

The Zionist British Empire Must Exhaust And Destroy The US To Maintain & Sustain The Unipolar World Under Supreme British Hegemony

By Matthias Chang – Future Fast-Forward

This analysis is Part II of the article which I had shared with you yesterday. All the previous major empires were European based empires – the Portuguese, the Spanish, the German and they all feared the rise of the then Russia, China and Japan. **All major wars were continental European wars for supremacy over the continent.**

Unfortunately, this is not even considered by our Foreign Office (Wisma Putra). The “British Commonwealth” (another name for the British Empire and former colonies) is still subservient to the British masters, notwithstanding the granting of Independence to the colonies.

The formation of Malaysia under the tutelage of the British was to checkmate the geopolitical ambitions of Indonesia to be the regional power of the “Eastern Archipelago” after the failed attempt by the Japanese in the events leading to WWII.

Though the British Empire was **NOT DIRECTLY** involved behind the Japanese concept of the Greater East Asia Co-Prosperity Sphere, the concept emerged as a way to establish a new regional order centred around Japanese leadership and to exploit resources in Southeast Asia, with the goal of pushing out Western powers like Britain. **It is not in dispute that Japan did draw inspiration from pre-existing concepts of spheres of influence and aspects of the British Empire's own colonial practices. Study also the analysis of The Greater East Asia Co-prosperity Sphere by W. G. Beasley.**

I have stated repeatedly that the **US MILITARY** was the **BULLY** of the Zionist British Empire but the “Gringos” were too intoxicated by the propaganda that the United States after WWII, would be the sole Global Supreme Power while in reality the British elites at all material times called the tune and enticed the Gringos to do all the British Empire’s dirty work. I am willing to debate with anyone to be proven wrong.

A Caveat – Diplomatic Language:

To understand and appreciate the aims and vision of the British Empire, we must learn to discard the “diplomatic language” and discover the hidden agendas for global control. This is the burden which all brainwashed Malaysians have to bear because we are focusing on the “micro” and not the “macro” aspects of the control of geopolitics. We are culturally fucked and kept confined in the proverbial box, imprisoned by the narrow and myopic Malaysian perspective.

So, why have there been zero analysis of the **“New Atlantic Charter”** signed by the then UK Prime Minister, Boris Johnson and President Biden on **10th June 2021?**

This is because Malaysians don't even know the agenda of the **original “Atlantic Charter” on 14th August, 1941, BEFORE** the end of WWII! They were so cocksure of winning WWII, **before the defeat of Nazi Germany in Europe and the Japanese in the Pacific.**

The Japanese lost WWII when they **invaded** Pearl Harbour. Nazi Germany lost WWII when they **were defeated** by the Russians on the Eastern Front. The Normandy landing was a sideshow for Hollywood, just like Trump's “Apprentice” - a reality drama for the US viewers.

Even If the Russians were defeated by Nazi Germany, the British Empire would still reign supreme as the British Royal family are of German lineage – this is primarily due to the House of Hanover, which ruled Great Britain from 1714 to 1901. They were of German origin and many of the subsequent royal family members married into German royal families, including Queen Victoria's marriage to Prince Albert of Saxe-Coburg and Gotha.

The **Atlantic Charter** was a statement issued on **14 August 1941** that set out American and British goals for the world after the end of World War II, **months before the US officially entered the war**. The joint statement, later dubbed the Atlantic Charter, outlined the aims of the United States and the United Kingdom for the post-war world.

The **New Atlantic Charter** is an agreement that was signed by the Prime Minister of the United Kingdom Boris Johnson and the President of the United States Joe Biden on 10 June 2021. The agreement was signed at the first face-to-face meeting between Johnson and Biden at the **2021 G7 Summit in Cornwall, England**. The meeting at which the agreement was declared was used **to redefine** the Western alliance. Joe Biden **“affirmed the Special Relationship** between the British Empire and the US and **renewed the commitment to defending the enduring democratic values that both our nations share”**. The New Atlantic Charter also reaffirmed “the commitments and aspirations set out eighty years ago,” while also addressing the “new challenges” of the 21st century.

Freaking arseholes - they divided the world BEFORE the end of WWII and have PLANNED for an updated version for the division of the world in 2021!

