It tested its first megaton-range hydrogen bomb ("[RDS-37](#)") in 1955. The Soviet Union also tested the most powerful explosive ever detonated by humans, ("[Tsar Bomba](#)"), with a theoretical yield of 100 megatons, reduced to 50 when detonated. After its dissolution in 1991, the Soviet weapons entered officially into the possession of its [successor state](#), the Russian Federation. The Soviet nuclear arsenal contained some 45,000 [warheads](#) at its peak (in 1986), more than any other nation had possessed at any point in history; the Soviet Union built about 55,000 nuclear warheads since 1949.*

*China tested its first nuclear weapon device ("[596](#)") in 1964 at the [Lop Nur](#) test site. The weapon was developed as a deterrent against both the United States and the Soviet Union. Two years later, China had a fission bomb capable of being put onto a [nuclear missile](#). It tested its first hydrogen bomb ("[Test No. 6](#)") in 1967, 32 months after testing its first nuclear weapon (the shortest fission-to-fusion development known in history). China is the only NPT nuclear-weapon state to give an unqualified negative [security assurance](#) with its "[no first use](#)" policy. China acceded to the Nuclear Non-Proliferation Treaty in 1992. As of 2016, China fielded SLBMs on-board its [JL-2](#) submarines. As of February 2024, China had an estimated total inventory of approximately 500 warheads.*

**Given the above analysis, data, and the propaganda that nuclear war is so destructive, why the fuck, do we have so many nuclear warheads?**

**If ever there is a deterrent to any wars, all the "Wushu Grand Masters" need to do is to state and vowed to do the following devastation:**

- **Detonate a nuclear bomb over the City of London;**
- **Detonate a bomb over Paris;**
- **Detonate a nuclear bomb over Washington DC;**
- **Detonate a nuclear bomb over Moscow;**
- **Detonate a nuclear bomb over Beijing;**
- **If there are no cessation of hostilities within an hour of the abovementioned detonations, two more cities will be bombed automatically in the above-named countries.**

- Forget about concentrating and bombing the nuclear sites of each country. Wipe off the capital cities, and the people armed with pitchforks and knives will cut the throats of the politicians who unleashed wars on the world and hang their heads from the lamp-posts. Even then, less than 27 million people would die as in the Soviet Union during WWII.
- Then we will know without a doubt, the main culprits are the British Empire as embodied in the City of London!

Why go through the theatrics and hypocrisy about peace etc. when all the Wushu Grand Masters are now preparing for war, just waiting as to who will be baited first to start the war and get the blame.

Observe the deceitfulness of the British Empire, never in the forefront but using the US military to do her bidding, to wage war against Russia and China and condemn everyone as a “terrorist, an extremist, a religious fanatic (if you are of the Islamic Faith) and a war monger for exposing this deception and agenda!

**The biggest war criminal and mass murderer is the moribund British Empire, but still aspiring to be the top dog in global affairs.**

## **Diplomacy – The Official Cover And Mere Prelude To War**

A necessary summary:

Diplomacy (the sophisticated misnomer of negotiations), enables the brute war criminals, to **create allies and demand subservience** as a **prelude to war**. **Neutral parties are encouraged to walk back on their foreign policies** and be willing **proxies for the “small” wars** (e.g. Ukraine) before the start of the global war!

**Diplomacy after the wars is to divide the spoils of war. This is the reality - “Diplomacy 101”**

From Britannica (the reality):

*Despite the presence of a Latin American bloc and a few independent or quasi-independent states of [Africa](#) and [Asia](#), the League of Nations was a European club. Diplomats became orators again in the halls of [Geneva](#), but the topics of parliamentary [diplomacy](#) were often trivial. Decisions taken in public were rehearsed in secret sessions. On important matters foreign ministers attending League councils met privately in hotel rooms.*

*In [Europe](#), where electorates were constantly preoccupied with [foreign policy](#), this problem was most [acute](#). Statesmen, trailed by the popular press, engaged in personal diplomacy at frequent conferences. Foreign offices, diplomats, and quiet negotiation were eclipsed as prime ministers*

and their staffs executed policy in a blaze of publicity. Governments, led by Britain and Germany, manipulated this publicity to influence public opinion in favour of their policies. As the masses became concerned with such matters, unprecedented steps were taken to bribe the foreign press, to plant stories, and to use public occasions for propaganda speeches aimed at foreign audiences. Because public opinion set the parameters in which foreign policy operated in democratic societies, these efforts had an effect.

After World War II the world divided into two tight blocs, one dominated by the United States and one by the Soviet Union, with a fragile nonaligned movement (mostly of newly independent countries) lying precariously in between. The Cold War took place under the threat of nuclear catastrophe and gave rise to two major alliances—the North Atlantic Treaty Organization, led by the United States, and the Warsaw Pact, led by the Soviet Union—along with a conventional and nuclear arms race, endless disarmament negotiations, much conference diplomacy, many summits, and periodic crisis management, a form of negotiation aimed at living with a problem, not solving it.

The widening Cold War entailed more espionage, of which ambassadors were officially ignorant but which was conducted by attachés and chauffeurs alike; thus, large embassies appeared in small but strategic countries. Propaganda, the export of officially sanctioned information, and so-called “cultural diplomacy”—as typified by the international tours of Russian dance companies and the cultural programs of the Alliance Française, the British Council, and various American libraries—expanded as well. Cold War competition also extended to international arms transfers. Gifts or sales of weapons and military training were a means of influencing foreign armed forces and consolidating long-term relationships with key elements of foreign governments. The increasing complexity and expense of modern weapons systems also made military exports essential for preserving industrial capacity and employment in the arms industries of the major powers. Diplomats thus became arms merchants, competing with allies and enemies alike for sales to their host governments.

This is the main reason why the Deep State and the Empire hates me so much for being so blunt in exposing their lies and hypocrisy!

Wake Up!
