

Truth About CV19 Vax Awakens Public – Karen Kingston

By Greg Hunter – USAWatchdog, September 3, 2025

Karen Kingston is a biotech analyst and former Pfizer employee that warned in her very first appearance on USAWatchdog in September of 2021 that the “CV19 Vaccines are Poison.” Nearly five years ago, Kingston said, “They are only intended to poison, mutate, cause genetic mutations, and kill adults and children. They contain advanced medical technologies called lipid nanoparticles that are made of hydrogel, which contain graphene oxide (poison to humans) . . . There are strong immunosuppressants, different types of chemotherapies that could suppress your immune system while being injected by something that is going to highjack your immune system . . . and actually produce this disease-causing genetic material that can cause cancers, inflammatory diseases, genetic disorders, infertility and etc.”

And nearly five years later, every single thing Kingston predicted about the CV19 bioweapon vax has been proven true. The latest example showing the deadly and debilitating disaster that is the CV19 vax comes from a new peer reviewed study that “Finds COVID-19 ‘Vaccines’ Increase Risk of Multiple Cancers — CONFIRMS Fears of ‘Turbo Cancer’ Epidemic.” There are also diseases of “epidemic” proportions with heart, immune system and brain function, to name a few more.

Maybe this is why Florida, just today, ended all vaccine mandates. Many of these ‘vaccines’ contain deadly and debilitating mRNA. This ban also includes the CV19 “vaccine.” Kingston reports, “The Florida Department of Health, in partnership with the governor, is going to be working to end all vaccine mandates in Florida law, ALL of them, EVERY LAST ONE OF THEM,” says Florida Surgeon General Dr. Joe Ladapo.

President Trump is also questioning the CV19 vaccines and is demanding the vaccine makers justify the safety of their products. Trump said in part on Truth social, “With CDC being ripped apart over this question, I want the answer, and I want it NOW. . . I hope OPERATION WARP SPEED was as “BRILLIANT” as many say it was. If not, we all want to know about it, and why???

Kingston says, “President Trump is demanding that Pfizer shows its data. . . One report from June of 2022 from Pfizer and people calling in and they recorded it. Pfizer recorded nearly five million adverse (CV19 vax) events across nearly 1.5 million people. The most common were neurological. There were nearly 750,000 nervous system disorders. . . This is really scary. . . This was in a period of 18 months.” Kingston says there were at least a dozen other CV19 vax studies that were never released and were kept from the public.

Did Pfizer stop the shots and alert President Trump about this? NO! Now, even top former CDC officials are trashing the CV19 shots. Kingston says, “Dr.

Demetre Daskalakis, a CDC director, just repeated what HHS Secretary Kennedy said in 2021, and that is the CV19 vaccine is 'the deadliest vaccine ever made.' (So-called fact checkers said back in 2021 this was not true. In 2025, with millions of victims dead, it most certainly IS TRUE.) My point is Daskalakis repeated what Kennedy said in 2021 recently on MSNBC. They are putting it out there. They can't undo the damage that has been done. RFK Jr. just revoked more than \$500 million in research projects of mRNA. There have been a lot of movements, and it is interesting Trump is calling on the drug companies to step in and disclose their information. The last time they disclosed their information, it was horrible. . . . By the way, a lot of data they submitted to the FDA has never been released."

Multiple top people at the CDC recently have quit or been fired. Also, the Emergency Use Authorization (EUA) for the CV19 vax has been terminated. This move makes many now liable for adverse vaccine reactions. Maybe this is why CVS and Walgreens have restricted the CV19 vax after this announcement. Kingston calls what is happening now "a watershed moment of awakening" for the people who want the ugly truth to come out for the CV19 vax. Kingston says, "It's all criminal, and this is what I have always said. This is the data."

Now, Kingston says people need treatment to "detox" from the ill effects of the CV19 vax. Let's hope the treatment starts soon and we don't wait another five years to start saving lives of the CV19 vaccine injured.
