### Why Trump Demands and Needs Greenland

Venezuela was a dress rehearsal for the total control of the Western hemisphere. It was not the ultimate prize for Donald Trump who aspires to be the “Emperor of the World”. After WWII, the deal was hatched by the victorious powers to divide the world into various spheres of influence. The Warsaw Pact gave almost half of Europe to the Soviet Union.

The United States was given complete control of North and Southern America and agreed to wait for the future to sit on the Throne as the legitimate successor to the British Empire. Asia was still up for grabs for the successful warring parties – US, Britain and France!

It was to be settled later. The Vietnam War was still fresh in the minds of the US Deep State! And the skirmish in Afghanistan cost them US\$ Trillions and President Biden was embarrassed by that adventure.

The collapse of the Soviet Union and the end of the Cold War gave rise to a host of problems. **There were no US presidents strong and cunning enough to assert as the genuine successor to the dying British Empire until Donald Trump agreed and was chosen to play the final game and settle the issue once and for all.**

#### Wikipedia Explains

*Although Greenland remains part of the Kingdom of Denmark, the island's home-rule government is responsible for most domestic affairs. The Greenlandic people are primarily Inuit who, depending upon the region they are from, call themselves Kalaallit (West Greenlanders), Inugguit (from Thule district), or It (East Greenlanders). They call their homeland Kalaallit Nunaat ("Country of the Greenlanders"). The capital of Greenland is Nuuk (Godthåb).*

**There was no way for Donald to let a tiny country like Denmark to control such a gigantic real estate. Adding insult to injury the US had a huge military base in Greenland to safeguard the property but has no propriety right.**

As far as Donald Trump is concerned, Russia and China must be deterred from having any ideas to seize this valuable real estate. The quid pro quo for Europe is that they must give up Greenland for the US to provide protection against Russia! The backyard of the US Empire must include Greenland. Period

**This is the geopolitical mind-set of President Trump.**

**See the map above.**

Britain is to walk away from Canada so that the entire “Western Hemisphere” is owned by the United States and no one else. Canada will be the 51<sup>st</sup> State of the USA

Hence the current deal on the table – EU can have the entire European continent if they can keep it without the help of the USA. They must deal with Russia alone. Ukraine has fucked up the Europeans. NATO was defeated in Ukraine. So EU needs the USA.

And when China cannot even chew Taiwan, let them be bogged down with India, Asia and fight with Japan!

**Hate Donald Trump if you must, but no Western political leaders dare carve out the world as he has done. This is the mental agility of a hegemonic leader of an Imperial power!**

**This is the cruel reality of imperial power. What are your plans if you want to challenge the Empire?**