Arseholes!!! Instead of focusing on the geopolitical reality, you guys complain about my blunt and uncompromising language. We are screwed by our arsehole politicians in Parliament and we have the audacity to still debate on the non-issues of race, religion, culture, language and our so-called

sovereignty. We do not sit at the Geopolitical Mafia Table, **so we are part of the Menu**, a dish (maybe, the rojak, as appetisers) to be consumed by the global powers.

The Empire Has Divided The World

In Diplomatic Language - Queen's English (which we are too stupid to comprehend) Malaysian arseholes (still colonised and subjugated nitwits) have been hoodwinked again.

The New Atlantic Charter set out eight aims:

- To defend the principles and institutions of democracy and open societies
- To strengthen and adapt the institutions, laws and norms that sustain international co-operation
- To remain united behind principles of sovereignty, territorial integrity and peaceful resolution of disputes
- To harness and protect the countries' innovative edge in science and technology
- To affirm the shared responsibility to maintain collective security and international stability, including against cyber threats; and to declare the countries' nuclear deterrents to the defence of [NATO](#)
- To continue building an inclusive, fair, climate-friendly, sustainable, rules-based economy
- To prioritise climate change in all international action
- To commit to continuing to collaborate, to strengthen health systems and advance health protections

In conclusion and to kick your arse and wake you up, I append a key paragraph of the:

**JOINT STATEMENT ON THE VISIT TO THE UNITED KINGDOM OF
THE HONORABLE JOSEPH R. BIDEN JR.
PRESIDENT OF THE UNITED STATES OF AMERICA
AT THE INVITATION OF
THE RT. HON. BORIS JOHNSON M.P.
THE PRIME MINISTER OF THE UNITED KINGDOM
OF GREAT BRITAIN AND NORTHERN IRELAND**

DEFENCE & SECURITY

We commit to enhance further the world's strongest bilateral defence, security, and intelligence partnership to overcome the evolving threats of the twenty-first century. This includes threats and challenges associated with: cyberspace, foreign interference, harmful influence campaigns, illicit finance, violent conflict and extremism, and terrorism in all its forms. To this end, we will continue our partnership on those challenges, including working together closely on cyber security, countering illicit finance, and tackling all forms of terrorism by working together to address it online and enhance international collaboration on

thwarting violent extremism that is racially, ethnically or ideologically motivated, including a range of hateful and white supremacist ideologies.

Through strong and principled leadership we will work to shape and secure the international order of the future with NATO as the bedrock of our collective defence. We will work together to further strengthen and modernise NATO, and increase its common funding, so the Alliance can harness the full range of military and non-military capabilities to contest existing and new threats, including malicious cyber activity and attacks that test the resiliency of our societies. We intend to take operational measures to modernise and integrate our armed forces, and strengthen bilateral cooperation on next generation capabilities. Last month, the U.K.'s new aircraft carrier, HMS QUEEN ELIZABETH, sailed on her first operational mission with U.S. and U.K. F-35 aircraft on board – a demonstration of the unique interoperability of our Armed Forces. As we maintain close alignment on our nuclear deterrence and modernisation programs, we reaffirm our commitment to effective arms control and nuclear security, and to the goal of a world without nuclear weapons. We will draw on our extensive diplomatic, defence, security, civil and scientific cooperation to ensure Space is a safe and secure environment for all.

We look forward to bringing into force a robust bilateral data access agreement, to be based on a mutual recognition that both countries have an appropriately high level of data protection that allows law enforcement investigations on both sides of the Atlantic to obtain the evidence needed to bring offenders to justice, whilst maintaining rigorous privacy standards. We will work together to maintain tightly-controlled lawful access to communications content that is vital to the investigation and prosecution of serious crimes including terrorism and child abuse. And we will work in partnership with technology companies to do this, protecting the safety of our citizens.

I Rest My Case

The British Empire still controls the USA, and in turn controls the world, and we are just a dish on the Menu to be selected and consumed by the Global powers.

We are not sovereign, in spite of all the grandstanding and political propaganda.

We are not truly independent.

We are still subservient and slavish to the Empire.

We are still not united and spewing B.S.

We are still sleeping when TIME is of the essence.

WE WILL BE BETRAYED! PERIOD!
