

Erika Kirk: Buried in Deep State Zionist Pedo-Politics for Greater Israel

In an interview Erika Frantzve claimed she and her mother Lori moved from Ohio to Arizona due to her mother working with US Homeland Security and Defense Department. Meanwhile, her divorced father Kent Frantzve, who also lives in Arizona headed the Military Industrial Complex giant Raytheon Israel branch. Erika won the Miss Arizona beauty pageant and competed in Trump's owned Miss USA pageant. These facts alone give her Deep State ties to both Trump and Israel.

Less than a year after finishing her reign as Miss Arizona and competing in the Donald Trump owned Miss USA Pageant, on February 5, 2014 Erika Frantzve stated in an interview with Arizona Foothills Magazine:

In the past two years we have gone global with our 'Romanian Angels' project and teamed up with the United States Marine Corps to joint sponsor an orphanage in Constanta, Romania... I absolutely love working with the military so I feel blessed that we can do that on a continual basis through Antonio Placement Center in Constanta, Romania.

This timeline places her Romanian Angels program likely begun in 2011 or 2012, which seems odd since it apparently was soon to be closed. Yet strangely, no record of its official closure date can be accessed on the internet.

In the wake of Charlie Kirk's alleged September 10th death, ever since, Charlie's wife Erika (nee Frantzve) Kirk has drawn worldwide attention, particularly over her alleged overseas Romanian Angels adoption charity involving orphanage children in Constanta, Romania. Her European philandering offshoot abroad evolved from her NGO charity "Everyday Heroes Like You" in the US she founded at the tender age of 17 in 2006, until Erika's Romanian Angels program was reportedly shut down in 2011 or 2012, not long after it was opened. Why? Because in all probability, it risked exposure as part of the global child trafficking scandal gripping Romania.

From a September 26, 2010 Aljazeera article:

Dozens of people from Romania's eastern town of Tandarei are to go on trial accused of sending children to UK to steal. According to United Nations Children's Fund, (Unicef) about 80,000 children in Romania live in institutions or with substitute families away from parental care. Following an investigation by Romanian and UK authorities, Tandarei, a small town in the east of the country, has become the centre of an international investigation over alleged child trafficking. Dozens of people are about to go on trial, accused of training children to become criminals and then sending them to Britain to carry out crimes.

Moreover, a year later on October 15, 2011, the New York Times ran a detailed human interest exposé focusing on the valiant efforts of one brave Romanian woman who dedicated her life to rescuing young girls from the child sex trafficking epidemic ravaging in and around Constanta, where Erika's program operated.

While Romania's child trafficking hub is identified by international media in both Tandarei and nearby Constanta where Erika Frantzve barely out of adolescence set up shop with her own orphanage charity operation, what are the odds that it's right where and when the locals become so fed up seeing children disappearing from their orphanages, preyed upon by evangelical charity missions fronting large scale criminal trafficking rings that Constanta residents complained to local police? Broadcast by major media outlets to the outside world as Romania's child sex trafficking capital, Constanta in 2010 and 2011 apparently provided a safe haven for barbarism amidst a child trafficking epidemic of orphans gone missing winding up child sex slaves in UK, Israel and remote private islands.

Moreover, even the Israeli newspaper Haaretz published an article as far back as December 12, 2001 titled "Romania Probes Israeli Adoption Agency Link in Organ Trafficking." So, for at least a decade it was known that Romanian children were targeted and victimized in the most heinously abusive ways. Bottom-line, if evildoers weren't extracting their bodily organs for Israel, their innocence was being brutally extracted by rape and sodomy in Israel, UK and other places around the globe. And this is where Erika chose to set up shop? Very suspicious to say the least!

