The same Obama who produced the "Leave The World Behind" video we discussed above was the president who signed Executive Order 13603 which was not rescinded by Trump or Biden!

This executive order will be initiated the once civil war breaks out and gives the government complete control of ALL resources inside our country including us and our kids hence one of the reasons that QR code was embedded within that cyber attack map!

This 5 minute video gives us a very good summation of the control Executive Order 13603 will give the globalists!:
