

Drinking Poison Or A Shot In The Head - Both Self-Inflicted Death. Intellectual Masturbators Are Still C..ntfused And Clueless.

By Matthias Chang – Future Fast-Forward

I cannot blame the USA for committing national economic suicide. There was no choice but, the only option was the speed of death – in the forlorn hope that there could be an antidote!

Hence, death by drinking the poison! There could be still time yet for an antidote, if not a miracle.

Kamala Harris would have chosen the brutal rape, physical violence and a disfigured body inflicted by the Deep State, as the price to be paid to be the US President. The path of sexual submission was the political path of this degenerate woman! But, she was already a damaged good and useless in any deals. Epstein has served his purpose.

The Don of the global hegemonic family (the unipolar power) opted for the candidate that excels in creating confusion and smokescreens, and the political sheeple would be none the wiser. Presidents come and go, but the Don of the crime family would still be in control!

War is the only constant to sustain hegemonic power and empire.

In the Council of War, it was agreed and decided that the Russia must be annihilated first as the then Soviet Union was prepared and willing to suffer the loss of over 27 million in defeating Nazi Germany. If the need arises, tactical nukes could be deployed, preceded by “accidental destruction” of nuclear plants. Thereafter, the People’s Republic of China (China) would be easy meat to devour!

The miscalculation by the War Council was that “economic warfare” was sufficient to destroy Russia and China, economically and financially “joined at the hip” with the USA, would be the political poodle!

Understand this fundamental truth and you will understand the current geopolitical wars waged by the Western powers against Russia and China.

Malaysians can only associate wars with mass killings and genocidal slaughters but, **could never accept that financial and economic warfare are equally brutal and inevitably result in massive wanton killings.**

The harsh reality that Russia survived the financial and economic war has caused an urgent re-evaluation that China should be destroyed first and Russia

isolated, as Russia would not and could not withstand the combined might of the City of London and Wall Street!

Another miscalculation!

There are many excellent and or ground breaking publications on war, but let me introduce the indispensable book, "Falsehood in Wartime" by Arthur Ponsonby, first published in the UK in 1928 and in the US in 1929. The original title was:

"Falsehood in Wartime: Containing an Assortment of Lies, Circulated Throughout the Nations During the Great War."

This book was and still is a devastating indictment of the way **politicians and journalists deceive and lie to incite people to war**. Before proceeding further, you may want to consider the following quotations:

- You will find wars are supported by a class of argument which, after the war is over, the people find were arguments they should never have listened to – John Bright.
- When war did come we told youth, who had to get us out of it, tall tales of what it really is and of the clover beds to which it leads – JM Barrie
- In the arena of international rivalry and conflict men have placed patriotism above truthfulness as the indispensable virtue of statesmen – Stanley Baldwin
- It is easier to make money by lies than by truth. Truth has only one power, it can kindle souls. But, after all, a soul is a greater force than a crowd - G. Lowes Dickenson

It is incumbent on all of us that when we are reading any articles etc. on the Internet, watching videos on the You-tube channel we should keep in mind this passage taken from the abovementioned book:

Falsehood is a recognised and extremely useful weapon in warfare, and every country uses it quite deliberately to deceive its own people, to attract neutrals, and to mislead the enemy. The ignorant and innocent masses in each country are unaware at the time that they are being misled, and when it is all over only here and there are the falsehoods discovered and exposed.

As it is all past history and the desired effect has been produced by the stories and statements, no one troubles to investigate the facts and establish the truth.... It is, indeed, because of human credulity that lies flourish. But in war time the authoritative organisation of lying is not sufficiently recognised. Useful purpose can therefore be served in the interval of so-called peace by a warning which people can examine with dispassionate calm, that the authorities in each country do, and indeed must, resort to this practice in order, first, to justify themselves by depicting the enemy as an undiluted criminal; and secondly, to inflame popular passion sufficiently to secure recruits for the continuance of the struggle. They cannot afford to tell the truth...