Since that 2001 Haaretz article, the horrific conditions operating inside Romania had not improved at all, but only grown worse 15 years later when in May 2016, I wrote a sott.net exposé titled "Israel is the Organ Harvesting and Human Trafficking Global Ringleader." It focused on human organ trafficking victims in Eastern Europe for waiting recipients in Israel. The sad truth is young Romanian victims are still dying, having their organs harvested and sent for quick transplant to Israel for wealthy Jews. Nor have these sordid conditions improved in either Israel or Romania a half decade later in March 2021 when I completed Chapter 8 exposing how Romanians supply up to 45% of the total number of sex trafficking victims throughout Europe in Book 5 of my Pedophilia & Empire: Satan, Sodomy and the Deep State series. And then the following month in April 2021, the very next Chapter 9 uncovered "Israel, Saudi Arabia & the Gulf States: Global Child Sex Trafficking's Belly of the Beast."

For the pedophilia scourge in Romania to have grown so egregious by 2010 and 2011 that the local residents in the Tandarei-Constanta region registered formal complaints to the legal authorities reported in the NYT and Aljazeera that various foreign evangelical charities were disappearing their local orphan population at an eye-popping, highly visible rate, it has to have been pretty horrific. This notorious child trafficking ring grabbing world headlines in 2010 and 2011 was grotesquely flourishing at the exact same time and place where Erika Frantzve was running her joint Christian-US Marine Corps charity operation. It was at the very height of Constanta's negative pedo-exposure that

Erika's charity was apparently shut down. Despite the on-going, widely publicized pedo-crisis raging in the region, no subsequent state investigation ever followed through to prosecute much less probe this criminal global operation. Why? Because it involved elements within the US, Israel and British governments, confirming that guilty powerful foreign perpetrators routinely get away with their criminal trafficking pedo-operations. If you don't believe me, see for yourself at the verified, fully documented evidence available at pedoempire.org.

In addition to the implausibility of this highly publicized scandal co-occurring at the exact same time and place of Erika's child charity operation, my own 4-year research as an investigative journalist and author of the *Pedophilia & Empire* 5-book volume series, in my Chapter 8 of Book 5, I fully expose how Romania is the one nation on the European continent that supplying close to half of Europe's human trafficking victims, by far more than any other country on the continent. If you think all these facts are simply by happenstance, think again. Yet today's legacy media "[fact-checkers](#)" insist Erika's Romanian Angels operation back in 2010, 2011 and 2012 was all squeaky innocent and evangelically clean. Think again.

Plus, what are the odds that this 17-year old girl Erika Frantzve living in upscale Scottsdale, Arizona in 2006 would suddenly become founder of an international 501 charity NGO project called "Everyday Heroes Like You?" Unless of course her mother happened to be working with the US Department of Defense and Homeland Security, which Erika freely admitted in an [interview](#), while her divorced father also an Arizona resident was busily founding the US Military Industrial Complex giant Raytheon's Israel Division. Right away, we know that Erika was groomed within the cabal system to protect Zionist Israel under the cloak of evangelical Christianity that aggressively recruits and exploits Christian Zionists for the Jewish State's unholy cause. Just ask Bibi the Butcher. This wonder woman Erika, or more accurately "wonder girl" as she was still a teenager in 2006, was also already reportedly employed as a model and entertainment casting director. Erika was obviously being groomed for bigger and better things to come, like her marriage to Charlie Kirk after both meeting each other in where else but Israel. Supposedly in 2018 she went for a Turning Point [interview](#) that turned into a date, then a ready made marriage in [May 2021](#) and soon their readymade family.

It's not like the US government, through its CIA, its CIA cut-out USAID, its US military and tons of tax paid, well-financed NGOs have never been caught trafficking children from foreign nations before. Case-in-point just last year, the [Save the Children](#) charity organization was caught trafficking children out of Guatemala as just another example confirming the US Government is heavily invested in the highly lucrative business of worldwide pedophilia operations. Then speaking of pedophilia operations in Eastern Europe, again Book 5's Chapter 8 unmask high-profile pedos atop the US government and its military contractors deep into child sex trafficking operations in the former Yugoslavia bordering Romania. A [first paragraph excerpt](#):

During the US-NATO air assault war to literally, illegally “balkanize” the once sovereign nation of Yugoslavia into many pieces under the corrupt Bill Clinton regime of the late 1990s, major US civilian private defense contractors like the notorious DynCorp and the CEO-soon-to-be war criminal VP Dick Cheney’s Halliburton, with UN complicity were caught red-handed, dick-deep around the world, in child sex trafficking. Also recall courageous whistleblower Kathryn Bolkovac exposing DynCorp’s shameful participation in the movement of underage Eastern European girls in the sex slave trafficking in Bosnia with breaking headlines in 1999 (See Book 4’s Chapter 4). DynCorp’s decision to cover-up the despicable sex operation, wrongfully terminating Kathryn Bolkovac’s employment, backfired big-time as the whistle-blower righteously prevailed, eventually vindicated as a public hero in the cinematic release of the 2011 film called ‘The Whistleblower.’

In recent years peddling child flesh has become more profitable than peddling drugs. Pedophilia & Empire proves over and over ad nauseum how USG, otherwise today known as our Zionist Occupied Government (ZOG), with criminal collusion from UK’s MI6 and Israel’s Mossad representing the same global power interests, today dubiously render the USA the biggest child sex trafficker on the planet – bar none. The United States especially under Biden’s open borders has also become the world’s #1 destination for the global child sex trade scourge. Meanwhile, in the face of the on-going fallout over the Trump regime’s total denial that Israel’s Epstein-Maxwell blackmail operation procured victims for powerful child rapists, including our sitting US president as a fellow Epstein pedo-buddy, in July Trump and Secretary of State Marco Rubio gutted its Office to Monitor and Combat Trafficking in Persons. Again, Trump is protecting the VIP pedophiles.

A week after Erika’s husband’s alleged death, as of September 17th, the Turning Point USA board announced on X that Erika Kirk was unanimously elected Turning Point CEO and board chair. And within the first week after Charlie’s Turning Point exit, the organization ballooned from 32,000 to 54,000 campus chapter requests. While Israel wins back its lackey Turning Point, Netanyahu has Zionist Jews Larry Ellison and son taking over TikTok and saying “friend of Israel” Elon Musk’s X is next. With the lie of eradicating fake news and misinformation by strict enforcement of anti-hate speech/antisemitism laws, free airspace for telling the truth and reaching the masses is now being rapidly sealed off in silence. Open rebellion of the global masses to fight these Dark-force killers bent on eliminating and replacing our resistance through AI algorithmic and robotics control is their pathway to neo-feudal imprisonment and depopulation.

So cui bono in Charlie’s Kirk’s sudden exit? Definitely in professional stature, wealth, influence and power, the Zionist groomed pro-Israel CEO lackey Erika Kirk as Charlie’s replacement and her inherited Turning Point USA within 4 days after Charlie’s abrupt exit it collected over \$6 million in donations, so they benefit mightily. So do the senior ranking officials at Turning Point USA, or more apt Turncoat USA, for their criminal accomplice role as co-conspirators in total deference to the Greater Israel Project. Among the big influencers today, only Candace Owen has called out Turning Point officials, imploring them to publicly

release all their camera footage on 9/10. Guaranteed all these insiders and Erika will not in any way be criticizing Israel for its genocide against Palestinians any time soon.

This reshuffle power play means that not only all hifalutin Turning Point executives stand to benefit but also all those paid off Trump influencer supporters whose bought silence is allowing selected insiders behind this assassination hoax to get away with their crimes against all Americans. Those same cowardly MAGA maggots no longer pushing for transparency and justice on those Epstein files stand to gain in their silence. But despite their deadening silence, those who are still loyal to America and the truth will never let the Epstein culprits and enablers off the hook until they are all brought to justice.

But by far, the biggest winners in Charlie's convenient absence are Netanyahu, Trump, Israel and their bribing, blackmailing City of London controllers, now plunging humanity off Armageddon cliff in favour of their digital IDs, more censorship, more kill shots and weaponised hate speech thought crime tyranny. But in opposition to this staged theatre fakery, bluster and geopolitical suicide, Americans and the world are finally waking up to today's ugly crime cabal evil, frantically pushing its long plotted global economic collapse, WWII, martial law and techno-totalitarian enslavement.
